**American 15-year-olds rank 35th out of 57 countries in math and literacy, behind almost all industrialized nations!
Americans shouldn't rank 35th in anything!**

IT'S TIME FOR AN EDUCATION **REVOLUTION**

Restoring America's Exceptionalism

For too long we've allowed our children, our hope for tomorrow, to be shuffled through a broken system. But if we want the best for our children and grandchildren - if we want them to achieve the things they dream - if we want to ensure that they will enjoy the same high quality of life that we have, we must act now.

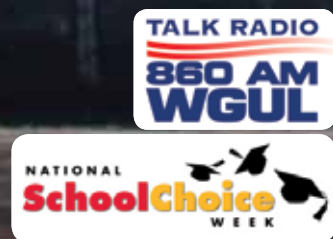

WE KNOW IT CAN BE DONE!
Be part of the Education Revolution to
restore America's exceptionalism!

Education is not a partisan issue, it's an American issue!
Our future depends on it!

Join us on the Education Revolution Tour
presented by Talk Radio 860 AM WGUL
and School Choice Week.
