# RIGHT-TO-WORK WILL STEER WEST VIRGINIA TOWARD SUCCESS.

*Now is the Time to Get Your Lawmaker to Act.*

## **Accelerating Economic Growth.**

A West Virginia University study has shown that right-to-work would increase our economic output and employment. Right-to-work is the solution to the unemployment problem that plagues our families – the solution we must demand **now**.<sup>1</sup>

## **Putting the Brakes on Job Loss.**

Over the course of a decade, right-to-work states have added 1.7 million jobs. Meanwhile, forced-union states have lost more than 2 million jobs. We can't continue this downward trend any longer.<sup>2</sup>

## **Back in the Fast Lane.**

West Virginia has lost nearly \$1 billion to states with right-to-work laws. We can't afford to lose jobs that our hard-working families desperately need; right-to-work can help bring those jobs back home.<sup>3</sup>
