**Boondoggles**

AFPF-AZ does not have a means of objectively scoring the impact of local-government boondoggles, including corporate welfare handouts and tax abatements awarded to politically-connected developers, except insofar as those boondoggles increase current operations and capital budgets.

**Absence**

If an official is absent for all key votes, such is noted in the "Category" column. Officials who are present for at least one key vote receive a score of zero for missed votes, and receive a total score.

**Failed  
to Post**

Schedules A & B of the state-required budget reports should be posted on a jurisdiction's website, as well as the minutes for the board/council meetings at which the final budget and final property tax levies are approved by roll call vote. The Category designates failure to post the documents by October. AFPF-Arizona will update past and present scorecards to incorporate missing data, if city officials send us links to Schedules A & B, and to the minutes for the meetings in which the budgets and levies received final approval.

**Note on  
Property Levies**

When a property tax levy is less than one percent of a district's budget, the levy is dropped from the scoring rubric.

AFPF-Arizona thanks Caleb Rhodes for contributing to the research for the FY 2014 Scorecard.
