**Boondoggles**

AFP-AZ does not have a means of objectively scoring the impact of local-government boondoggles, including corporate welfare handouts and tax abatements awarded to politically-connected developers, except insofar as those boondoggles increase current operations and capital budgets.

**Absence**

If an official is absent for all key votes, such is noted in the "Category" column. Officials who are present for at least one key vote receive a score of zero for missed votes, and receive a total score.

**Failed to Post**

Schedules A & B of the state-required budget reports should be posted on a jurisdiction's website, as well as the minutes for the board/council meetings at which the final budget and final property tax levies are approved by roll call vote. The Category designates failure to post the documents by October.

Note: Arizona statute requires all cities, towns and counties to post Schedules A and B, and to post all meeting minutes, to their websites; many Arizona taxing districts are in violation of the law. AFPF-Arizona will update past and present scorecards to incorporate missing data and to correct errors, if officials will send us links to Schedules A & B, and to the minutes for the meetings in which the budgets and levies and sales tax increases/referenda received final approval.

**Note on Property Levies**

When a property tax levy is less than one percent of a district's budget, the levy is dropped from the scoring rubric.

**Note on Lean Government Bonus**

Since CY 2015, AFP-AZ's Local Government Scorecard has included a The bonus point is awarded to three categories of municipalities (top 20% for each category), defined as the total approved budget amount estimated population. The three types of municipalities for the lean budget bonus are: cities under 50,000 in population, cities over 50,000 in population, and all Arizona counties.
