Ryan,

In response to Plaintiff's inquiries, first, future FOIA productions will be sent without the password protection. Second, DHS can confirm that page 62 (DHS-001-02015-000062) consists of two instances that Secretary Mayorkas utilized his personal email account. In one of the two emails, Secretary Mayorkas forwarded the email from his personal account to his DHS account pursuant to DHS policy. DHS has no reason to believe that his personal email account would include responsive records.

Best,

[REDACTED]
