

In Reply Refer To: **FOIA Request 21-06268-F**

February 10, 2023

Ryan Mulvey
Americans For Prosperity Foundation
1310 N. Courthouse Rd
Arlington, VA, 22201

Dear Mr. Mulvey:

This letter is the seventh email production in response to your May 27, 2021, request under the Freedom of Information Act (FOIA), 5 U.S.C. § 552, submitted to the Department of Veterans Affairs (VA) Veterans Health Administration (VHA) Central Office FOIA Office, requesting the following records:

1. "Records reflecting aggregate totals and percentages for pending and completed appointment wait times and related data, as previously disclosed in summary form at the Veterans Health Administration ("VHA") "Patient Access Data" portal, <https://www.va.gov/health/accessaudit.asp>. The time period for this item is March 1, 2021 to the present records that reflect the requested data on a monthly basis (e.g., total number of scheduled appointments for each month of the requested time period) or per reporting period. If month-by-month or period-by-period data is unavailable, please provide the requested data in the form otherwise maintained by the agency. If responsive records are kept in a CSV or Excel format, please produce the records in their native format.
2. All records concerning the VHA's decision to eliminate proactive disclosure of patient access in nation-wide summary form, as previously available at the "Patient Access Data" portal, <https://www.va.gov/health/access-audit.asp>. The time period for this item of the request is January 1, 2021 to the present.
3. All guidance documents, legal opinions, administrative orders, directives, or policy statements issued by the VA concerning any of the following topics:
 - a. Interpretation of the VCCP regulations and designated access standards, including the agency's method for calculating wait times (e.g., discussion of the difference between "date of request," "patient preferred date," and "clinically indicated date");
 - b. The process by which the VA obtains patient consent to schedule an appointment outside the 20-/28-period established by the VCCP designated access standards;
 - c. Limiting or dissuading veterans from using community care; and
 - d. The impact of the COVID-19 pandemic on administration of the VCCP.

4. All records reflecting communications between or amongst any of the following entities, offices, or components concerning any of the topics listed in Item Three: (a) VHA, (b) VA Office of the Secretary, (c) VA Office of General Counsel, (d) White House Office of Management and Budget, (e) White House Domestic Policy Council, or (f) Office of the White House Counsel.
5. All records concerning congressional requests or inquiries pertaining to any of the topics listed in Item Three. This item includes, but is not limited to, records originating with any Member or entity of Congress, formal agency responses thereto, and internal VA communications regarding the congressional request or inquiry. Searches should be conducted, at a minimum, within the VHA, VA Office of the Secretary, VA Office of General Counsel, and VA Office of Public and Intergovernmental Affairs.”

Additionally, on or around May 28, 2021; fourteen (14) VA Medical Center FOIA Offices received the following requests:

“Pursuant to the Freedom of Information Act, 5 U.S.C. § 552 (“FOIA”), AFPP hereby requests access to the following categories of records concerning operation of the (previously indicated) VA Medical Center hospital. The time period for all items of this request is January 1, 2020 to the present. Please note: to the extent an item of this request seeks data (i.e., Items 1–7 and 9), please provide records reflecting that data on a monthly basis (e.g., total number of scheduled appointments for each month of the requested time period). If month-by-month data is unavailable, please provide the requested data in the aggregate or in the form otherwise maintained by the agency. If responsive records are kept in a CSV or Excel format, please produce the records in their native format.

1. Records reflecting the total number of appointments scheduled.
2. Records reflecting the total number of appointments completed.
3. Records reflecting the total number of appointments cancelled:
 - a. By a VA health care provider; and
 - b. By a patient.
4. Records reflecting the total number and percentage of appointments for primary care, mental health care, or non-institutional extended care services scheduled:
 - a. Within 20 days of a patient’s date of request; and
 - b. Over 20 days of a patient’s date of request.
5. Records reflecting the total number and percentage of appointments for specialty care scheduled:
 - a. Within 28 days of a patient’s date of request; and
 - b. Over 28 days of a patient’s date of request.
6. Records reflecting the total number of patients who, in consultation with a VA health care provider, agreed to schedule an appointment outside the 20-/28-day period established by the VCCP designated access standards.
7. Records reflecting the total number of patients who refused to schedule an appointment outside the 20-/28-day period established by the VCCP designated access standards.

8. All records reflecting the policies and practices for documenting whether a patient agrees or refuses to schedule an appointment outside the 20-/28-day period established by the VCCP designated access standards. This item would include, for example, any blank, standardized form(s) for memorializing such patient consent.
9. Records reflecting the total number and percentage of patients:
 - a. Eligible for community care under the VCCP;
 - b. Who have elected to receive community care under the VCCP; and
 - c. Who have declined to receive community care under the VCCP.
10. All guidance documents, legal opinions, administrative orders, directives, policy statements, or communications exchanged between the (previously indicated) VA Medical Center hospital and the Veterans Health Administration, VA Office of General Counsel, VA Office of the Secretary, White House Office of Management and Budget, or White House Domestic Policy Council concerning:
 - a. Interpretation of the VCCP regulations and designated access standards, including the agency’s method for calculating wait times (e.g., discussion of the difference between “date of request,” “patient preferred date,” and “clinically indicated date”);
 - b. The process by which the VA obtains patient consent to schedule an appointment outside the 20-/28-period established by the VCCP designated access standards;
 - c. Limiting or dissuading veterans from using community care; and
 - d. The impact of the COVID-19 pandemic on administration of the VCCP.”

Consolidation:

Per communication in or about September 2021, we notified you through counsel that we consolidated all of the above-mentioned FOIA requests into one tracking number, 21-06268-F (appearing at the top of this letter), for ease of use and tracking post litigation filing. Any further communication will be under FOIA tracking number 21-06268-F.

Search Terms:

As agreed upon on in discussions and memorialized in writing (via email) around May 16, 2022, the parties agreed on the following search terms and custodians:

Search Item	Search Terms	Custodians
<p>Search #1, <u>HQ</u> <u>FOIA ITEM 2</u></p>	<p>[(“access to care” OR “patient access”) AND (“data” OR “numbers”)]</p> <p>AND (“website” OR “site” OR “portal”)</p> <p>AND (“transfer” OR “move” OR “shift” OR “relocate” OR “create date” OR “inspector general”)</p>	<ul style="list-style-type: none"> • Kirsh • Lieberman • Hudson • Oshinski • Stone

--	---	---

Email Production:

In addition to the production outlined below, we are also enclosing Bates page 2289, released in full. Bates number page 2289 was inadvertently missed in the January 2023 production. This page would have occurred before Bates page #2174.

This production is in response to Search #4 of your request.

Search #4-

3. All guidance documents, legal opinions, administrative orders, directives, or policy statements issued by the VA concerning any of the following topics:
 - b. The process by which the VA obtains patient consent to schedule an appointment outside the 20-/28-period established by the VCCP designated access standards;

4. “All records reflecting communications between or amongst any of the following entities, offices, or components concerning any of the topics listed in Item Three: (a) VHA, (b) VA Office of the Secretary, (c) VA Office of General Counsel, (d) White House Office of Management and Budget, (e) White House Domestic Policy Council, or (f) Office of the White House Counsel.”

5. “All records concerning congressional requests or inquiries pertaining to any of the topics listed in item three. This item includes, but is not limited to, records originating with any Member or entity of Congress, formal agency responses thereto, and internal VA communications regarding the congressional request or inquiry. Searches should be conducted, at a minimum, within the VHA, VA Office of the Secretary, VA Office of General Counsel, and VA Office of Public and Intergovernmental Affairs.”

10. All guidance documents, legal opinions, administrative orders, directives, policy statements, or communications exchanged between the (previously indicated) VA Medical Center hospital and the Veterans Health Administration, VA Office of General Counsel, VA Office of the Secretary, White House Office of Management and Budget, or White House Domestic Policy Council concerning:
- b. The process by which the VA obtains patient consent to schedule an appointment outside the 20-/28-period established by the VCCP designated access standards;

The time period for this item of the request is January 1, 2020 to the present.

As noted above, the search terms include:

("VCCP" OR "Community Care" OR "MISSION Act") AND ("access standards" OR "wait times") AND [("method*" OR "calculat*") AND ("process" OR "procedure" OR "direct*" OR "policy" OR "memo*")]

These search terms were applied to the following custodian mailboxes:

- Mark Upton
- Kameron Matthews
- Teresa Boyd
- Kristen Cunningham
- Steven Lieberman
- Clinton Greenstone
- Jennifer MacDonald
- Brooks Tucker
- Tanya Bradsher
- Richard Sauber
- William Hudson, Jr.
- Susan Blauert
- Pamela Powers
- Christopher Henson
- Meghan Raftery
- Richard Stone
- Carolyn Clancy
- Renee Oshinski
- Robert Wilkie (x2)
- Denis McDonough (x2)

We processed thirty-three (33) pages as non-responsive for this search. There were also two (2) blank pages that appeared in this search and were not processed. Additionally, we processed five hundred and two (502) responsive pages for this search.

The Bates numbers for this dataset start at number 2289 and are located at the top center of the pages. The Bates numbering appears on the top center of the documents, any additional numbering that appear are original to the documents.

Determination:

My review of the documents revealed that they contained information that falls within the disclosure protections of FOIA Exemption 5 U.S.C. § 552(b)(5) and FOIA Exemption 6, 5 U.S.C. § 552(b)(6).

FOIA Exemption 5 provides that an agency need not disclose "inter-agency or intra-agency memorandums or letters that would not be available by law to a party other than an agency in litigation with the agency." Thus, Exemption 5 shields agency-created records that would be protected from civil discovery by a recognized evidentiary or discovery privilege.

Accordingly, Exemption 5 includes the deliberative-process privilege. That privilege covers records reflecting advisory opinions, recommendations, and deliberations that comprise part of a process by which governmental decisions and policies are formulated. Stated more concretely, the deliberative-process privilege exempts an agency record from disclosure under FOIA if the information it contains is both pre-decisional and deliberative.

My review of the records identified as responsive to your FOIA request reveals that they contain information that falls within the protection of Exemption 5. The opinions, recommendations, risks/issues, next steps, and mitigation factors within the enclosed records marked with Exemption 5 redactions are pre-decisional, as they were expressed in advance of their relevant agency decisions. Furthermore, the redacted portions are deliberative because they contain the unadopted opinions of VA personnel participating in the decision-making process. Release of this information would cause injury to the deliberative process, as the release of the pre-decisional records to the public would negatively impact frank discussion on matters of policy between agency personnel. Consequently, VA denies your request for this information under FOIA Exemption 5, 5 U.S.C. § 552(b)(5).

Additionally, Exemption 5 also permits the withholding of a document or information that is protected by "attorney work-product privilege" as well as "attorney-client privilege." The specific information I am withholding consists of privileged communications for the purpose of providing legal guidance for which the client has sought legal guidance. I have determined disclosure would cause a reasonably foreseeable harm to the communication between the agency's attorney and VHA. Consequently, I am withholding this information under the attorney-client and attorney work-product privilege of Exemption 5.

FOIA Exemption 6 permits VA to withhold a document or information contained within a document if disclosure of the information would constitute a clearly unwarranted invasion of a living individual's personal privacy. Stated another way, VA may withhold

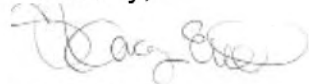

information under FOIA Exemption 6 where disclosure of the information, either by itself or in conjunction with other information available to either the public or the FOIA requester, would result in an unwarranted invasion of an individual's personal privacy without contributing significantly to the public's understanding of the activities of the federal government.

More specifically, the information I am withholding, as indicated on the enclosed documents, under FOIA Exemption 6 consists of: employee names, employee titles, employee email addresses, and connection and direct dial in information for employee meetings, as the individuals associated with this information have a personal privacy interest in it.

The coverage of FOIA Exemption 6 is absolute unless the FOIA requester can demonstrate a countervailing public interest in the requested information by demonstrating that the individual is in a position to provide the requested information to members of the general public and that the information requested contributes significantly to the public's understanding of the activities of the Federal government. Additionally, the requester must demonstrate how the public's need to understand the information significantly outweighs the privacy interest of the person to whom the information pertains. Upon consideration of the materials provided, I have not been able to identify a countervailing public interest of sufficient magnitude to outweigh the privacy interest in this case. The individuals associated with this information have a personal privacy interest in information that outweighs any public interest served by disclosure of their identities under FOIA. Consequently, I am denying your request for this information under FOIA Exemption 6, 5 U.S.C. § 552 (b)(6).

Thank you for your interest in VA. If you have any further questions, please feel free to contact me at (785) 230-8430 or via email at stacy.ekis@va.gov.

Sincerely,

Stacy Ekis
VHA FOIA Officer

CCN R1-3 FY21 Incentives/Disincentives (IDF) Considerations

Statement of Issue

- (b)(5)
- These slides outline each of the IDFs and the status of VA's ability to measure followed by options to be considered on a path forward.

IDF 1: High Performing Network

(IDF1) (High Performing Network)

(b)(5)

(b)(5)

(b)(5)

IDF 2: Network Usage

IDF2 Incentive Disincentive Factor 2 (IDF2) (Network Usage)^{(b)(5)}

(b)(5)

(b)(5)

IDF 3: Maintain Network Adequacy

IDF3 Incentive Disincentive Factor 3 (IDF3) (Maintain Network Adequacy)

(b)(5)

(b)(5)

(b)(5)

(b)(5)

IDF 4: Claims Submission Accuracy

IDF4 Incentive/Disincentive Factor 4 (IDF4) (Claims Submission Accuracy)

(b)(5)

(b)(5)

(b)(5)

IDF logic: Data source: claims reports submitted to VA

(b)(5)

IDF 5: IPERA Adjudication and Payment Rules

IDF5 Incentive/Disincentive Factor 5 (IDF5) (IPERA Adjudication and Payment Rules)

(b)(5)

(b)(5)

(b)(5)

(b)(5)

IDF 6: Urgent/Emergent Prescription Fills

IDF6 Incentive/Disincentive Factor 6 (IDF6) (Urgent/emergent prescription fills

(b)(5)

(b)(5)

(b)(5)

(b)(5)

All IDFs with Projections

IDF 1- High Performing Network (Semi Annual)	Region 1	Region 2	Region 3	TOTALS
(b)(5)				
IDF 2- Network Usage (Monthly)				
(b)(5)				
IDF 3- Maintain Network Adequacy (Semi Annual)				
(b)(5)				
IDF 4- Claims Submission (Semi Annual)				
(b)(5)				
IDF 5- IPERA Adjudication and Payment Rules (Quarte				
(b)(5)				
IDF 6- Urgent/Emergent Prescription Fills (Quarterly)				
(b)(5)				

Options

Option	Considerations/Risks
Option 1: Change monthly and quarterly incentive review board to all align at semi-annually (first to occur in March 2021).	(b)(5)
Option 2: Defer applying IDF until OY3.	
Option 3: Hybrid between the two to apply those IDFs we can by March and defer the rest until OY 3.

VHA Office of Community Care ELC – Post SL Meeting Follow Up

10/8/2020

VA

U.S. Department of Veterans Affairs
Veterans Health Administration
Office of Community Care

Agenda

- Community Care FY21 OCC Goals (pending)
- Overview of Directorate Priorities (actions) in support of OCC
FY21 Goals
- Proposed Form for reporting purposes
- Actions completed to date
- The Way Forward

Community Care FY21 Goals

OCC FY21 Goals (pending):

- **Become a High Performing Integrated Delivery Network (High Reliability Organization)**
 - Quality (Optimizing health outcomes)
 - Experience (Customers/Employees/Stakeholders)
 - Value (Efficient use of resources)
 - Access (Provide best health care options for Veterans, cost efficiency)
 - Integrity (Building a culture of excellence)

- **Implement EHRM (Financial Management Systems)**

- **Mature the VCCP/FMP Programs (implementation, post implementation, standardizing the entire network)**

- **Innovate the Business Model (predictive and prescriptive data)**

Directorate Priorities (Actions) in support of OCC Goals

BOA

- Increase transparency and collaboration across OCC (Long-Term)
- Improve communications to promote the use of and understanding of available Shared Services resources to our stake holders.
- Maintain organizational flexibility, continuously evolving to meet the needs its stakeholders
- Continuous improvement of the Veterans' Community Care Program and Family Member Programs

CHIO

- Data Governance – Initiation
- AMCMS
- CDS (Consolidated Data Set)
- COOP (Contingency Disaster Recovery Plan)
- Develop an infrastructure of data governance and provenance, IT systems, and people to support the maturation of analytic capability (Long-Term)

Directorate Priorities (Actions) in support of OCC Goals

Clinical Integration & Field Operations

- Cerner/ EHRM
- C6
- Veteran Community Care Program (VCCP) Stabilization
- Alternative/Visionary goal- employee satisfaction and health

DO

- Continue implementing activities (action plans, initiatives, projects)
- Refresh – Innovate our Business Model
 - Transform to Program Management
- Reshape the Workforce

Network Management

- Enhancement to Acquisition/Modification processes and procedures
- Standardize and stabilize the VA network through maximizing the use of all resources by stakeholders
- Grow culture
- Develop optimal future-state acquisition strategy (Long-Term)

Directorate Priorities (Actions) in support of OCC Goals

Revenue Operations

- Organizational Change and Sustainment of Non-MCCF
- Alignment of Revenue Operations Personnel
- Revenue Utilization Review, Improve Operational Efficiencies
- Clinically Driven Revenue Cycle EHRM
- Clinical Documentation Improvements for the Revenue Cycle

Directorate Name – Priority #1

Project: Implement Shared Services Model **Leads:** XYZ

Project Description: Consolidation of directorate specific financials

Key Milestones		
Milestone	Completion Date	Status
Notification of impacted staff	10/1/20	Complete
Implementation of new structure	12/31/20	In Progress

Metric	Target	Current value
Milestones	Achievement	On target
Improved customer service	TBD	
OCC cost management/ Medical care funds management	TBD	

Decision Points:

Project Updates

Key Updates

- Initial reporting restructure complete

(b)(5)					

Strategic Planning Team actions -

(b)(5)

OCC Team Express – Virtual Suggestion Box (VSB)

Included the following VSB topics in an effort to solicit input from all employees regarding the OCC Mission & Vision:

- **OCC Vision**

From your perspective, what are your visionary goals for the future of Community Care?

- **OCC Mission**

What do you think are the most important aspects of the work of the Office of Community Care?

The Way Forward

Strategic Planning MITRE Contract

2/1/2021

Strategic Planning & Support Contract

- OCC/Network Management have a contract that has been awarded to provide Strategic Planning services that are not in line with our current way forward

(b)(5)

Introduction

- **Title of Requirement:** National Care Strategic and Future Planning Support
 - Contract 36C10A20D0004
 - Task Order 36C10A21N0003
- **Date of Award:** October 28, 2020
- **Contractor Name:** The MITRE Corporation
- **Period of Performance:**
 - Base: October 28, 2020 to October 27, 2021
 - Option Yr. 1: October 28, 2021 to October 27, 2022
 - Option Yr. 2: October 28, 2022 to October 27, 2023
- **Contract Type:** Cost-Plus-Fixed-Fee (CPFF)
- **Obligated Amount:** \$5,394,288
- **Total Award Amount:** \$14,187,753

Introduction

- **VA Team**

- Executive Sponsor: Dr. Mark Upton
 - Recommend IPT Charters (Strategic Planning and Next Generation)
- Program Manager: (b)(6)
- Contract Management:
 - CO (b)(6)
 - COR (b)(6)

- **MITRE Team**

(b)(6)

- **MITRE Leadership**

(b)(6)

5.2.1 National Strategic Planning Support

- Provide OCC Strategic Plan to **redefine the vision, mission, and direction to project out 10-20 years**
 - Assess the current state of OCC, identify inefficiencies and provide recommendation for improvement, including recommendations on integration of current CCN and other VHA business lines.
 - Assessments/analysis of potential future legislation, presidential administration changes, and political climate and the potential impact to VHA policy.
 - Provide advice for healthcare programs, strategy planning, and business process management as they relate to the OCC and the VHA enterprise. Strategic planning is to include research and advisory services of industry best practices.
 - Recommended initiatives, resources, and standard operating procedures that align with the OCC Strategic Plan and will enable OCC to adopt proven practices, reduce procedural variations between OCC existing contracts and improve management of planning and execution across OCC lines of business.
- GOAL: To develop an actionable long-term strategy for OCC
- POP Base: October 28, 2020 to October 27, 2021
 - Option Year 1: October 28, 2021 to October 27, 2022
 - Option Year 2: October 28, 2022 to October 27, 2023 (OCC strategic plan update)

Recommended Replacement Work (Plan A)

- Each Directorate has a distinct role in the organization which requires individualization of their plans
- MITRE would work with each individual Directorate, along with Strategic Planning staff, to create 5 Year Strategic Plans (FY21-26)
- All work previously accomplished during the Senior Leader Meeting and Directorate work would be incorporated into the MITRE work
- Directorate plans would then be incorporated by the OCC Strategic Planning staff into an OCC Strategic Plan using the VA and VHA Long Range Plan Goals and Objectives
- Ongoing annual Operational Plans would also incorporate this work
- Leveraging MITRE resources reduces the work burden of the Directorates

Chief Health Informatics Office (CHIO)

Status: Contractor working on development of this plan

Recommendation: Do not include in MITRE work

Business Operations & Administration

Status: No current Directorate 5-year plan

Recommendation: Include in MITRE work

Delivery Operations

Status: Current 3-year FY20-22 Plan in place (Model)

Recommendation: Include in MITRE work for extension of existing work for FY23-26

Revenue Operations

Status: No current Directorate 5-year plan

Recommendation: Include in MITRE work

Network Management

Status: No current Directorate 5-year plan but completed work on the Acquisition Playbook

Recommendation: Include in MITRE work

Clinical Integration & Field Operations

Status: No current Directorate 5-year plan

Recommendation: Include in MITRE work

Directorate/OCC Strategic Plan Components

- OCC Mission/Vision/Goals
- ICARE Values
- Directorate SWOT Analysis
- Directorate Priorities (FY21 and FY22)
- Overall Strategy
- Long Term Strategic Objectives
- Strategic Goals, Indicators and Activities (possible budget impact)
- VA/VHA Goals and Objectives Linkage
- VHA Long Range Planning Framework Linkage

Long Term Planning Areas of Consideration

- Maintaining and Improving our High Performing Integrated Delivery Network
- Maintaining and Improving our work as a High Reliability Organization (HRO)
- Impact of new health care technologies
- Impact of process automation/updates
- Impact of projected Veteran demand
- Ability to provide data feedback loop to the field for health care services planning
- Impact of proper field health care services planning
- Impact of improved network adequacy
- Impact of improved care integration
- Effective Use of Resources
- Building a culture of Excellence

Recommended Replacement Work (Plan B)

- MITRE would work with each individual Directorate, along with Strategic Planning staff, to create only an OCC 5-Year Strategic Plan
- Directorate input would be incorporated using the VA and VHA Long Range Plan Goals and Objectives and the Level III Operating Plan
- Ongoing annual Operational Plans would also incorporate this work
- All work previously accomplished during the Senior Leader Meeting and Directorate work would be incorporated into the MITRE work
- This option does not reduce the work burden on the Directorates as they will still need to develop Strategic Plans commensurate with the larger OCC plan

CCN ELC Update

12/23/2020

(b)(6)

Agenda

- Regions 4 & 5 Deployment Updates
- Region 5 Flu Shot Decision
- R4 Referral Trends
 - R4 Referral Analysis: Follow-up Items
- Appendix
 - Optional Task Updates
 - R1-R3 Referrals Summary
 - R4 Referral Monitoring Snapshots

CCN Updates to ELC Meeting Frequency

- CCN team has provided weekly updates since deployment in 2019.
 - Given the aggressive deployment schedule and the high visibility of the program, timely issue escalation to and decision from ELC on CCN issues was critical to the success of the program.
 - The opportunity and a forum to brief ELC weekly fulfilled the need.
- CCN deployment has completed in four major regions and CCN is entering a more stable operating environment.
- With path to stabilization, there is less urgent matters or significant week-to-week updates regarding CCN.

- **Proposal:**

(b)(5)

(b)(5)

R4 & R5 CCN Deployment Updates

Region 4 Update

- **COVID-19 Impact**

- Region 4 BIMs report VAMCs with shorter wait times for internal appointments than in the community due to
 - Staffing shortages creating consult backlogs
 - Lack of availability of providers due to temporary office closures and pause on elective procedures

- **Deactivating Dental VCAs**

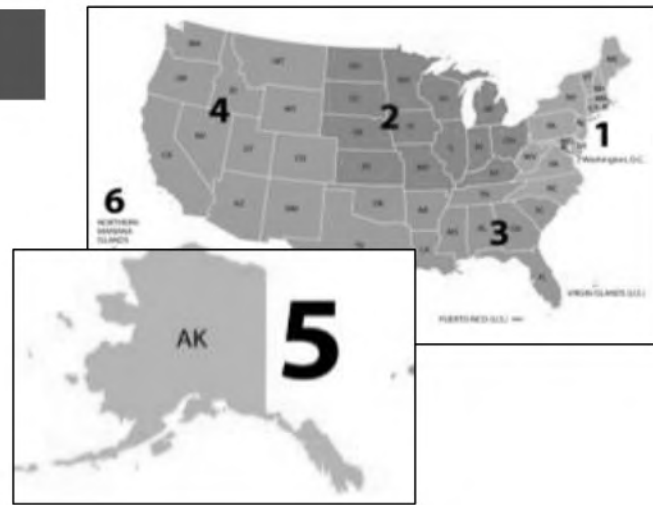

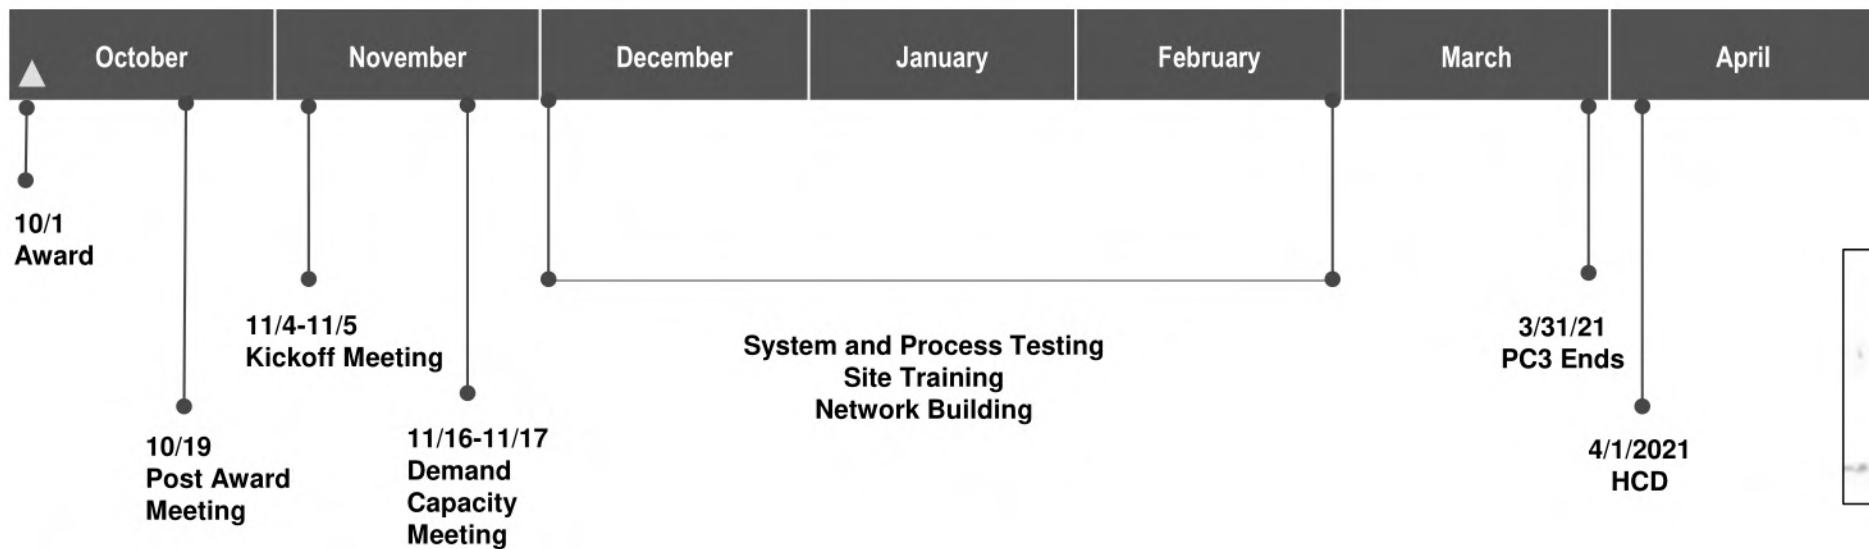

- Align approach first with the national office and then communicate to dental chiefs.
- 2 phased approach:
 - Review by VAMC and identifying VCAs for providers in the CCN network
 - Review zip codes of providers active in CCN and VCAs in the same zip code
- Network Management to send listing of VCAs identified for deactivation at each VAMC to BIMs; deadline will be set for sites to provide justification to continue VCAs.

- **Optional Tasks**

- **Initial 6 sites** utilizing Optional Tasks
 - HSRM Team continues to work on an update to the new CLIN drop issue.
 - As a short-term solution, HSRM will send daily referral “refreshes” to TriWest, to clarify status of referrals
 - TriWest to follow up with community care staff on information needed in order to start scheduling outreach
- **Remaining R4 VAMCs** to commence use of OT
 - OCC Leadership has requested that Optional Task implementation be prioritized for the following sites as soon as possible; Two sites went live this week:
 - 668 – Spokane
 - 664 – San Diego

(b)(5)

Region 5 Status and Upcoming Activities

Key Activities:

- Continued efforts with the payment hierarchy/fee schedule and dental mods. Cost mod change pages were presented to CCRB on 12/16.
- R5 Bundled mod was sent to TW on 12/18.
- (b)(5)
- A Tabletop Testing timeline was agreed upon by VA and TW to begin in January 2021. Scenarios were shared with TW on 12/18 for review.
- The liability insurance requirement guidance for TW was confirmed to remain as written in the contract until otherwise notified by VA. VA will internally discuss if there is a need to request a formal modification.
- An internal VA Tribal Health meeting to discuss next steps took place 12/10. There is not an incentive for tribal health to participate in CCN when they will keep their existing agreements. Network management is drafted a formal plan for leadership to review.

Region 5 Flu Shot Decision

BLUF: Region 5's expected Healthcare Delivery (HCD) date is beginning of April 2021. Retail flu shot availability will be limited or will not be available in April as pharmacies do not keep a surplus of flu vaccinations.

- Majority of the population including Veterans will have received their flu vaccinations in the beginning of this year's flu season
- AK Veterans have several options; VA, PC3 Urgent Care, and via their First Fill (Heritage) contract

Background: Region 5 contract requires an approved referral for flu shot benefit unlike the current Region 1-4 contracts which allows flu shots to be administered without an approved referral from VA.

Recommendation

(b)(5)

(b)(5)

Region 5 Risks/Issues

Category	Risk Level	Risks/Issues	Status and Next Steps as of 12/18
Payment Hierarchy and Fee Schedule	Highest	<ul style="list-style-type: none"> • (b)(5) • VA created a CLIN structure to default to the VA Alaska Professional and Facility Fee Schedules and then the Maximum Allowable Charge (MAC) to replace the % of billed charge structure as the last resort payment schedule. • (b)(5) • (b)(5) 	<ul style="list-style-type: none"> • The mod package was presented to CCRB on 12/16. • (b)(5)
Care Coordination Given HCD Timeline and PC3 Contract End Date	High	<ul style="list-style-type: none"> • (b)(5) • (b)(5) 	<ul style="list-style-type: none"> • (b)(5) • V20 and Alaska leadership has been informed of the contingency plan.

Region 5 Risks/Issues Continued

Category	Risk Level	Risks/Issues	Status and Next Steps as of 12/18
Dental Fee Schedule	High	<ul style="list-style-type: none"> (b)(5) 	<ul style="list-style-type: none"> Information previously needed from the dental SME was received (b)(5) (b)(5) This was presented to CCRB on 12/16.
Choice Providers in CCN R5 PC3	High	<ul style="list-style-type: none"> 50% of current PC3 providers are Choice providers which means they will require full credentialing and provider contracting for CCN. 	<ul style="list-style-type: none"> (b)(5)
Provider Liability Insurance Requirement	Medium	<ul style="list-style-type: none"> (b)(5) The contract clause which specifies the amount has been in every version of the RFP throughout the acquisition process; TW has not raised this as a concern or issue and signed the contract with this clause. (b)(5) 	<ul style="list-style-type: none"> (b)(5) VA provided guidance to TW on 12/9 to move forward with the contract language as it is written regarding the liability insurance requirement for providers. If TW notices an influx of issues as we move forward, they can bring to VA to reconsider.

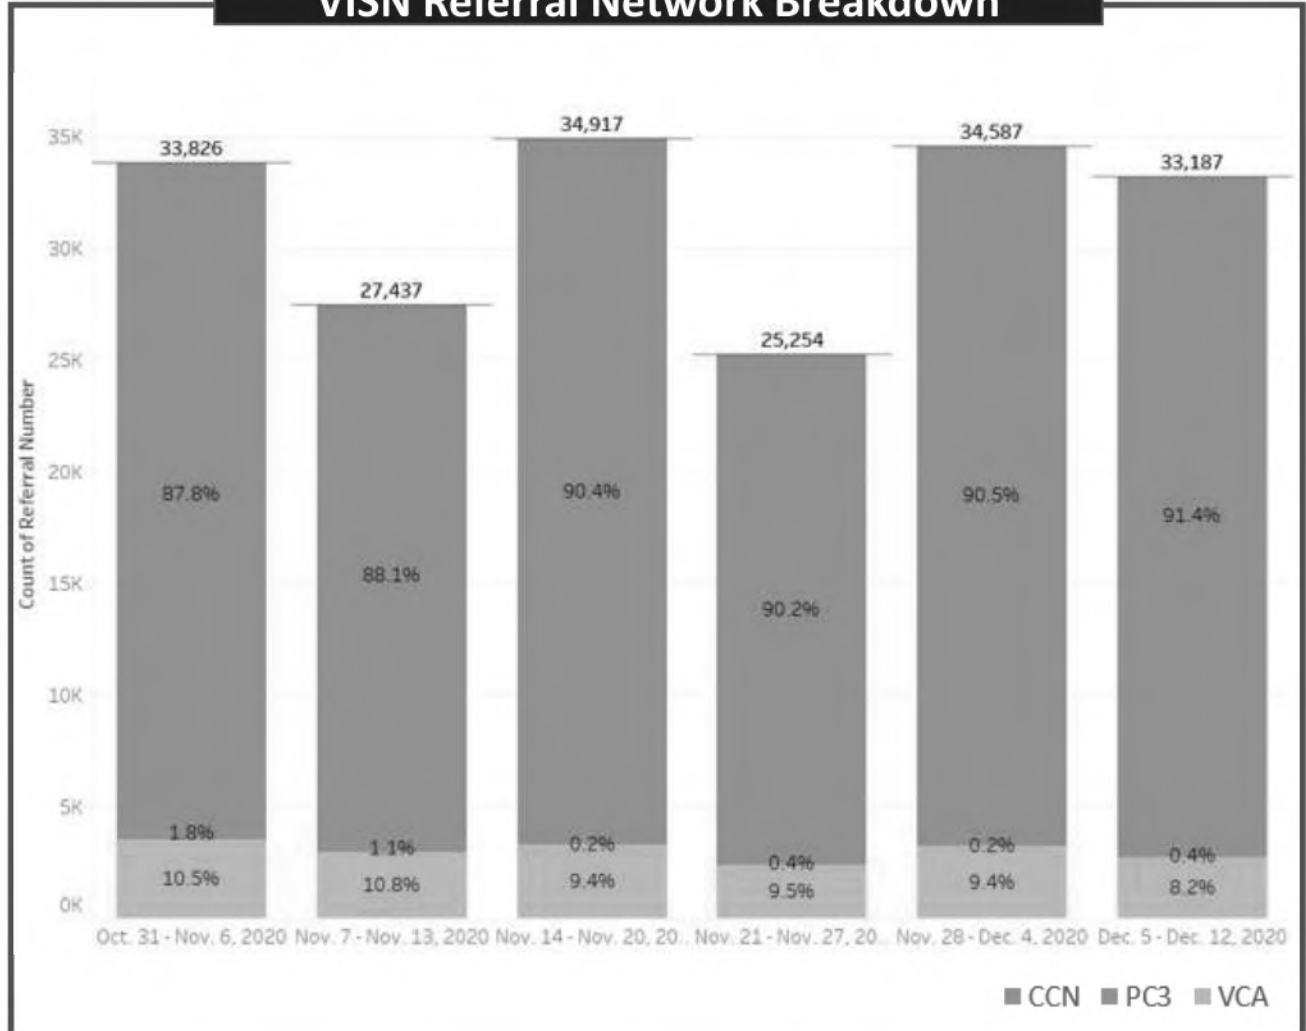

Region 5 Risks/Issues Continued

Category	Risk Level	Risks/Issues	Status and Next Steps as of 12/18
Tabletop and Testing	Medium	<ul style="list-style-type: none"> (b)(5) 	<ul style="list-style-type: none"> Scenarios reviewed by a broad group of VA. Scenarios were shared with TW for review on 12/18.
Tribal Health	Medium	<ul style="list-style-type: none"> (b)(5) 	<ul style="list-style-type: none"> (b)(5) VA held a meeting internally with V20, CI, NM and AK to discuss the communications strategy for tribal health on 12/10. The plan forward is to direct TW not to emphasize the use of resources on tribal health, and while CCN will be offered there is likely not an incentive for them to participate.
DAS Transport Funding	Resolved	<ul style="list-style-type: none"> The DAS team is ready for December testing. (b)(5) 	<ul style="list-style-type: none"> Since the bulk of this work was performed during the Region 4 onboarding, barring no significant changes in the LOE, it was determined they will not be seeking additional funds for the Region 5 onboarding tasks. DAS testing began the week of 12/7; however, an issue was identified which pushed the completion of the testing to the next DAS release cycle (in January).

R4 Referral Trends

Region 4: Referral Volume Snapshot

VISN Referral Network Breakdown

Referral Analysis

- PC3 utilization has increased slightly by **0.2%**.
 - This can be attributed to the increase scheduling for the R6 Pacific Islands by the HI scheduling team.
- **CNN utilization continues to increase**, except for the Thanksgiving holiday. CNN utilization increased by 0.9% compared to prior week.
- VCA utilization slightly decreased by **1.2%** and is at its **lowest usage in the past 6 weeks**.
- The field has been reporting major staffing shortages which could be attributing to the slight drop in referral volume
- *11/7 and 11/21 data accounts for federal holidays (i.e. Veterans Day and Thanksgiving), which may explain the decrease in referral volume during those weeks.*

Region 4 Follow-up Items: Updates

Date Identified	Observation	Action	Most Recent Analysis update	Status
12/4/20	Dallas, San Antonio and Temple continue to have VCA utilization in the 10-13% range.	(b)(5)	<p>12/9: VISN 17 BIM has advised San Antonio has had to put together VCA's due to identified network gaps or continuity of care. Additional feedback from the field is pending for Dallas and Temple.</p> <p>12/16: VISN BIM has been working with Network Management on VCA utilization. Reported that referrals that were sent to providers that showed up as in the CCN network did now always show up as such in PPMS. That was the case for several Temple providers in researching this action and therefore, VCAs were used.</p>	Closed

Region 4 Follow-up Items: Updates

Date Identified	Observation	Action	Most Recent Analysis update	Status
12/9/20	VCA utilization increased for the following sites: Big Springs (+1%), San Antonio (+2%), Harlingen (+3%), and El Paso (+9%).	(b)(5)	<p>12/9: Issue identified on 12/9 and the analysis is ongoing</p> <p>12/16: Site has reported COVID impacts increasing the need to schedule outside of CCN.</p>	Closed
12/9/20	Fresno and Palo Alto saw an increase in VCA/Contracts utilization by 4%.	(b)(5)	<p>12/9: Issue identified on 12/9 and the analysis is ongoing</p> <p>12/16: Site has reported major staffing issues and increasing number of unscheduled referrals impacting utilization.</p>	Closed

Appendix – Optional Task Updates

Optional Task #1: Contracting Key Decisions (Regions 1-3)

Decisions/Status

• Outstanding Issues:

1. Authority to Proceed

• Status:

- CO issued an Authority to Proceed on 12/10, which provides Optum 60 days to prepare as the contract modification is executed.
- Optum submitted an Optional Task plan on 12/21. CI leadership and the Region 1 – 3 PMs are coordinating to conduct the proposal evaluation to be completed by 1/6. Optional Task Team and CI leadership will hold the first kickoff meeting with Optum the week of 12/28.

2. Contract Mod:

• Status:

- Continued discussions with Optum on new monthly referral bundle strategy, including surge capacity.
- Optum’s proposal confirmed Optum’s newly-developed provider search tool will be developed. (b)(5)

(b)(5)

(b)(5)

• Next Step: (b)(5)

(b)(5)

3. Funding/Pricing Strategy.

• Status: Use of CARES Funding in alignment with contract Option Year 2 (b)(5)

(b)(5)

(b)(5)

• Next Step: (b)(5)

(b)(5)

4. New CLIN ID required for COVID-19 scheduling support.

• Status: (b)(5)

(b)(5)

• Next Step: (b)(5)

(b)(5)

Optional Task #1: Contracting Key Decisions (Region 4)

Decisions/Status

- **Decisions:**

Estimated timeline for the additional TriWest scheduling support in CCN Region 4:

- (b)(5) [Redacted]
- (b)(5) [Redacted]
- (b)(5) [Redacted]
- (b)(5) [Redacted]

Optional Task #1: Operational Key Decisions and Risks

Decisions/Status

Completed Actions Steps

OCC Leadership has prioritized Spokane (668) and San Diego (664) for OT deployment

- **San Diego went live on 12/21. Spokane went live on 12/22.**
- The Optional Task Team completed end-to-end referral testing the week of 12/14 in coordination with CERNER, TriWest, and HSRM to ensure that Cerner does not have any new system challenges for Spokane (b)(5)
- (b)(5)
- Clinical Integration created a new Optional Task SOP to include specific guidance for processing Optional Task referrals in Cerner.
- Live office hours support was held for Spokane staff, to educate them on the new Optional Task process for Cerner, and address questions.
 - Spokane staff were told numerous times to use S/T tool to establish referral is BASIC level of care coordination and to obtain CAN score data from VSSC.

Decisions Needed/Risks (Operations)

HSRM Optional Task CLIN Drop Glitch:

- On 11/23 the HSRM Team applied a patch that reassigned Optional Task CLINs that were dropped from referrals due to CPRS updates
- On 12/4, the TriWest Team shared that Optional Task CLINs continue to drop from referrals
- On 12/8, the HSRM Team clarified that the patch applied on 11/23 does not keep CPRS updates from dropping the CLIN but reapplies the CLIN to those referrals. Due to this process, TriWest is unable to clearly determine the CLIN status of the referral, and referrals continue to be tracked as "pended/held"

- (b)(5)
-

- (b)(5)
-

Optional Task #1: Operational Key Decisions and Risks

- On Track in progress
- Moderate risk; in progress
- Significant risk; mitigation plan not mature

Decisions Needed/Risks (Operations) Cont.

Comprehensive EPRS Reporting via Attachment U – EPRS (b)(5)

Next Steps (Region 4 Operations)	Dependency	Owner	Completion Date
(b)(5)	(b)(5)	(b)(6)	12/30/20

Appendix - R1-R3 Referrals Summary

Region 1-3 Referral Network: Key Observations

Region 1

Region 2

Region 3

■ CCN ■ PC3 ■ VCA

Key Observations & Takeaways

- Regions 1-2 reported **more than 96% of total referrals through CCN**, remaining consistent with prior weeks
- Region 3 reported a **slight decrease of 0.4% of referrals through CCN** which is a **1.7% increase** from prior week.
- **Dental and Homemaker/Home Health Aid** continue to remain at **the top categories of care for VCA referral utilization.**
 - Region 1 and Region 2 had a slight decrease in **VCA utilization**
 - Region 3 had a slight increase of **0.3% in VCA utilization.**
- *Week of 11/7 and 11/21 data accounts for federal holidays (i.e. Veterans Day and Thanksgiving), which may explain the decrease in referrals during those weeks across all 3 regions*

Appendix - R4 Referral Monitoring Snapshots

Region 4: Referral Volume Snapshot

Top Categories of Care

Region	R04	*12/5/2020 through 12/11/2020**		
VISN	(All)	Data pulled from the CDW

TriWest: Access to COVID-19 Vaccines for Veterans CCN Regions 4, 5, and 6

12/30/20

VA

U.S. Department of Veterans Affairs

Veterans Health Administration
Office of Community Care

Agenda

- 1 Overview
- 2 Proposed Vaccine Process
- 3 TriWest's Proposed Framework Assumptions
- 4 Next Steps
- 5 Questions and Answers (Q&A)

Overview

- **Main Objective:** With the introduction of the COVID-19 vaccine, the Community Care Network (CCN) needs to ensure that all eligible Veterans, including Veterans residing in rural and highly rural areas, have access to the COVID-19 vaccine in their local communities as supplies are available.

(b)(5)

- **Background:**
 - All Veterans eligible for the CCN Urgent Care (UC) benefits are also eligible for both the VA approved Flu and 3 approved COVID-19 vaccines.
 - Under the CARES ACT (set to expire on 12/31/2020), all pharmacies are legally required to provide COVID-19 vaccine, and VA may have authority under the CARES ACT to provide vaccines to all Veterans regardless of their Urgent Care benefit status.
 - Currently, 3 emergency National Drug Codes (NDCs) are approved for COVID-19 vaccines. Once government funding ends, it is expected that additional and new COVID-19 vaccine NDCs will enter the market.
 - The NDC's today have no average wholesale price (AWP) or cost associated with them since they are all government products. Once the government no longer funds the vaccines, new NDCs will be assigned with AWP attached to them.

Proposed Vaccine Process

VA Provider Pharmacy Capability Update

Project Milestones

*Upcoming
Milestones*

Pilot Update

- Training was held on 1/26/2021, at 3pm ET.
 - Providers and Pharmacists participated from VISN 21, along with TriWest
- TriWest confirmed the pilot participating providers are present in ESI's system, validating the PIE file process.
 - Update: Added additional providers (8) from NV who lost a capability to utilize SF first fill contract
- Communications artifacts developed and shared.
 - Email to providers and leadership
 - Veteran information sheet
 - Scripting
 - Example fax cover sheet template
- Support will be provided via the pilot Microsoft Teams channel for questions, issues, or feedback from Monday 2/1- Friday 2/6, from 10am-2pm PT.
- In early March, ELC will receive decision points for pilot next steps.

Provider	Specialty	Location

ART/IVF Pharmacy Issue Update

ART/IVF Pharmacy Issue - Update

BLUF: Veterans and eligible non-Veteran spouses receiving fertility care outside Veterans Administration (VA) facilities are required to get their medications from VA pharmacies. These medications are currently not eligible for urgent/emergency prescribing from the community care retail pharmacy. Because these medications are highly specialized and the use of them is time-sensitive, there is a need for flexibility in obtaining these medications from pharmacies outside VA.

- Issue 1: Veteran OOP reimbursement (Immediate/Interim Solution)

(b)(5)

- Issue 2: Availability of infertility/ART/IVF medications to Veterans (Ideal Future Solution)

(b)(5)

- Issue 3: Compounded drugs – sterile lab via local contract

(b)(5)

Retail Seasonal Flu Vaccine 2021-2022

Retail Seasonal Flu Vaccine 2021-2022

BLUF:

(b)(5)

(b)(5)

- **Background:**

- Veterans have historically leveraged VA’s retail seasonal flu vaccine program. The need increased in the 2020-2021 flu vaccine season due to COVID-19 and given the status of COVID-19, the 2021-2022 flu season will also likely see a higher than usual demand.

- (b)(5)

- **Next Step(s):**

(b)(5)

(b)(5)

- **Timeline: Seasonal Flu Vaccine Availability September 1, 2021-April 30, 2022**

- (b)(5)

- Communication development completed by July

(b)(5)

- Other coordination efforts (flu formulary update, NDC list development, escalation pathway, reimbursement, etc.)

Strategic Planning MITRE Contract

2/1/2021

U.S. Department of Veterans Affairs

Veterans Health Administration
Office of Community Care

Strategic Planning & Support Contract

- OCC/Network Management have a contract that has been awarded to provide Strategic Planning services that are not in line with our current way forward

(b)(5)

Introduction

- **Title of Requirement:** National Care Strategic and Future Planning Support
 - Contract 36C10A20D0004
 - Task Order 36C10A21N0003
- **Date of Award:** October 28, 2020
- **Contractor Name:** The MITRE Corporation
- **Period of Performance:**
 - Base: October 28, 2020 to October 27, 2021
 - Option Yr. 1: October 28, 2021 to October 27, 2022
 - Option Yr. 2: October 28, 2022 to October 27, 2023
- **Contract Type:** Cost-Plus-Fixed-Fee (CPFF)
- **Obligated Amount:** \$5,394,288
- **Total Award Amount:** \$14,187,753

Introduction

- **VA Team**

- Executive Sponsor: Dr. Mark Upton
 - Recommend IPT Charters (Strategic Planning and Next Generation)
- Program Manager
- Contract Management:
 - CO:
 - COR:

- **MITRE Team**

-
-
-
-
-

- **MITRE Leadership**

-
-
-
-
-

5.2.1 National Strategic Planning Support

- Provide OCC Strategic Plan to **redefine the vision, mission, and direction to project out 10-20 years**
 - Assess the current state of OCC, identify inefficiencies and provide recommendation for improvement, including recommendations on integration of current CCN and other VHA business lines.
 - Assessments/analysis of potential future legislation, presidential administration changes, and political climate and the potential impact to VHA policy.
 - Provide advice for healthcare programs, strategy planning, and business process management as they relate to the OCC and the VHA enterprise. Strategic planning is to include research and advisory services of industry best practices.
 - Recommended initiatives, resources, and standard operating procedures that align with the OCC Strategic Plan and will enable OCC to adopt proven practices, reduce procedural variations between OCC existing contracts and improve management of planning and execution across OCC lines of business.
- **GOAL: To develop an actionable long-term strategy for OCC**
- **POP Base: October 28, 2020 to October 27, 2021**
 - Option Year 1: October 28, 2021 to October 27, 2022
 - Option Year 2: October 28, 2022 to October 27, 2023 (OCC strategic plan update)

Recommended Replacement Work (Plan A)

- Each Directorate has a distinct role in the organization which requires individualization of their plans
- MITRE would work with each individual Directorate, along with Strategic Planning staff, to create 5 Year Strategic Plans (FY21-26)
- All work previously accomplished during the Senior Leader Meeting and Directorate work would be incorporated into the MITRE work
- Directorate plans would then be incorporated by the OCC Strategic Planning staff into an OCC Strategic Plan using the VA and VHA Long Range Plan Goals and Objectives
- Ongoing annual Operational Plans would also incorporate this work
- Leveraging MITRE resources reduces the work burden of the Directorates

Chief Health Informatics Office (CHIO)

Status: Contractor working on development of this plan

Recommendation: Do not include in MITRE work

Business Operations & Administration

Status: No current Directorate 5-year plan

Recommendation: Include in MITRE work

Delivery Operations

Status: Current 3-year FY20-22 Plan in place (Model)

Recommendation: Include in MITRE work for extension of existing work for FY23-26

Revenue Operations

Status: No current Directorate 5-year plan

Recommendation: Include in MITRE work

Network Management

Status: No current Directorate 5-year plan but completed work on the Acquisition Playbook

Recommendation: Include in MITRE work

Clinical Integration & Field Operations

Status: No current Directorate 5-year plan

Recommendation: Include in MITRE work

Directorate/OCC Strategic Plan Components

- OCC Mission/Vision/Goals
- ICARE Values
- Directorate SWOT Analysis
- Directorate Priorities (FY21 and FY22)
- Overall Strategy
- Long Term Strategic Objectives
- Strategic Goals, Indicators and Activities (possible budget impact)
- VA/VHA Goals and Objectives Linkage
- VHA Long Range Planning Framework Linkage

Long Term Planning Areas of Consideration

- Maintaining and Improving our High Performing Integrated Delivery Network
- Maintaining and Improving our work as a High Reliability Organization (HRO)
- Impact of new health care technologies
- Impact of process automation/updates
- Impact of projected Veteran demand
- Ability to provide data feedback loop to the field for health care services planning
- Impact of proper field health care services planning
- Impact of improved network adequacy
- Impact of improved care integration
- Effective Use of Resources
- Building a culture of Excellence

Recommended Replacement Work (Plan B)

- MITRE would work with each individual Directorate, along with Strategic Planning staff, to create only an OCC 5-Year Strategic Plan
- Directorate input would be incorporated using the VA and VHA Long Range Plan Goals and Objectives and the Level III Operating Plan
- Ongoing annual Operational Plans would also incorporate this work
- All work previously accomplished during the Senior Leader Meeting and Directorate work would be incorporated into the MITRE work
- This option does not reduce the work burden on the Directorates as they will still need to develop Strategic Plans commensurate with the larger OCC plan

CCN ELC Update

2/10/2021

(b)(6)

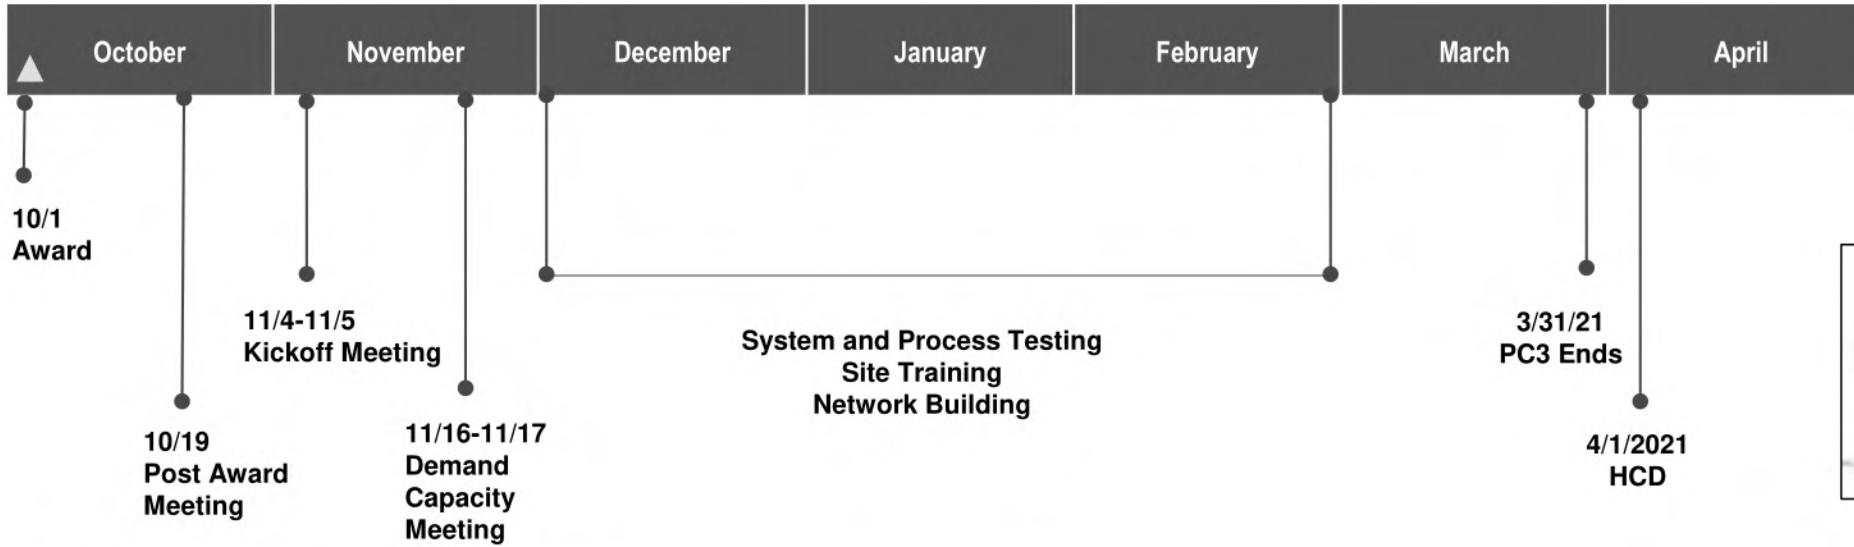

- Region 5 Deployment Updates
- VA Provider Pharmacy Capability Update

R5 Deployment Updates

Region 5 Status and Upcoming Activities

Key Activities as of 2/9:

- (b)(5)
- Mod Bundle #1 has been fully executed (b)(5)
- (b)(5)
- The R5 Dental Deep Dive occurred 2/3 (b)(5)
- VA provided CO direction to TW on several items included in upcoming modifications as requested by TW.

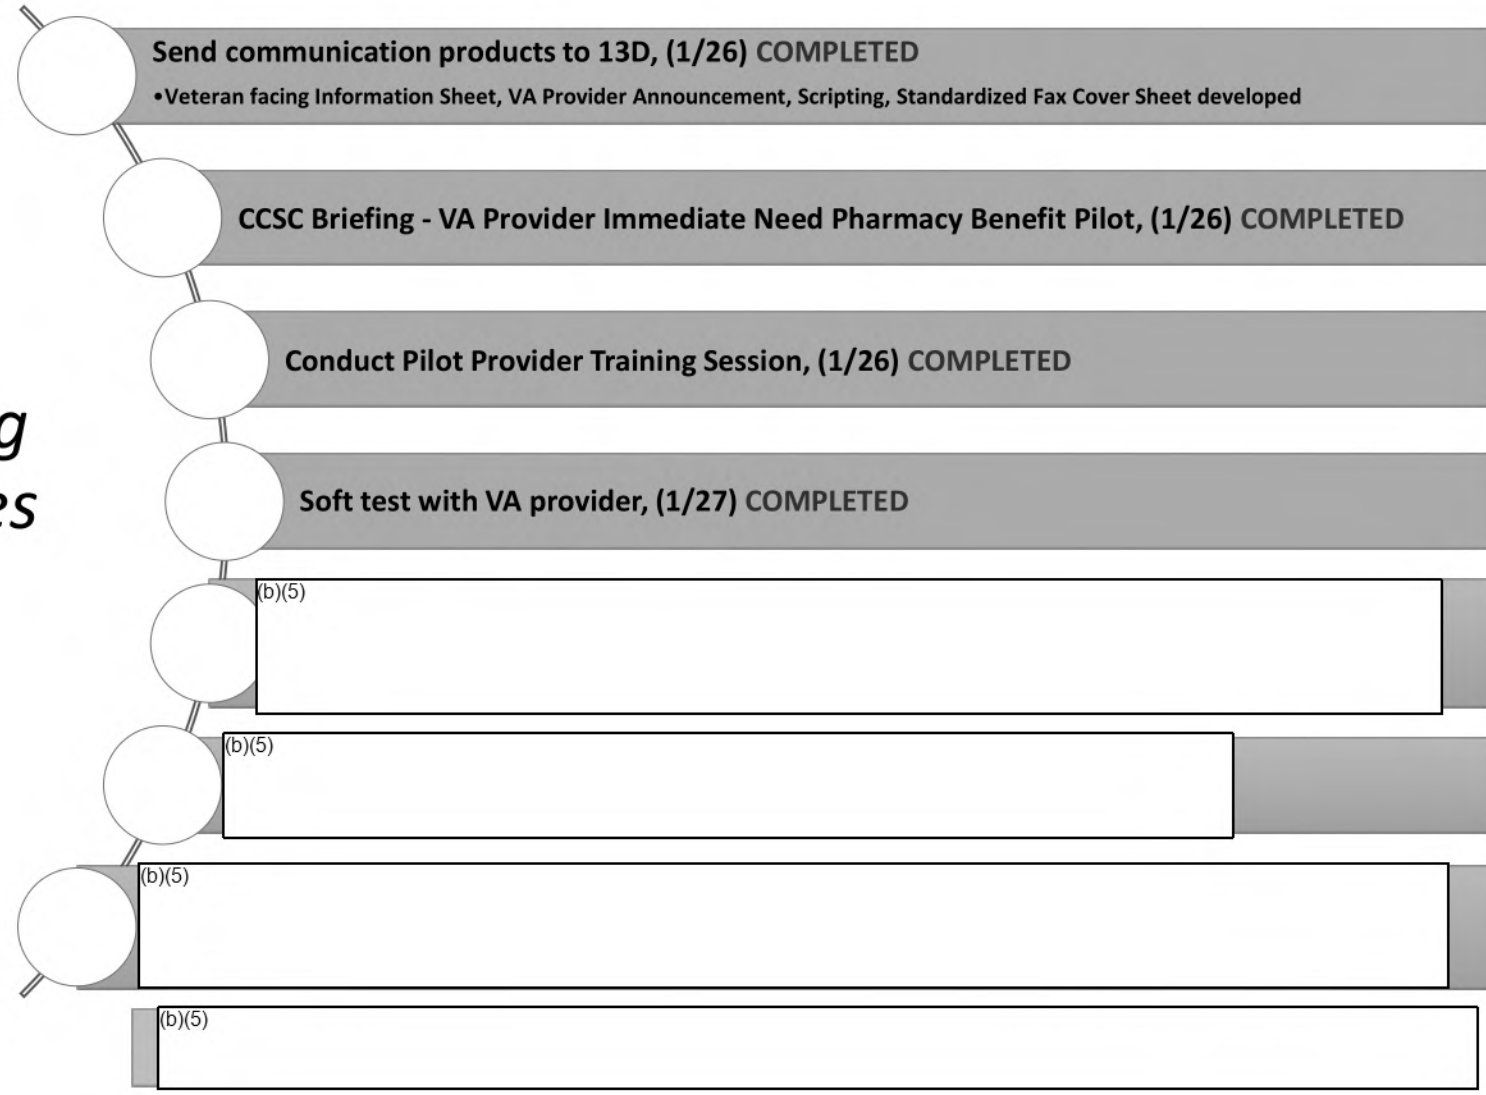

Region 5 Modifications and Risks Update

Category	Risk Level	Risks/Issues	Status and Next Steps as of 2/9
Payment Hierarchy and Fee Schedule Modification	High	(b)(5)	• (b)(5)
Mod Bundle #2	High		•
Dental Modification	High		•
TW Delta Dental Timeline	High		•
HCD Date Modification	High		•
VCE Modification	High		•

VA Provider Pharmacy Capability Update

Project Milestones

*Upcoming
Milestones*

Pilot Update

- TriWest confirmed over 70 claim have been sent out under the immediate need pharmacy capability since November 2020
 - Even though the pilot did not go live until 2/1, TriWest/ESI's system capability was turned on in November 2020 and some pharmacy claims which meet the criteria (e.g., eligible VA prescriber, eligible Veteran, U/E formulary, etc.) have gone through this process
- Conducted lessons learned session with pilot participants
 - Only one issue so far
 - Many VA providers experienced long wait time (15 minutes) to speak to the pharmacists at the retail pharmacies to provide verbal orders
 - Outbound ePrescribing capability would help with this experience
 - Change management will be critical when we implement this capability region-wide or nation-wide, especially with sunseting of local first fill contracts
 - U/E formulary management and ability to add routine/maintenance medications

Pilot Issue

BLUF: CCRS has not implemented the requirements needed to support the processing of invoices for VA provider prescription capability which could impact continuance of pilot

Background

- Two CCRS Change Requests (CR) were submitted for the VA provider prescription capability implementation. One CR for CCRS to accept the VP unique prior auth number on the NCPDP file (11/16/2020) and One CR for obligation mapping requirement from Finance team (12/15/2020).
- Both CRs were not properly or timely acted upon.
- CCRS team has gone through major transition (PM transition, new IT PM onboarded, etc.) in November/December.

Current Status

- Requirements will be implemented on 3/18, with the CCRS 14.3 release. Earlier implementation is not feasible per CCRS.
- CCRS, POM, Finance, and COR team engaged to finalize requirements and address clarification questions.
 1. *Obligations – Closed (Finance submitted updated CR)*
 2. *Allocation of PMPM (prescribing provider vs dispensing provider) – Open, with COR Invoice team*
 3. *Prescribing provider validation – Closed (CCN submitted updated CR, bypass prescribing provider validation)*

Impact, Next Steps

(b)(5)

Weekly Community Care Consult Management Meeting

2/10/2021

Agenda

1. OVAC/OCC Joint Access Initiative- Workstream Status
 - i. Field Engagement – RCI Implementation
 - ii. Oversight & Dashboarding Monitoring
 - iii. Joint Operating Model

2. Scheduling Timeliness Data by VISN

OVAC/OCC Joint Access Initiative – Workstream Status

Field Engagement – RCI Implementation

Workstream

Description: Field Engagement - VISN RCI/Access meetings and immediate RCI implementation

Objective: Complete RCI Roll Out through engagement with VISN leadership

Risks & Issues (High, Medium, Low)

(b)(5)

- 1/29 (b)(6) transitioning from OCC to OVAC. Identify OCC-CI Business SME for approval. (H)

Past Decisions/Updates

- 1/29 Completed RCI VISN Meetings and each VISN received action plans from the RCI/OVAC team with OCC suggestions.

OCC Role

Responsible for VISN CC data slides. Provide OCC support and input with RCI implementation plan.

Key Activity

- ✓ 1/29 RCI Implementation Workgroup completed a lock down led by (b)(6) and (b)(6) cross walked checklist and guidance to drive communication & education trainings and updates to the guidebook.
- ✓ 2/3 SME team (b)(6) to create guidance (interim solution) for RCT Tracking tool until CTB 2.0 can track % consults automatically.
- ✓ 2/8 RCI Dashboard Iteration #1 under review with OCC CI leadership (b)(6)
- ✓ 2/8 Captured Scheduling Timeliness data by VISN (b)(6)

Next Steps

(b)(5); (b)(6)

Oversight & Dashboarding Monitoring

Workstream

Description: Oversight and Dashboard Monitoring - Joint OCC/OVAC dashboard (access, utilization, and outcomes). Initiation of JOC and HOC meetings.

Objective: Monitor outcomes on access to care and refine approach

Key Risk & Issues (High, Medium, Low)

- 2/5 CCRS data unable to connect with CDW due to data integrity issues. Initial solution pathway identified by IDA/VSSC was rejected by OIT due to vendor/contracting issues – Dr. Sandrow to escalate and resolve with OIT. (H)

Past Decisions

- 2/2 OVAC POCs identified (b)(6) and Dr. Susan Kirsh..
- 2/3 Dr. Brill recommends OVAC to identify top 3 priorities and relevant metrics for initial dashboard first then add new metrics incrementally.

OCC Role

Accountable: Dr. Mark Upton Responsible for gathering OCC metrics and requirements for data dashboard; working with the dashboard developer

Key Activity

- ✓ 2/3 OCC, IDA, and CI reviewed the Palantir comments on OCC Dashboard Requirements and provided business and technical feedback. IDA to provide feedback on remaining questions.
- ✓ 2/3 OCC briefed OVAC leads and reviewed the analysis of primary and secondary OCC/RCI metrics. OVAC agreed to participate in the joint dashboard.
- ✓ 2/4 Creating data dictionary to match common language (b)(6)
- ✓ 2/5 OCC and VSSC confirmed project team members in R&R documents.

Next Steps

- (b)(6)
- (b)(6) Dr. Sandrow (b)(6)
- (b)(6)
-
-
-
-

Operating Model Refresh

Workstream

Description: Operating Model Refresh - Access Initiative: Adjust the Operating Model to reflect a current, unified structure between OVAC/RCI and OCC aligning to the original objectives and principles.

Objective: Expand OVAC/OCC partnership and establish joint operating model refresh

Key Risk & Issues (High, Medium, Low)

- 2/8 Discussions for Op Model refresh to begin. (L)

OCC Role

Accountable (b)(6) Responsible for developing Op Model Refresh artifacts, oversight mechanisms, and deployment strategy

Key Activity

1. Confirm goals and objectives for the Operating Model
 - a. Identify OCC stakeholders and determine roles and responsibilities
 - b. Conduct internal OCC working session to align OCC goals, objectives (including milestones and dependencies)

Next Steps

(b)(5)

Scheduling Timeliness Data by VISN

Data captured on 2/8/2021

Background

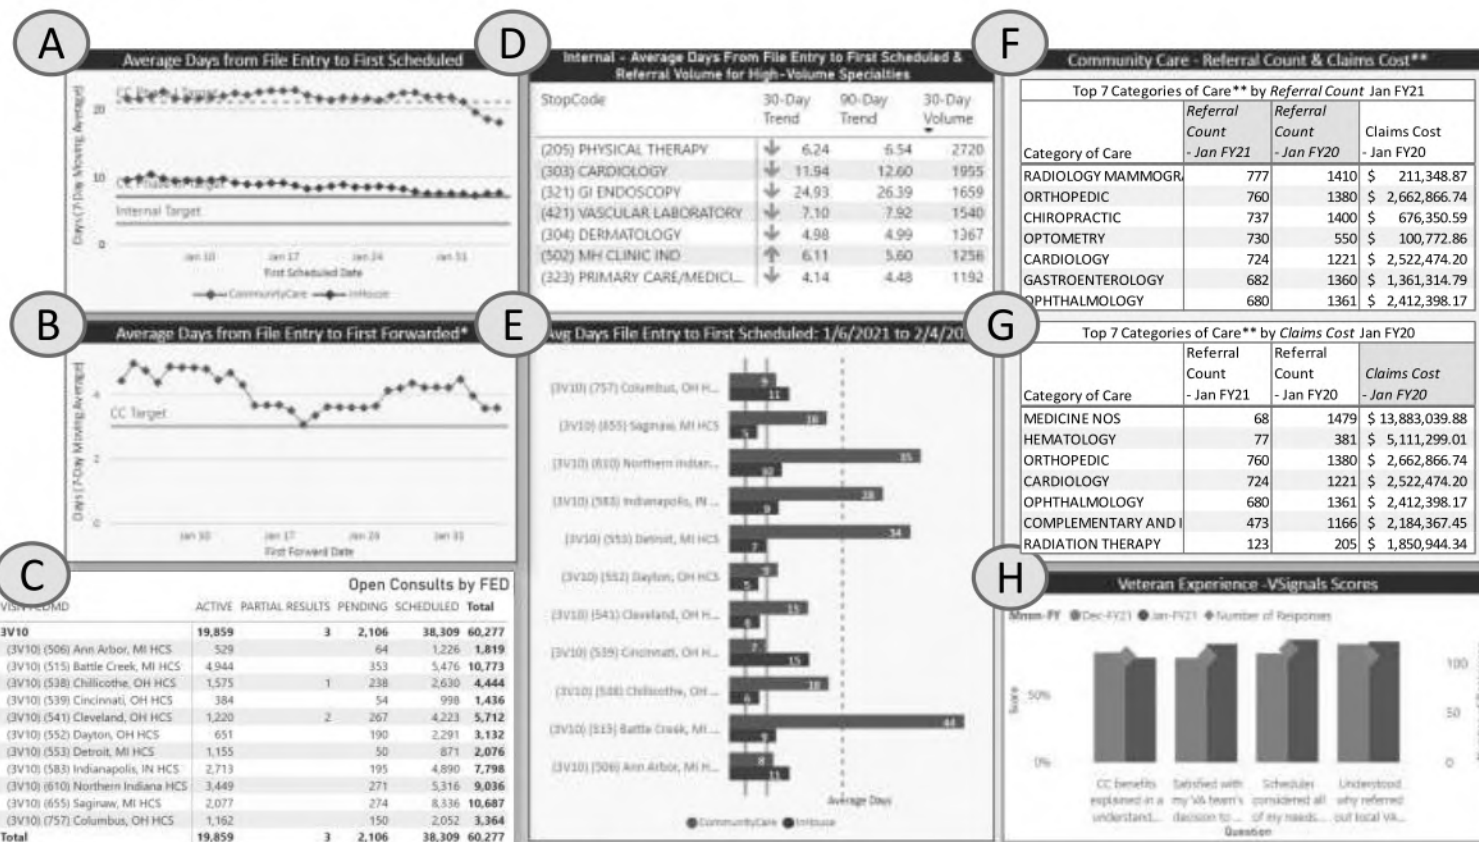

The following metrics displayed by VISN-level were identified by OCC and OVAC leadership to best measure scheduling timeliness, cost of care, and overall Veteran satisfaction.

Metrics

- A. Average Days from File Entry to First Scheduled
- B. Average Days from File Entry to Forward date
- C. Open Consults by File Entry Date
- D. Internal - Average Days from File Entry to First Scheduled and Referral Count for High-Volume Specialties
- E. Average Days from File Entry to First Scheduled by Medical Center
- F. Community Care - Referral Count & Claims Cost for Top 5 Specialties by Referral Count
- G. Community Care - Referral Count & Claims Cost for Top 5 Categories of Care by Claims Cost
- H. Veteran Experience - VSignal Scores

Data Sources

- RCI HOC Report (A-B, D-H)
- CI Dashboard (C)

*This metric does not include consults that are entered directly to community care

**Referral date is when referral created. Claims date is when the claim was paid. Referral Count - Jan FY21 is from 1/01/21-1/21/21. Only showing RCI related specialties. Emergency, Dialysis and Home Health have been removed in this extract

Data Interpretations

ID	Measure	Interpretation	Goals
A, D, & E	Average Days from File Entry to First Scheduled	(b)(5)	<ul style="list-style-type: none"> • Internal – 3 days • CC Phase I Target – 21 days, CC Phase III Target – 7 days
B	Average Days from File Entry to Forward date		3 days
C	Open Consults by File Entry Date		TBD
F & G	Community Care - Referral Count & Claims Cost		Ongoing monitoring for trends
H	Veteran Experience - VSignal Scores		Ongoing monitoring for trends

Detailed Data Definitions

ID	Metric	Definition	Source
A	Average Days from File Entry to First Scheduled	This chart shows the average number of days from File Entry to First Scheduled for in-house and community consults. Data is filtered to show consults with a First Scheduled Date within the last eight weeks. Future Care and Community Care Emergency Classification are excluded.	Screenshot of HOC RCI Report shared during weekly HOC meetings
B	Average Days from File Entry to Forward Date	This chart shows the average number of days from File Entry to Forward for community consults by Forward Date. Data is filtered to show consults that are forwarded from a different classification than Community Care. Community Care Emergency Care Consults.	
C	Open Consults by File Entry Date	This chart shows the open consults by File Entry Date. Data is filtered to show by VISN and station. <ul style="list-style-type: none"> Update weekly 	Screenshot of CI Dashboard: Consults Overview – Open Timeliness by FED
D	Internal – Average Days from File Entry to First Scheduled and Referral Count for High-Volume Specialties	This section shows the average number of days from the File Entry to First Scheduled. Data for in house high-volume specialties are presented for the prior 30 days, including the total number of consults scheduled in the prior 30 days and the average days from File Entry to First Scheduled for prior 90 day and the prior 30 days. Consults are included if they were first scheduled in the prior month. Community Care Emergency Care Consults and consults where the Appointment Made Date is after the Appointment Dare are excluded.	Screenshot of HOC RCI Report shared during weekly HOC meetings
E	Average Days from File Entry to First Scheduled by Medical Center	This chart shows the average number of days from File Entry to First Scheduled by Medical Center. Data is filtered to show consults that were first scheduled during the prior week. Future Care and Community Care Emergency Classification are excluded.	
F	Community Care – Referral Count & Claims Cost for Top 7 Categories of Care by Referral Count	<ul style="list-style-type: none"> This table shows the referral count for the last completed month, the referral count for the last completed month for the prior fiscal year and claims cost from the last completed month for the prior fiscal year. Data is sorted by referral count in F and Claims Cost in G. Only showing RCI related specialties. Emergency, Dialysis, Medicine NOS and Home Health have been removed in this extract *See Notes section for additional data detail* 	
G	Community Care – Referral Count & Claims Cost for Top 7 Categories of Care by Claims Cost		
H	Veteran Experience – VSignal Scores	<ul style="list-style-type: none"> This table displays statement responses from the Choosing VA CC and Scheduling VA CC survey types with an agreement score (scores of 4 or 5) <ul style="list-style-type: none"> My VA Primary care provider and/or VA coordinating team explained benefits offered through VA community care in a way I could understand. I clearly understood why I was referred out of my local VA for care. I am satisfied with my VA provider and/or VA coordinating team's decision to use VA community care. The [Scheduling Entity] considered all of my needs when scheduling my VA community care appointment.

OCC ELC Updates

2/17/2021

Purpose

- Decision Brief on how to manage Office of Community Care (OCC) Project Management beginning on March 1, 2021
- Presenting Three Options to decide the way forward

Integrated Veteran Care Initiative

(b)(5)

Background

- VHA Integrated Healthcare Portfolio Management (IHPM) created new processes including ***Super-integrator*** for all enterprise projects and initiatives
 - Enterprise = impacts two or more program offices or VISNs
- Assist business owners with ***development of business case***, as needed, for decision-making authority
- Establish ***consistent reporting requirements*** for projects
- Interface with Healthcare Operations center for enterprise ***monitoring*** of project progress, ***assistance*** with major campaign initiatives and ***intervention*** on critical project shortcomings
- Establish ***project management standards*** across the enterprise
- Provide ***consistent resources, tools and expertise*** as needed

Alignment of all enterprise projects to portfolios

(b)(5)

Deliver Health Care	Manage Government Resources	Provide Access to Health Care	Health Care Education, Research and Public Health	Provide Information Technology Services	Provide Health Care Administration
Provide health care to VHA beneficiaries. This includes assessing health status; planning health services; delivery of care, ensuring quality of services and continuity of care; and managing clinical information and documentation. Includes connected care modalities of telehealth, remote home monitoring, point of service kiosks, and mobile applications/tools.	Encompasses all non-mission related business functions across VA. This includes both back office operational activities such as supply chain management, human resources, finance, and information technology; as well as enterprise-level support activities for the mission such as strategic planning and resource management, performance management, and business process re-engineering.	Enables access to appropriate health care. This includes streamlining efforts to receive care; ensuring care is appropriate in terms of type, care, intensity, location and availability; providing seamless access to health knowledge, enrolling providers; performing eligibility determination, and managing patient movement.	Provides strategies to improve health by focusing on the well-being of the Veterans and VA health staff communities. This includes developing and implementing public health policy that promotes disease prevention, risk reduction and improved health for the community. Fosters advancement in health knowledge. This includes promoting healthcare knowledge advancement and providing for practitioner education.	Includes the coordination of information technology infrastructure, resources, and systems required to support an IT service.	Assures that federal health care resources are expanded effectively to ensure quality, safety, and efficiency. This includes managing health care quality, cost, workload, and utilization. Involves overseeing the day to day operations of a hospital, health care facility, or medical service.

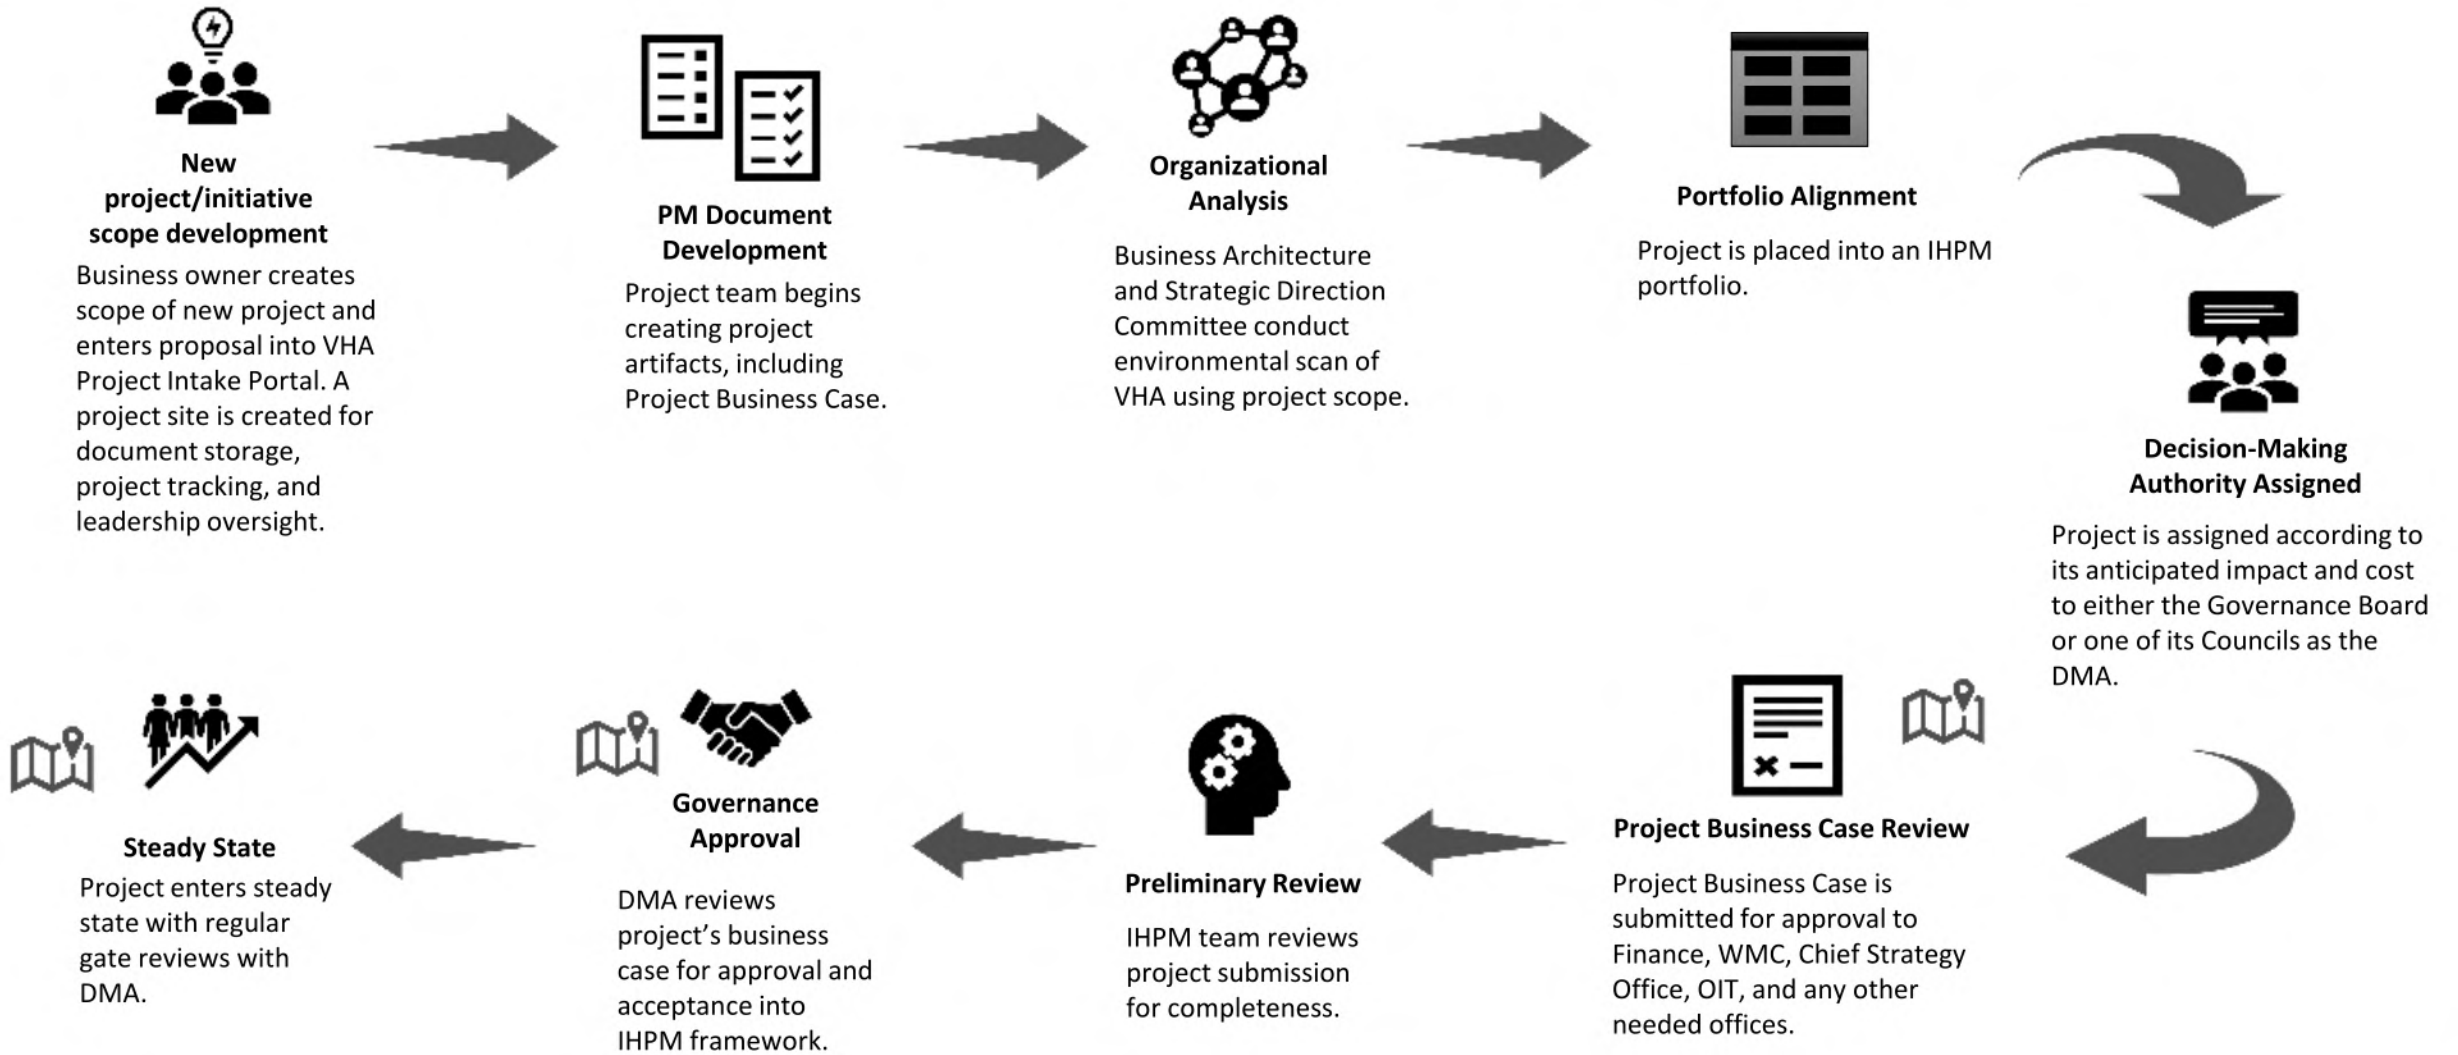

Improves:

- Stakeholder familiarity
- Subject matter expertise
- Synergy among related projects
- Identification of gaps

Business Function Framework

Portfolios and Descriptions

IHPM Process: Project Intake, Review and Approval

OCC Considerations

Oversight

- Multiple competing governance and project management processes
 - Different portfolio categorization and processes in VHA, OIT, and OCC

Implementation

- Intake/Business Case development process versus OCC Project Idea Evaluation (PIE) process
 - Business Case development
 - Reporting requirements

Governance

- Multiple VHA IHPM Governance Councils
 - Similar gate review process as OCC
 - Oversight and inform: Healthcare Delivery Council (HDC)
 - Governance and approval: Healthcare Operations Council (HOC) , Healthcare Delivery Council (HDC), Quality, Safety and Value (QVC), Organizational Health Council (OHC)

Reporting

- Use of IHPM portal for monitoring and reporting similar to OCC's One Stop Shop (OSS)
 - Different IHPM project management standards

OCC Project Impacts

- **75** total OCC and OCC-Directorate managed projects
- **51 (68%)** of all OCC projects are considered 'Enterprise'
 - 63% (22/35) of all OCC managed projects
 - 73% (29/40) of all OCC-Directorate managed projects

CCN ELC Update

10/28/2020

(b)(6)

Agenda

- Region 4 & 5 Deployment Updates
- Optional Task Key Discussion
- R1-R4 Referral Trends
- Appendix:
 - R1-R3 Referral Monitoring Summary
 - R4 Referral Monitoring Plan
 - Region 5 Kickoff Meeting Details

R4 & R5 CCN Deployment Updates

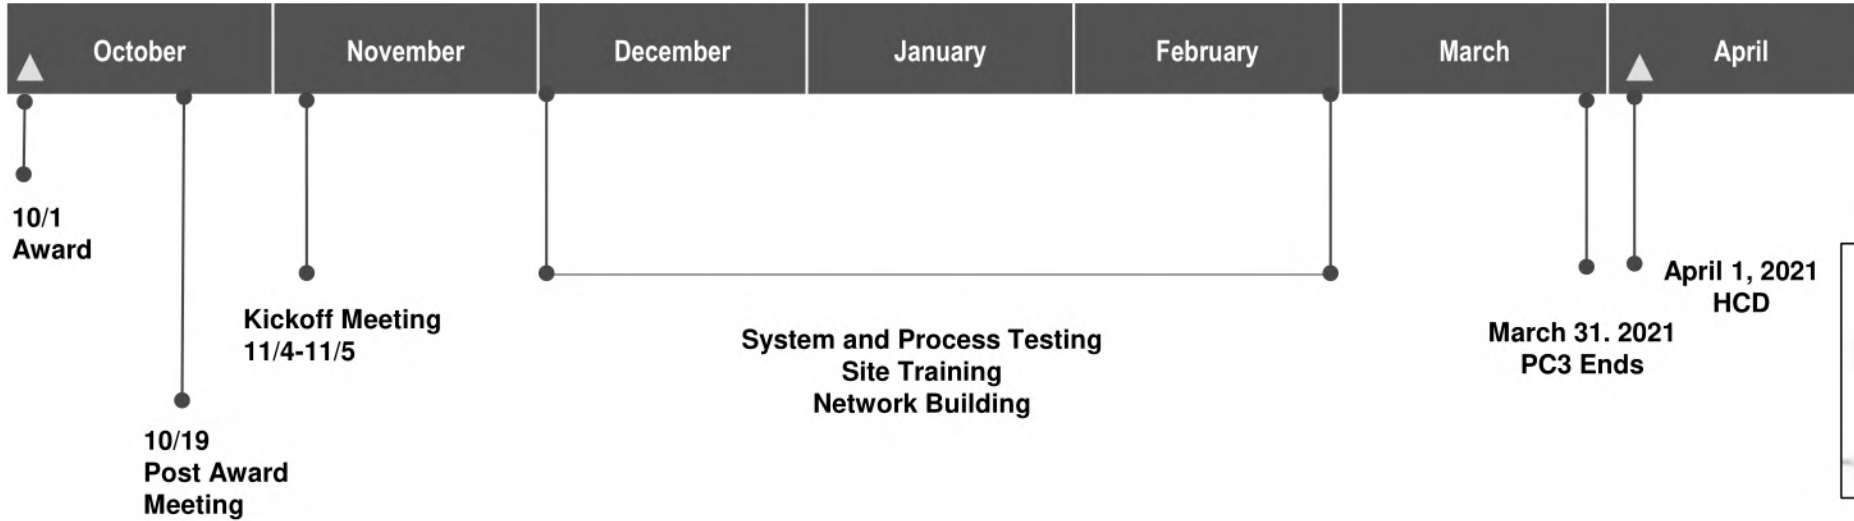

Region 4 Update

- **Referral Workgroup** is engaging the field to correct referral issues and prevent future claims issues
- OCC and TriWest are conducting site-specific **Network Adequacy** meetings to discuss “perceived” network gaps and help the sites gain familiarity with the current CCN network
- Several Region 4 sites have received additional PC3 extensions due to network gaps, COVID-19 or wildfire impacts, and Optional Task timing for scheduling support
 - Four sites have a PC3 extension ending on October 30, 2020
- **Optional Task** ^{(b)(5)}

(b)(5)
- **Urgent Care** approval volume remains constant in R4 as TriWest provides Urgent Care Network and Customer Service for CCN

Region 5 Status and Upcoming Activities

Key Activities:

Optional Task Key Discussions

Optional Task #1: Contracting Key Decisions (Regions 1-3)

Decisions/Status

• Outstanding Issues:

1. Contract modification strategy. (Lead: (b)(6) /Acquisition Team)

- Option 1A: (b)(5)
- (b)(5)

- Option 1B: (b)(5)

2. Finalize volume and tier structure. (Lead: (b)(6) /OT Team)

- Volume and the tier structure drives IGCE Pricing
- Decision Point: Are updates from the VISNs required? (b)(5)

3. Funding/Pricing Strategy. (Lead: (b)(6) /Finance team)

- (b)(5)
- (b)(5)
- Pricing strategy (Lead: (b)(6) /Acquisition Team)
- (b)(5)

4. Provider look up solutions. (Lead: (b)(6))

- Optum solution
- Revising VA.Gov provider locator tool
- Exploring both options in parallel

5. Referrals with BASIC level of care coordination only in the scope. (Lead: CI/OT Team)

- Resolution: (b)(5)
- (b)(5)
- Contract language or requirement does not need to be changed with the HSRM enhancement

Optional Task #1: Contracting Key Decisions (Region 4)

Decisions/Status

- **Outstanding Issues:**

1. Timing of OT support for additional R4 sites. (Lead: (b)(6) /OT Team)

- Recommendation: (b)(5)
- (b)(5)
-
-

2. Funding and use of OT in OY2 (4/1/21 – 3/31/22). (Lead: (b)(6) /Finance team)

- **Background** (b)(5)
- (b)(5)
- **Question for Finance:** (b)(5)
- (b)(5)
- **OCC decision point:** (b)(5)
- (b)(5)
- **Options and recommendation:**

- (b)(5)
-

Optional Tasks – Regions 1-3 Provider Locator Action Plan

Regions 1-3 Provider Locator Action Plan

Issue: Optum indicated they currently do not have the tool or capability to search CCN providers by address.

Background: The current contract does not specify VA will provide a CCN provider search tool or capability for the contractor’s scheduling staff to utilize under the Optional Task. Optum’s Optional Task strategy (Deliverable 84) did mention that Optum would utilize VA’s master provider dictionary to search for providers. This was excluded from the strategy deliverables for Regions 2 and 3.

- Initial conversation occurred with Optum during the 10/23 mod call. VA informed Optum that we will not have the capability as it stands, and we need to hear from Optum what they propose.

- Optum is discussing internally and that will be included in their technical proposal for the mod.

(b)(5)

(b)(5)

The team is exploring three options.

Action Plan – Next Steps

(b)(5)

(b)(5)

- (b)(6) and (b)(6) (b)(5)

(b)(5)

Owner

(b)(6) Mod Team, Optum

(b)(6) DEPO, PPMS, CI, CCCA

(b)(6) CCCA, Acquisition Team

Completion Date

TBD

10/30/20

TBD

Optional Task #1: Operational Key Decisions and Risks

Decisions/Status

- **VHA leadership currently holding ongoing discussions about implementing OT #1 nationally (including Regions 1-4)**
 - Launched OT#1 at 6 VAMCs from VISNs 17 and 22 on October 1st, 2020
 - Given past efforts in Regions 1-3 and deployment of Optional Task #1 with six sites in Region 4, initial draft of operational deliverables available, including: VA Community Care Staff SOP, Field Guidebook, Site Implementation Plan, Metrics and Measurements, TPA Process Flows, Site Training Presentation

Decisions Needed/Risks (Operations)

(b)(5)

R1-4 Referral Trends

Region 1: Referral Trends

Region 1 Referral Network Breakdown

Referral Analysis

- Between Sept 12, 2020- October 23, 2020 Region 1 CCN referral percentages remained consistent between **93.5%-95.5% of referrals each week.**
- VCA referrals have also remained consistent between **4-6%** of referrals each week. VCA referrals utilization decreased in the last week.
- Overall, the total referral volume has remained consistent each week (**~17,200-18,200**) except for the last two weeks of 10/10 and 10/17.
 - The weeks of 10/10 had a Monday holiday which may account for the fewer number of referrals and the uptick for the following week of 10/17.

Region 2: Referral Trends

Region 2 Referral Network Breakdown

Referral Analysis

- Between September 12, 2020 - October 23, 2020, Region 2 CCN referral percentages remained consistent between **92.5%-95% of referrals each week**.
- VCA referrals have also remained consistent **between 4-7%** of referrals each week. Since last week, VCA referral utilization increased slightly by 0.3%.
- Overall, the total referral volume has remained consistent each week (**21,000-23,000**), except for the last two weeks of 10/10 and 10/17.
 - The weeks of 10/10 had a Monday holiday which may account for the fewer number of referrals and the uptick for the following week of 10/17.

Region 3: Referral Trends

Region 3 Referral Network Breakdown

Referral Analysis

- Between September 12, 2020 - October 23, 2020, **Region 3 CCN referral percentages continued to increase from 87.5%-92.3% of referrals.**
- VCA referral percentages have steadily decreased from **11.02%** to **7.02%** consistent over the past 5 weeks.
- Overall, total referrals volume has steadily increased from **approximately 21,000 to 26,000** referrals over the past six weeks.
 - The weeks of 10/10 had a Monday holiday which may account for the fewer number of referrals and the uptick for the following week of 10/17.

Region 4: Referral Volume Snapshot

VISN Referral Network Breakdown

Referral Analysis

- Region 4 continues to see a **positive trend in CCN utilization**.
 - Optional Tasks** went live on 10/1, which has been reflected positively in the decrease in PC3 utilization and increase in CCN utilization
- Sites are reporting that wildfires are mostly contained, and they are **starting to see increasing numbers of referrals again**.
 - Week of 10/10-16 data accounts for a federal holiday, and which may account for the decrease in referral volumes.*

R1-4 Referral Monitoring

Region 1-3 Key Observations

1. Regions 1-3 all reported more than 92% of referrals through CCN. This remains consistent with last week's reporting.
2. We have an increase in the number of referrals across R1-3 since last week, potentially due to the Monday holiday in last week's reporting.
3. We have a significant number of CAEC referrals this week with appointment dates prior to the region's SHCD, most likely due to CAEC working through a backlog.
 - Region 1 went from 30 to 225 referrals in the past week, but 147 referrals have appointment dates prior to 12/10/19 HCD date
 - Region 2 went from 13 referrals to 101, but 95 of these referrals had appointment dates prior to 3/17 HCD date
 - Region 3 had an increase from 104 to 732, but 492 of these referrals had appointment dates prior to the June 16 go-live date
4. Dental and Home Health/Homemaker continue to be top categories of care for utilizing VCAs in R1-3.

Region 1: Referral Volume Snapshot

Top Categories of Care

Region: R01 *10/17/2020 through 10/23/2020**
 VISN: (All)
 Station#_StationName: (All)
 Data pulled from the CDW

Referrals through: [dropdown]

Category of Care	CCN	PC3	VCA / Contracts	Grand Total
DENTAL	1097		393	1490
PHYSICAL THERAPY	1196	3		1199
ORTHOPEDIC	947	1	1	949
OPTOMETRY	788	1	1	790
GASTROENTEROLOGY	737		4	741

The top five categories of care going to VCAs are (not including ER/Urgent Care):

1. Dental
2. Homemaker/Home Health Aide
3. Veteran Directed Care
4. Skilled Home Health Care
5. Adult Day Health Care

- Region 1 is sending 95.36% of community care referrals through CCN.
- The PC3 percentage for R1 referrals is down to 0.51% of referrals. VCAs account for 4.12% of referrals.
- VISN 5 sent 165 referrals through VCAs. 99 of these referrals were for Dental or Homemaker/Home Health Aid.
- This data analysis does not include a complete picture of ER/Urgent Care referrals through CCN. Referrals generated from the Centralized Authorized Emergency Care (CAEC) Team are not included in this data analysis.
 - For Region 1, this accounted for **225 PC3 referral* that were categorized as Emergency Care or ER/Urgent.**

Data is from the [Weekly Referral Dashboard](#)

*147 of these referrals have appointment dates set prior to the 12/10/19 HCD date.

VISN Referral Network Breakdown

4. Lab and Pathology
5. Inpatient

- Referrals generated from the Centralized Authorized Team (CAEC) are not included in this data analysis
 - For Region 4, this accounted for **1155 PC3 referrals**.
 - 1067 referrals were categorized as “ER/Urgent” and 88 referrals were categorized as inpatient.
- CCN Utilization **slightly increased for all VISNs, except VISN 17**.
 - VISN 21 had the highest **increase of 5%** from previous week; VISN 20 **increased 3%**; VISN 16, 19, and 20 **increased 2%**.
 - VISN 17 had a slight **decrease of 2%**

VISN Referral Network Breakdown

Region 4 VISN 16 Sites: Referral Volume Snapshot

Top Categories of Care

Region	R04	10/17/2020 through 10/23/2020**
VISN	16	Data pulled from the CDW
Station#_StationName	(All)	

Category of Care	Referrals through:		
	CCN	PC3	VCA / Contracts
DENTAL	26		120
HOMEMAKER/HOME HEALTH AID	113		2
SKILLED HOME HEALTH CARE	105		
NEUROLOGY	86		
OPHTHALMOLOGY	67		

The top five categories of care going to PC3 and VCAs are (not including ER/Urgent Care):

1. Dental
2. Adult Day Health Care
3. Inpatient
4. Nephrology
5. Homemaker/Home Health Aid

Less than 10 referrals

- Referrals generated from the CAEC are not included in this data analysis.
 - For Region 4 VISN 16, this accounted for **24 PC3 referrals**.
 - This is a drop from **86 PC3 referrals last week**.
 - 15 referrals were categorized as “ER/Urgent” and 9 referrals were categorized as inpatient.
- CNN utilization **increased 2%**; PC3 utilization **decreased 1%**; and VCA utilization **remained the same** compared to previous week.

CCN ELC Update

10/23/2020

(b)(6)

- Region 4 & 5 Deployment Updates
- R1-R4 Referral Trends
- Optional Task Update
- Appendix R1-R4 Referral Monitoring Plan

R4 & R5 CCN Deployment Updates

CCN Contract Award and Implementation Update

CCN Regions

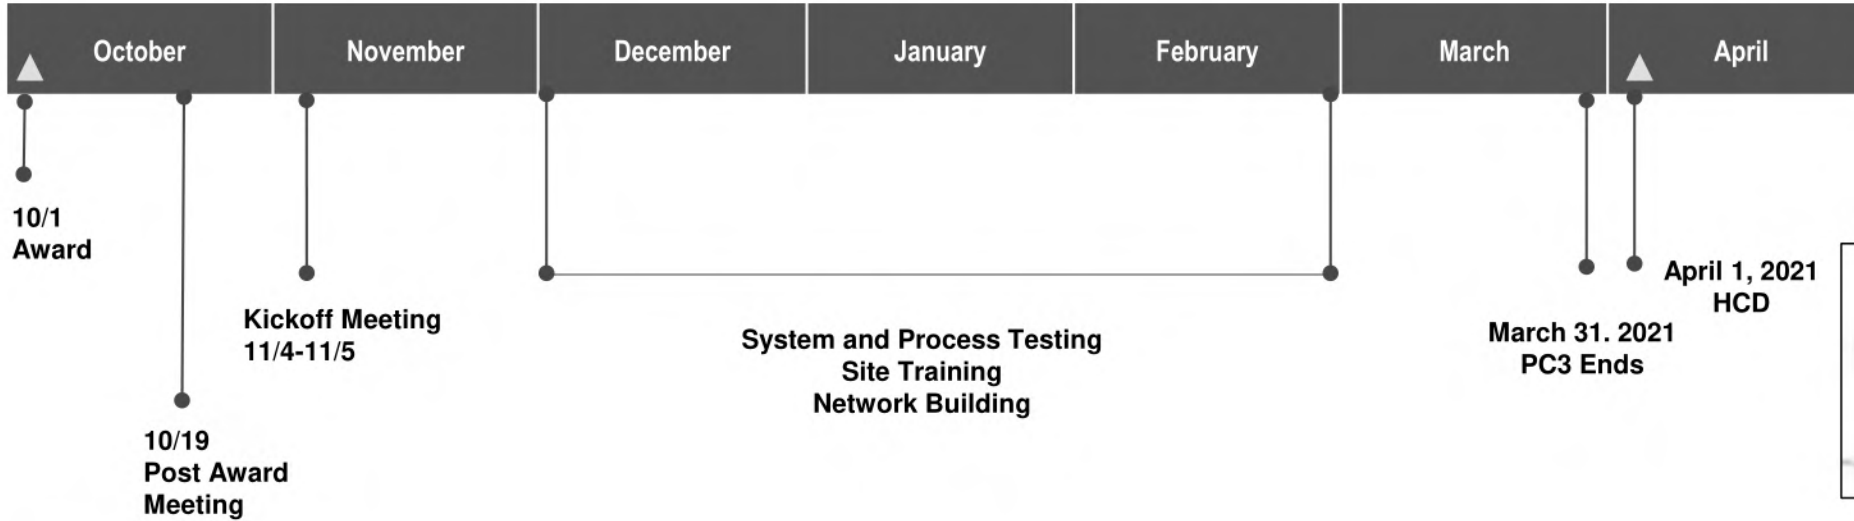

- R1** Awarded 12/28/18, start of health care delivery (SHCD) 6/26/19, full deployment by 12/28/19
- R2** Awarded 12/28/18, protest filed 1/22/19, protest resolved 5/2/19, performance resumed 5/6/19, SHCD 10/7/19, full deployment by 4/9/20
- R3** Awarded 12/28/18, protest resolved 5/3/19, appeal with the US Court of Federal Claims, stay of performance to Optum lifted on 7/22; SHCD on 10/7/19, full HCD achieved by 6/22/20
- R4** Pre-Award protest dismissed; award made 8/6/19, SHCD 6/8/20, full HCD achieved 8/31/2020
- R5** Awarded 10/1, Post Award Meeting 10/19, Kick-off Meeting 11/4, HCD by 4/1/21
- R6** Pre-Solicitation

Region 4 Update

- **Referral Workgroup** is engaging the field to correct referral issues and prevent future claims issues
- OCC and TriWest are conducting site-specific **Network Adequacy** meetings to discuss “perceived” network gaps and help the sites gain familiarity with the current CCN network
- Several Region 4 sites have received additional PC3 extensions due to network gaps, COVID-19 or wildfire impacts, and Optional Task timing for scheduling support
 - Seven sites have a PC3 extension ending on October 23, 2020
 - Four sites have a PC3 extension ending on October 30, 2020
- **Optional Task** (b)(5)
(b)(5)
- **Urgent Care** approval volume remains constant in R4 as TriWest provides Urgent Care Network and Customer Service for CCN

Region 5 Status and Upcoming Activities

Key Activities:

- The Kickoff Meeting is scheduled for 11/4-11/5

(b)(5)

Region 5 Kickoff Meeting

- CCN Transition Team is working with the appropriate stakeholders to prepare for a two-day Kickoff Meeting with TriWest, scheduled for 11/4/20 – 11/5/20
- The Kickoff Meeting will include discussions around key differences between Regions 4 and 5 contracts along with breakout sessions on several topics including:
 - Implementation strategy
 - Network adequacy plan, including new Telehealth Solutions Plan and a strategy around engaging Tribal Health organizations
 - Training and change management
 - Claims processing and invoicing
 - Detailed Integrated Master Schedule (IMS) review

• (b)(5)

R1-4 Referral Trends

Region 1: Referral Trends

Region 1 Referral Network Breakdown

Referral Analysis

- Between October 10, 2020- October 16, 2020 Region 1 CCN referral percentages remained consistent between **93%-95% of referrals each week.**
- VCA referrals have also remained consistent between **4-6%** of referrals each week. VCA referrals decreased slightly in the last week.
- The total referral volume has remained consistent each week (**17,200-18,200**) except for the Week of 9/5-9/11 and 10/10-10/16. The weeks of 9/5 and 10/10 both had a Monday holiday which may account for the fewer number of referrals.

Choose VA

This data was pulled from CDW for September 5 – October 16, 2020.

VA

U.S. Department of Veterans Affairs
Veterans Health Administration
Office of Community Care

Region 2: Referral Trends

Region 2 Referral Network Breakdown

Referral Analysis

- Between September 5, 2020 - October 16, 2020, Region 2 CCN referral percentages remained consistent between **92%-94% of referrals each week.**
- VCA referrals have also remained consistent between **4-7%** of referrals each week. VCA referrals decreased slightly in the last week.
- The total referral volume has remained consistent each week (**21,000-23,000**), except for the Week of 9/5-9/11 and 10/10-10/16. The weeks of 9/5 and 10/10 both had a Monday holiday which may account for the fewer number of referrals.

Region 3: Referral Trends

Region 3 Referral Network Breakdown

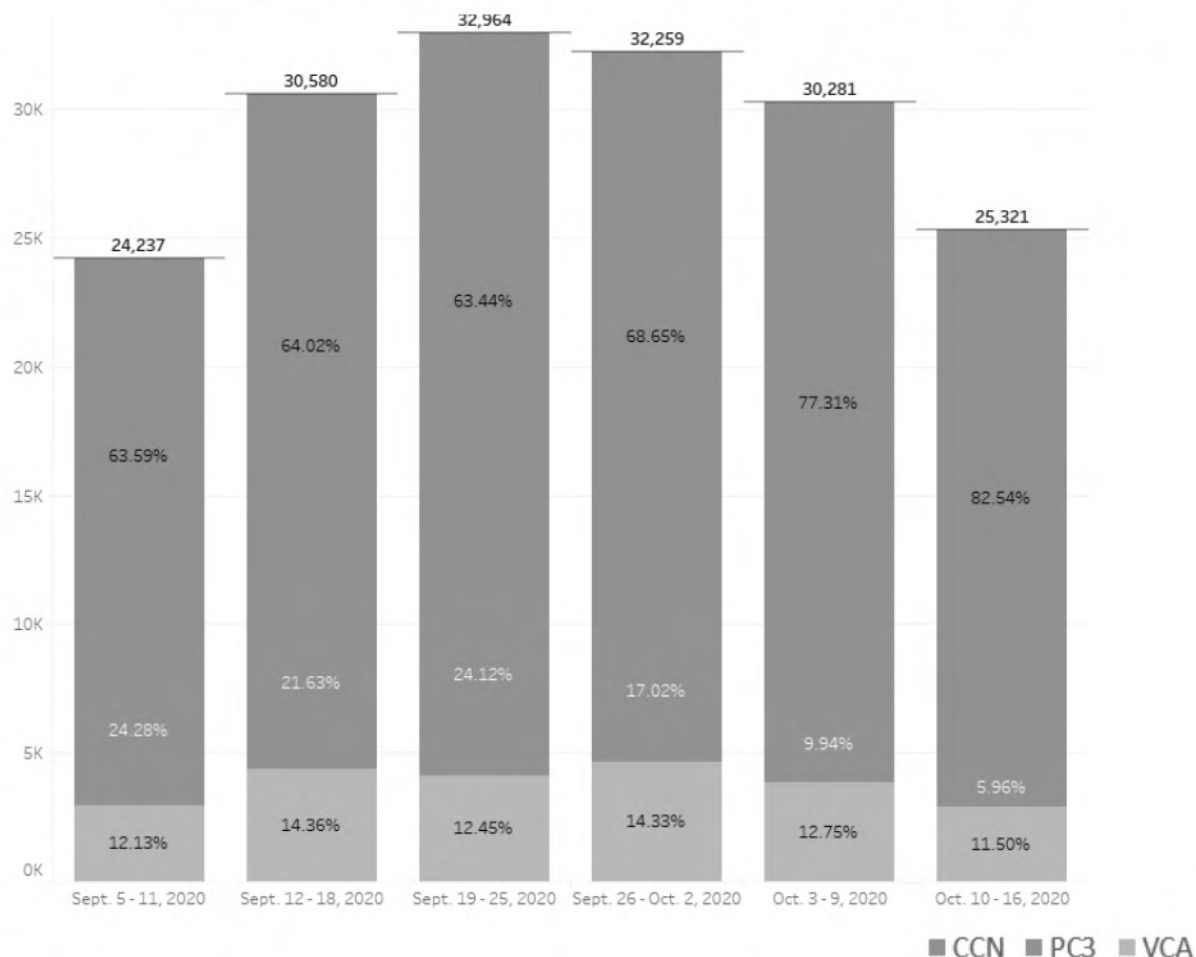

Referral Analysis

- Between September 5, 2020 - October 16, 2020, **Region 3 CCN referral percentages continued to increase from 85%-91% of referrals.**
- VCA referral percentages have remained consistent between **9%-11%** of referrals.
- Overall referrals have increased slightly from **21,000-24,000** referrals, except for the Week of 9/5-9/11. The week of 9/5 and 10/10 had a Monday holiday which may account for the fewer number of referrals.

Region 4: Referral Trends

Region 4 Referral Network Breakdown

Referral Analysis

- Region 4 continues to see a **positive trend in CCN utilization**.
 - Optional Tasks** went live on 10/1, which has been reflected positively in the decrease in PC3 utilization and increase in CCN utilization
 - Sites are reporting that wildfires are mostly contained, and they are **starting to see increasing numbers of referrals again**.
- Data accounts for Oct. 12th which was a federal holiday, and which may account for the decrease in referral volumes.*

Follow-Up: Kansas City HCS Referral Volume Decrease

- Kansas City HCS CC utilization trends based on the HOC report data showed a significant decrease of the overall referral volume compared to pre-COVID-19.
 - Sep. referral volume is **40-42%** of pre-COVID-19 volume (Jan.-Feb. 2020)
 - Nationally, VA is at or above the pre-COVID-19 referral volume
- After engagement with VISN and the facility, a few observations were noted.
 - Facility’s consult volume in January was less than 2,500 and the facility is surprised to see over 5,000 referrals.
 - Retroactive approval of ER care is partly driving up the higher referral number in the first part of the year; however, it only accounts for a portion of the discrepancy.

Optional Tasks Appendix – Region 1-3

Optional Task #1: Region 1-3 Contracting

- On Track in progress
- Moderate risk; in progress
- Significant risk; mitigation plan not mature

Milestones (R1-3 Contracting)		Status	Dependency	Owner	Estimated Time
Cost Estimation Model	Develop national volume and cost estimates for cross-regional Optional Task #1 support (firm-fixed referral volumes and related cost for one year of service)	Complete	VHA Leadership approval	VHA Leadership, OT Team	1 month
	Assess/explore funding options related to COVID-19 (pending OGC approval)	Complete			
	Present OT implementation plan and estimates to Network Directors	Complete			
	Obtain approval from Network Directors, ELC, and VHA Governance to proceed with engaging TPAs for contract modifications	Complete			
Contract Modifications:	(b)(5)		Cost model finalization	Contracting Office, Modification Team	1-2 months from cost model approval
	(b)(5)				
	(b)(5)				
Funding	Confirm method of funding to apply to Regions 1-3	Complete	Approved service cost	PRS Budget and OCC Finance	3 weeks from agreed-up cost model with TPA
	(b)(5)				
Task Order Issuance	(b)(5)		Contract Mod and Funding finalization	Contracting Office and COR Team	2-4 weeks from Mod and Funding finalization

Optional Task #1: Region 1-3 Operations

On Track in progress
 Moderate risk; in progress
 Significant risk; mitigation plan not mature

Milestones (R1-3 Operations)		Status	Dependency	Owner	Estimated Time
Workflow and Process Mapping	(b)(5)		(b)(5)	CI, CCN Transition HSRM, OT Team	1-2 months following approval from SAC to engage Optum on business process
Community Care Staff SOP and FGB	(b)(5)		(b)(5)	CI, CCN Transition, OT Team	2 weeks from end-to-end process testing
Site Implementation Plan	(b)(5)		(b)(5)	CI, CCN Transition, OT Team	2 weeks from end-to-end process testing
Community Care and CI Staff Workflow Reports	(b)(5)		(b)(5)	CI, IDA, VSSC, OT Team	2 weeks from end-to-end process testing

Optional Task #1: Region 1-3 Operations

- On Track in progress
- Moderate risk; in progress
- Significant risk; mitigation plan not mature

Milestones (Region 1-3 Operations)		Status	Dependency	Owner	Estimated Time	
Utilization Management Guidance Document	(b)(5)		(b)(5)	CI, CCN Transition, OT Team	2 weeks from end-to-end process testing	
EPRS Deliverable Reports				IDA, EPRS	TBD -- EPRS to define build timeline as they receive requirements	
Metrics and Measurements				CI, CCN Transition, OT Team	2 weeks from end-to-end process testing	
Service Discontinuation Protocol				CI, CCN Transition, OT Team	2 weeks from end-to-end process testing	
Site Training					CI, CCN Transition, OT Team	1 month (estimating 1 week per Region) starting finalization of process deliverable

Optional Tasks Appendix – Region 4

Optional Task #1: Region 4 Contracting

On Track in progress
 Moderate risk; in progress
 Significant risk; mitigation plan not mature

Milestones (R4 Contracting)		Status	Dependency	Owner	Estimated Time
Cost Estimation Model	Develop national volume and cost estimates for cross-regional Optional Task #1 support (firm-fixed referral volumes and related cost for one year of service)	Complete	VHA Leadership approval	VHA Leadership, OT Team	1 month
	(b)(5)	█			
	Present OT implementation plan and estimates to Network Directors	Complete			
	(b)(5)				
Contract Modifications	(b)(5)		(b)(5)	Contracting Office, Modification Team	~1 months from cost model approval
	(b)(5)				
	(b)(5)				
	(b)(5)				
Funding	Confirm method of funding to apply to Region 4	Complete	Approved service cost	PRS Budget and OCC Finance	3 weeks from agreed upon cost model with TPA
	(b)(5)				
	(b)(5)				
Task Order Issuance	(b)(5)		(b)(5)	Contracting Office and COR Team	2-4 weeks from Mod and Funding finalization
	(b)(5)				

Optional Task #1: Region 4 Operations

On Track in progress
 Moderate risk; in progress
 Significant risk; mitigation plan not mature

Milestones (R4 Operations)	Status	Dependency	Owner	Estimated Time
Community Care Staff SOP and FGB	(b)(5)	(b)(5)	CI, CCN Transition, OT Team	1 week from any end-to-end process updates
Site Implementation Plan			CI, CCN Transition, OT Team	1 week from any end-to-end process updates
Community Care and CI Staff Workflow Reports			CI, IDA, VSSC, OT Team	9/25/20
Utilization Management Guidance Document			CI, CCN Transition, OT Team	2 weeks from any end-to-end process updates
EPRS Deliverable Reports			IDA, EPRS	TBD -- EPRS to define build timeline as they receive requirements
Metrics and Measurements			CI, CCN Transition, OT Team	2 weeks from any end-to-end process updates

Category of Care	Referrals through: CCN	PC3	VCA / Contracts	Grand Total
OPTOMETRY	592	3		595
SKILLED HOME HEALTH CARE	161	30	12	203
CHIROPRACTIC	197	2		199
PHYSICAL THERAPY	178	4		182
ORTHOPEDIC	158	3		161

- Referrals generated from the Centralized Authorized Team (CAEC) are not included in this data analysis.
 - For Region 4 VISN 19, this accounted for **82 PC3 referrals**.
 - 80 referrals were categorized as “ER/Urgent” and 2 referrals were categorized as inpatient.
- Cheyenne (442) and Sheridan (666) received **PC3 extensions that will expire on 10/30** due to network gaps in acute care center, ophthalmology, and other specialties.
- Sheridan’s CCN utilization **increased 18%** from prior weeks.

The top five categories of care going to PC3 and VCAs are (not including ER/Urgent Care):

1. Veteran Directed Care
2. Homemaker/Home Health Aide
3. Dental
4. Skilled Home Care
5. Respite Care

VISN Referral Network Breakdown

Region 4 VISN 20 Sites: Referral Volume Snapshot

Top Categories of Care

Region: R04 | 10/10/2020 through 10/16/2020**
 VISN: 20 | Data pulled from the CDW
 Station#_StationName: (All)

Category of Care	CCN	PC3	VCA / Contracts	Grand Total
DENTAL	98		137	235
OPTOMETRY	224	2		226
OPHTHALMOLOGY	202	3		205
ORTHOPEDIC	198	2		200
PRIMARY CARE	184	2		186

The top five categories of care going to PC3 and VCAs are (not including ER/Urgent Care):

1. Dental
2. Homemaker/Home Health Aide
3. Bowel and Bladder
4. Skilled Home Health Care
5. Pain Management

Less than 10 referrals

- Referrals generated from the Centralized Authorized Team (CAEC) are not included in this data analysis.
 - For Region 4 VISN 20, this accounted for **61 PC3 referrals**.
 - 58 referrals were categorized as “ER/Urgent” and 3 referrals were categorized as inpatient.
- All sites saw a decrease in PC3 utilization
 - Walla Walla’s PC3 utilization **decrease 23%** and CCN utilization increased **36%**.

VISN Referral Network Breakdown

Region 4 VISN 21 Sites: Referral Volume Snapshot

Top Categories of Care

Region: R04 | 10/10/2020 through 10/16/2020**

R4 Referral Trends

Region 4: Referral Volume Snapshot

VISN Referral Network Breakdown

Referral Analysis

- Region 4 continues to see a **positive trend in CCN utilization**, landing at **90.4% utilization** this week
 - PC3 utilization has decreased to 0.2%** since the ending of all PC3 extensions as of 10/30/20.
 - VCA utilization has remained steady** with the **Dental and Homemaker/Home Health Aid as the top categories of care for VCA referral utilization.**
- Referral volumes, overall, have **continued to steadily increase** (except for holiday weeks).
- Week of 10/10 and 11/7 data accounts for federal holidays (i.e. Indigenous People’s Day/Columbus Day, Veterans Day), which may explain the decrease in referral volumes and slight uptick the following week across all 3 regions*

Region 4 Follow-up Items: Updates

Date Identified	Observation	Action	Analysis update	Status
11/12/2020	<p>VISN 16 – Houston, TX: CCN utilization decreased 12% and VCA utilization increased 13% compared to previous week. Dental VCAs is driving the change in utilization for this reporting period. In the prior reporting week, there were 14 dental VCA, this reporting week, there were 158. The majority of these Dental VCA referrals (86) were for the Dental Disease Management SEOC. These VCA referrals were sent to 24 unique providers.</p>	<p>11/18: Network Support team to investigate dental network in Houston area and will collaborate with VISN 16 BIM</p> <p>11/18: R4 team to coordinate with Network Support/VCA/TW to match addresses with correct provider names and check on contracting statuses for CCN</p>	<p>11/18: Houston reported concerns with the dental network, thus the need for VCAs. Dental referrals decreased in the last week, resulting in a 2% VCA decrease and a 2% increase in CCN referrals.</p> <ul style="list-style-type: none"> • R4 team analysis showed that the majority of Houston’s top utilized dental VCA providers had data integrity issues. Care sites are showing address, rather than their provider name, for the care site. <ul style="list-style-type: none"> ○ This is a result of when PPMS would default to the care site address if the user did not put in a name for a care site. Since then, PPMS made care site name mandatory. • OCC Network Management & VCA Team is prioritizing deactivating VCAs not in use, correcting statuses that are incorrect, and correcting those VCAs that weren’t process in accordance with the OCC guidance. Clean-up efforts are currently deprioritized. <p>11/30: R4 team has provided Network Team with NPIs of providers with data issues. Affiliations for dental were all VCAs. Network Team actively working on researching and addressing.</p>	Closed
11/12/20	<p>VISN 22 – Albuquerque decreased 4% in its CCN utilization. Dental VCAs is driving the change in utilization for this reporting period. In the prior reporting week, there were 186 dental VCA, this reporting week, there were 299 dental VCA referrals.</p>	<p>11/18: R4 team to coordinate with Network Support/VCA/TW to match addresses with correct provider names and check on contracting statuses for CCN</p>	<p>11/18: Albuquerque reported that there are not enough dental providers to meet their need. They're using VCAs and transitioning to CCN as providers are available. In contrast, the Albuquerque Dental Chief indicated that the CCN network has more providers than they previously had under VCAs, especially for specialty dental services.</p> <ul style="list-style-type: none"> • BIM has requested additional information from the site. • R4 team analysis showed that the majority of Albuquerque’s top utilized dental VCA providers had data integrity issues. Care sites are showing address, rather than their provider name, for the care site. <ul style="list-style-type: none"> ○ See above for additional detail <p>11/30: R4 team has provided Network Team with NPIs of providers with data issues. Affiliations for dental were all VCAs. Additionally Network Support identified a trend of providers that were used under VCAs had different taxonomies, one of which was not the general practice. Therefore with the taxonomy excluded, no network populated into the locator. Network Team actively working on researching and addressing.</p>	Closed

Region 4 Follow-up Items: Updates

Date Identified	Observation	Action	Analysis update	Status
11/18	<p>VISN 21 – Sacramento decreased 18% in its CCN utilization and increased 18% in VCA referrals from the prior week in the following specialties; Neurosurgery (from 18 to 65), Orthopedics (from 0 to 45), and Radiology (from 0 to 21).</p>	<p>R4 Team and VISN 21 BIM are reaching to station for more information</p>	<p>(b)(5)</p>	<p>Open</p>
11/18	<p>VISN 20 – Puget Sound continues to have the highest VCA utilization.</p>	<p>R4 team to research what is contributing to Puget Sound’s high VCA utilization</p>		<p>Open</p>

Program Optimization Plan (POP)

Executive Summary

Background

OCC identified a need for a plan to serve as a roadmap for how OCC will administer the Community Care Program now and in the future. Now that CCN Regions 1-4 are in post deployment, many OCC teams are actively engaged in enhancement activities. The Program Optimization Plan (POP) will communicate these enhancement activities as well as the department goals for optimization.

Goal

Operationalizing CC business systems, processes, and workflows and identifying enhancements is essential to ensuring effective oversight and administration of community care. The POP will communicate OCC's goals and efforts towards national standardization and leveraging industry best practices to efficiently execute a reliable program that serves the needs of Veterans and aligns with VHA's mission. This roadmap will evolve to guide OCC and its partners as it optimizes its people, processes, and tools going forward.

In addition, to document the current state of OCC in one consolidated plan. There are many offices and workstreams and some information and program development is fragmented. This plan aims to consolidate the current state of each capability so that OCC can properly achieve comprehensive enhancement and optimization.

Approach

The POP initiative will frame the tactical activities currently underway to bring the program from current state to an enhanced status. In some cases, work to enhance operations has already begun, and will inform the objectives to optimize the program. We will capture these projects and desired outcomes as well.

Optimization Plan Status Overview – 12/2/2020

Potential Risks

- Competing priorities
- Ability to meet with stakeholders
- Stakeholder’s unfavorable reception to information and meeting requests
- Cerner and EHRM program implications on processes and systems and many unknowns, given its impact on each capability

Timeline

- Initial draft submitted on November 13th
- Submission of secondary draft is slated for December 11th ; will reflect incremental information and feedback received from VA SMEs and Business Owners
- Thereafter, team will work to produce a Call 009 Ext final draft by January 15th

Framework: Structured by OCC capability

- Emphasis on integration across capabilities
- Identify infrastructure to enable continuous refinement for each capability
- Incorporate recommendations for prioritization to achieve optimization

Actions Underway: Information Gathering & Interviews

- Completing discovery of existing SharePoint artifacts and engagement with contractor support
- Initiating engagement with VA Business Owners and SMEs to capture perspectives, preferences, priorities
- Reviewing initial findings with (b)(6) and (b)(6) to ensure scope of capability stays on track

Next Steps: Integration of Findings

- (b)(5)

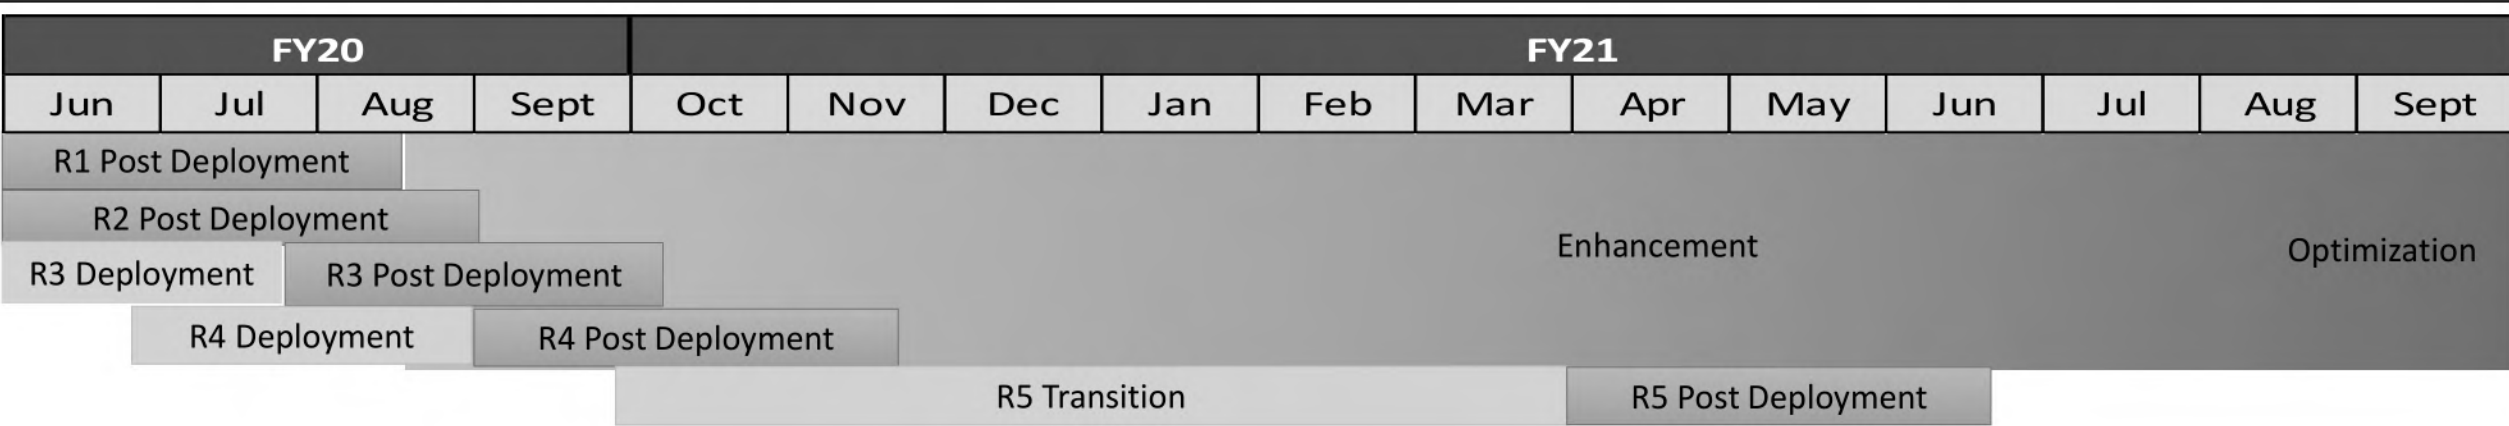

Optimization Plan Risks

Risk	Risk Response Strategy	Response Detailed
Competing priorities amongst VA and Contractor support staff	Accept	Team is leveraging existing project/program artifacts to fill in knowledge gaps
Ability to meet with VA stakeholders	Accept	Team is engaging with Guidehouse contractor support staff to gain insights into current activities and minimize questions for VA business owners and SMEs
Stakeholder's unfavorable reception to information and meeting requests	Mitigation	Involvement of CCN PMs in meetings to smooth outreach and communicate shared objective of effective community care oversight; scope of each capability section is customized based on area of focus and current activities underway
Cerner and EHRM program implications on processes and systems and many unknowns, given its impact on each capability	Mitigation	As appropriate, engage OCC and Cerner teams in working session to discuss future capabilities of Cerner and integration of functionality across projects (depending on applicable timing for Cerner team)

Program Optimization Plan Benefits & Timeline

• Strategic roadmap to manage program optimization will document:

- Established processes that enable continuous refinement and advancement in a rapidly changing health care landscape
- Definition of enhancement at a national level and necessary engagements to achieve optimization
- Clear understanding of the priorities for each capability area and the structure required to move forward
- Prioritized actions amongst OCC teams to further mature capabilities to achieve OCC mission and meet the long-term needs of community care

Existing artifacts and contractor interviews will lay the foundation for the roadmap with strategic guidance from VA Business Owners and SMEs.

Structured Approach to Capture Maturing Capabilities

Eligibility	<ul style="list-style-type: none"> • Determine Eligibility • Communicate Eligibility • Track Eligibility
Referrals and Authorization	<ul style="list-style-type: none"> • Receive and Communicate Referrals • Receive and Communicate Authorizations • Track Referrals and Authorization
Care Coordination	<ul style="list-style-type: none"> • Receive and Communicate Health Information • SEOC • Schedule Community Appointments • Coordinate Community Requests
Utilization Management	<ul style="list-style-type: none"> • Determine Clinical Appropriateness • Track Service Utilization • Track and Incentivize Provider Performance
Network	<ul style="list-style-type: none"> • Collect Provider Information • Communicate Provider Information • Manage Networks
Provider Payment	<ul style="list-style-type: none"> • Receive and Process Claims • Pay Claims/Invoices • Audit Claims/Invoices
Revenue Operations	<ul style="list-style-type: none"> • Track Facility Revenue • Conduct Insurance Verification • Perform Revenue Utilization Review
Customer Service	<ul style="list-style-type: none"> • Provide Education • Respond to Inquiries
Patient Safety and Quality	<ul style="list-style-type: none"> • Mitigate risk to safety of Veterans • Track and assess CCN contract clinical quality monitoring activities

Sample Capability Section Overview

OCC Operational Management and Administration (Governance)

Capability Description	Sub-capabilities
OCC's governance structure formalizes relationships between internal and external stakeholders involved in overseeing, managing, and executing the Community Care Network (CCN) Contracts.	<ul style="list-style-type: none"> • PMO Governance within OCC Governance (2.1) • OCC Communications Office (2.2) • Change Management (2.3) • CCN Contract Administration (2.4)
Key Highlights	
Current State 1.0	
<p><i>Description: Current state is where we are today: post deployment management and maintenance of the CC program and the implementation of desired capabilities.</i></p>	<ul style="list-style-type: none"> • Overarching key takeaway 1 (focus on what has been accomplished, where we are now) • Overarching key takeaway 2 (focus on what has been accomplished, where we are now) • Overarching key takeaway 3 (focus on what has been accomplished, where we are now)
<hr/>	
Enhanced State 1.5	
<p><i>Description: Enhanced State is the operationalization of the desired capabilities.</i></p>	<ul style="list-style-type: none"> • Overarching key takeaway 1 (focus on opportunities that are being addressed, intended outcome) • Overarching key takeaway 2 (focus on opportunities that are being addressed, intended outcome) • Overarching key takeaway 3 (focus on opportunities that are being addressed, intended outcome)
<hr/>	
Optimized State 2.0	
<p><i>Description: Optimized state is the optimization of matured capabilities.</i></p>	<ul style="list-style-type: none"> • Overarching key takeaway 1 (focus on vision for future state, optimization activities and integration methods) • Overarching key takeaway 2 (focus on vision for future state, optimization activities and integration methods) • Overarching key takeaway 3 (focus on vision for future state, optimization activities and integration methods)

Optional Task Update

Optional Task #1: Contracting Key Decisions (Regions 1-3)

Decisions/Status

- No ELC decision needed; no new risk

- **Outstanding Issues:**

1. Contract modification strategy.
 - Status: VA received Optum’s proposal on Monday, 11/16;
 - Next Step: Evaluation teams (technical, pricing) conducting proposal evaluation.
2. Finalize volume and tier structure.
 - Status: Not utilizing tiers, but instead doing a minimum purchase with the ability to purchase in bundles of 1000 thereafter. This has been incorporated into the latest change page. Draft volume estimates sent to Optum on 11/10/20 that outline phased approach and anticipated monthly volumes with surge capacities.
 - Next Step: (b)(5)
3. Funding/Pricing Strategy.
 - Status: (b)(5)
 - Decision Point: (b)(5)
4. Provider look up solutions.
 - Status: With deactivations of PC3 providers approaching and reduction in use of VCAs, use of va.gov may be viable without affiliation added. Optum included its provider look up solution in their proposal.
 - Next Step: (b)(5)
5. New CLIN ID required for COVID-19 scheduling support.
 - Status: HSRM requires specific CLIN IDs/requirements from contract modification to develop/deploy
 - Next Step: (b)(5)

Optional Task #1: Contracting Key Decisions (Region 4)

Decisions/Status

• Decisions:

1. Here is the estimated timeline for the additional TriWest scheduling support in CCN Region 4:

- 12/7 - 12/11: CCN Optional Task trainings for R4 stations (VAMC staff from stations newly using the CCN scheduling support must participate in the training).

- Next steps:

(b)(5)

- 12/14/2020: Estimated that new VAMCs can start utilizing the CCN optional task.

- 1/1/2021 (b)(5)

(b)(5)

- (b)(5)

- Each VISN will be provided a monthly maximum to ensure Region 4 stays within the Tier 2 level.

- 4/1/2021: New task order must be issued for TriWest scheduling support for the next contract option year.

- Additional 6 months of support (April 2021 to September 2021) at the Tier 2 level is planned using the CARES Fund.

2. New CLIN ID's are Required for National Support (**Lead:** (b)(6))

- HSRM requires specific CLIN IDs and requirements from contract modification to develop CLIN IDs
- Current Optional Task CLINs may be able to be utilized with TriWest
- **Confirmed that a new CLIN is not needed for R4 Tier 2 for this optional year (now – March 2021).**

Optional Task #1: Operational Key Decisions and Risks

Decisions/Status

Completed Actions Steps

(b)(5)

Previous ELC Follow up

- None at this time

Decisions Needed/Risks (Operations)

(b)(5)

Optional Task #1: Operational Key Decisions and Risks

- On Track in progress
- Moderate risk; in progress
- Significant risk; mitigation plan not mature

Decisions Needed/Risks (Operations) Cont.

(b)(5)

Next Steps (Region 4 Operations)	Dependency	Owner	Completion Date
(b)(5)	HSRM being able to develop report based on technical requirements	(b)(6)	12/4/20

Appendix - R1-R3 Referrals Summary

Region 1-3 Referral Network: Key Observations

■ CCN ■ PC3 ■ VCA

Key Observations & Takeaways

- **Region 2 has reached <0.1% PC3 utilization** for the first time, while **Region 1 & 3 have reached 0.1% PC3 utilization** over the last week
 - Regions 1-2 reported **more than 95% of total referrals through CCN**, remaining consistent with prior weeks
 - Region 3 reported **92.7% of referrals through CCN**
- **Dental and Homemaker/Home Health Aid** continue to remain at **the top categories of care for VCA referral utilization**.
 - Region 3 has started to **plateau in VCA utilization**, remaining within 6.5 to 7.4% over the past month
 - Region 1-2 have **slightly decreased in their VCA utilization**, remaining within the 3.5% to 4.1% range
- *Week of 10/10 and 11/7 data accounts for federal holidays (i.e. Indigenous People’s Day/Columbus Day, Veterans Day), which may explain the decrease in referral volumes and slight uptick the following week across all 3 regions*

Appendix - R4 Referral Monitoring Snapshots

Region 4: Referral Volume Snapshot

Top Categories of Care

Region	R04	11/14/2020 through 11/20/2020**		
VISN	(All)	Data pulled from the CDW		
Station#_StationName	(All)			
Referrals through: [dropdown]				
Category of Care	CCN	PC3	VCA / Contracts	Grand Total
DENTAL	1426		1801	3227
OPTOMETRY	2964	5	2	2971
PHYSICAL THERAPY	1591	4		1595
ORTHOPEDIC	1505	6	81	1592
OPHTHALMOLOGY	1461	5	10	1476

The top five categories of care going to PC3 and VCAs are (not including ER/Urgent Care):

1. Dental
2. Homemaker/Home Health Aide
3. Skilled Home Health Care
4. Respite Care
5. Neurosurgery

- Referrals generated from the Centralized Authorized Team (CAEC) are not included in this data analysis. For Region 4, this accounted for **412 PC3 referrals**. 374 referrals were categorized as “ER/Urgent” and 38 referrals were categorized as inpatient.
- **All VISN’s PC3 utilization now less than 0.3%.**
- All VISNS had an increase in CCN utilization and decrease in VCA utilization.
 - VISN 21 and VISN 22 had the highest CCN utilization increase of **4%** and **3%** respectively over the prior week

VISN Referral Network Breakdown

Graphic does not depict percentages that are less than 0.5%

Region 4 VISN 16 Sites: Referral Volume Snapshot

Top Categories of Care

Region: R04
 VISN: 16
 Station#_StationName: (All)

11/14/2020 through 11/20/2020
 Data pulled from the CDW

Category of Care	CCN	VCA / Contracts	Grand Total
SKILLED HOME HEALTH CARE	146		146
DENTAL	14	130	144
HOMEMAKER/HOME HEALTH AIDE	95		95
NEUROLOGY	66		66
OPHTHALMOLOGY	62		62

The top five categories of care going to PC3 and VCAs are (not including ER/Urgent Care):

1. Dental
2. Nephrology
3. Veteran Directed Care
4. Dialysis
5. NIC Homemaker/Home Health Aide

7 or less referrals

- Referrals generated from the CAEC are not included in this data analysis.
 - For Region 4 VISN 16, this accounted for **83 PC3 referrals**.
 - 80 referrals were categorized as "ER/Urgent" and 3 referrals were categorized as inpatient.
- CCN utilization increased slightly by **0.37%** over prior week.
- Houston has reported concerns with dental network, thus the need for VCAs.
 - In reviewing the data, the majority of top dental VCA providers utilized displays a data integrity issue where address is displayed rather than care site name. R4 team continues to coordinate with Network Support/VCA/TW to match addresses with correct provider names and check on contracting statuses for CCN.

VISN Referral Network Breakdown

Graphic does not depict percentages that are less than 0.5%

Region 4 VISN 17 Sites: Referral Volume Snapshot

Top Categories of Care				
Region	R04		11/14/2020 through 11/20/2020**	
VISN	17		Data pulled from the CDW	
Station#_StationName	(All)			
Referrals through: [dropdown]				
Category of Care	CCN	PC3	VCA / Contracts	Grand Total
DENTAL	213		662	875
GASTROENTEROLOGY	519	1	5	525
ORTHOPEDIC	464	1	12	477
OPTOMETRY	441		2	443
CARDIOLOGY	405		8	413

The top five categories of care going to PC3 and VCAs are (not including ER/Urgent Care):

1. Dental
2. Homemaker/Home Health Aid
3. Nephrology
4. Veteran Directed Care
5. Skilled Home Health Care

- Referrals generated from the CAEC are not included in this data analysis.
 - For Region 4 VISN 17, this accounted for **47 PC3 referrals**.
 - 41 referrals were categorized as "ER/Urgent" and 7 referrals were categorized as inpatient.
- El Paso continues to have the highest VCA utilization; however, their VCA utilization has been consistently decreasing week to week and they have also continued to see increasing CCN utilization.
- San Antonio's VCA utilization increased slightly 1%. Big Spring saw an increase of 4% in VCA utilization.
 - Big Spring's increase was due to an increase in Dental (**23 referrals**) and Homemaker/Home Health (**12 referrals**). Due to the small volume of referrals, R4 team will continue to monitor and escalate, as necessary.
- Overall Temple and Harlingen saw the largest CCN utilization increase of 4%.
- All sites' PC3 utilization now less than 0.2%.

Region 4 VISN 19 Sites: Referral Volume Snapshot

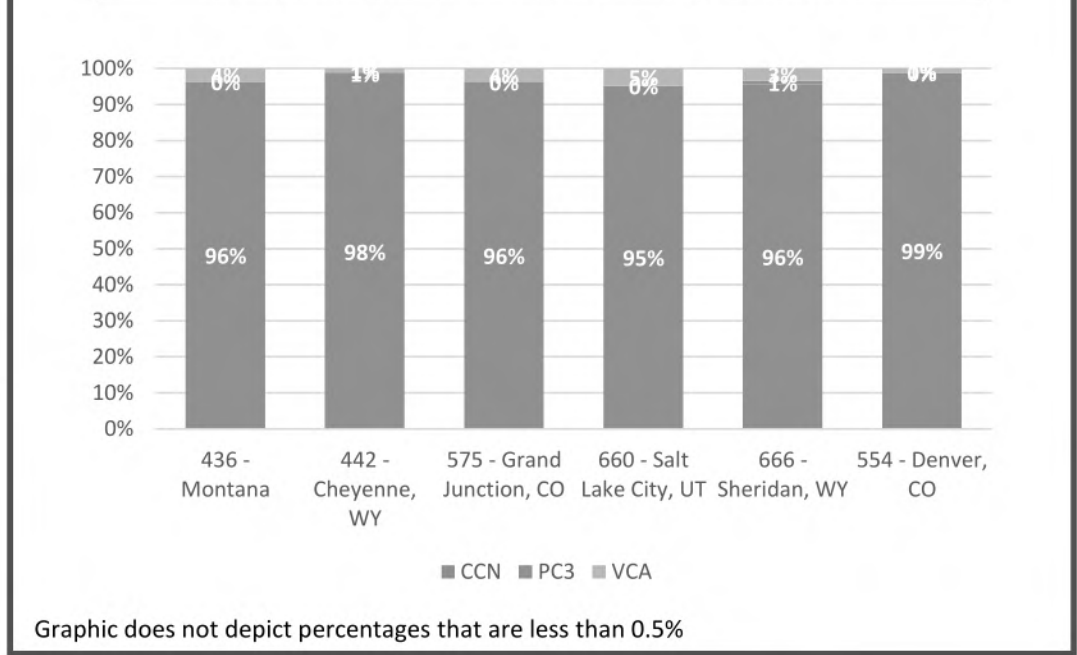

Top Categories of Care

Region	R04	11/14/2020 through 11/20/2020**		
VISN	19	Data pulled from the CDW

DENTAL		132		233
ORTHOPEDIC		340		340
OPTOMETRY		318	1	319
CARDIOLOGY		297		297
OPHTHALMOLOGY		284	2	286

The top five categories of care going to PC3 and VCAs are (not including ER/Urgent Care):

1. Dental
2. Homemaker/Home Health Aid
3. Hospice/Palliative Care
4. Veteran Directed Care
5. Bowel & Bladder

Less than 10 referrals

- Referrals generated from the CAEC are not included in this data analysis.
 - For Region 4 VISN 20, this accounted for **58 PC3 referrals**.
 - 56 referrals were categorized as “ER/Urgent” and 2 referrals were categorized as inpatient.
- Despite still having second highest VCA utilization, *Puget Sound continues to increase in CCN utilization (+3%) and decrease in VCA utilization (-4%) this week.*
- Overall CCN, PC3, and VCA utilization remains steady compared to the previous week with the following highlights:
 - Spokane and Roseburg saw a **2% increase** in VCA utilization this reporting week. Walla Walla had a slight increase of **1%**.
 - This is the second week in a row Roseburg has seen a VCA increase. It was reported providers are continue to have challenges getting through credentialing. TW is aware of this issue.

Graphic does not depict percentages that are less than 0.5%

Region 4 VISN 21 Sites: Referral Volume Snapshot

Top Categories of Care

Region: R04 | 11/14/2020 through 11/20/2020**
 VISN: 21 | Data pulled from the CDW
 Station#_StationName: (All)

Category of Care	Referrals through:			
	CCN	PC3	VCA / Contracts	Grand Total
DENTAL	367		247	614
OPTOMETRY	408	1		409
RADIOLOGY MRI/MRA	324	1	6	331
PHYSICAL THERAPY	308	1		309
OPHTHALMOLOGY	286		2	288

The top five categories of care going to PC3 and VCAs are (not including ER/Urgent Care):

1. Dental
2. Homemaker/Home Health Aide
3. Neurosurgery
4. Orthopedic
5. Lab and Pathology

- Referrals generated from the CAEC are not included in this data analysis.
 - For Region 4 VISN 21, this accounted for **55 PC3 referrals**.
 - 48 referrals were categorized as “ER/Urgent” and 7 referrals were categorized as inpatient.
- All sites saw an increase in CCN utilization and decrease in PC3 utilization and decrease in VCA utilization this reporting period except Fresno which saw a slight increase of **2% in VCA utilization**.
 - R4 team will monitor Fresno continued increase or decrease and escalate as necessary.
- The following sites had the highest CCN utilization: Sacramento (+9%) and Honolulu (+6%)
 - Both sites also report the highest VCA utilization.
 - The R4 team has been in contact with Sacramento to better understand the contributing factors for their high VCA utilization
 - HI continues to report staffing challenges.

VISN Referral Network Breakdown

MENTAL HEALTH	415	1		416
HOMEMAKER/HOME HEALTH AIDE	285		128	413
SKILLED HOME HEALTH CARE	337		39	376

The top five categories of care going to PC3 and VCAs are (not including ER/Urgent Care):

1. Dental
2. Homemaker/Home Health Aide
3. Skilled Home Health Care
4. Respite Care
5. Pain Management

VISN Referral Network Breakdown

- Referrals generated from the Centralized Authorized Team (CAEC) are not included in this data analysis.
 - For Region 4 VISN 22, this accounted for **115 PC3 referrals**
 - 97 referrals were categorized as "ER/Urgent" and 18 referrals were categorized as inpatient.
- Long Beach saw a significant drop of **22% in CCN utilization and increase in VCA utilization**.
 - VISN 22's BIM has reported that Long Beach made the decision at the beginning of FY20 to move all of their H/HHA renewals to expire throughout the year vs. having them all expire at one time during the year, so we will see a spike each month in VCA utilization
- Albuquerque saw an increase of **10% in CCN utilization**.
 - Network Support team has been engaging with Albuquerque Dental Chief regarding the number of different providers in CCN vs VCA
- All other sites CCN, PC3, and VCA utilization remain comparatively steady with the following largest variances
 - Phoenix and San Diego's CCN utilization **increased 5%**.

CCN ELC Update

12/9/2020

(b)(6)

- Key Items:
 - Pharmacy Updates
 - VA Provider Pharmacy Benefit - Immediate Need Formulary Additions
 - E-Prescribing Risk
 - Region 5 CCN Deployment Alignment Messaging to V20/Alaska HCS
- Regions 4 & 5 Deployment Updates
- R4 Referral Trends
 - R4 Referral Analysis: Follow-up Items
- Appendix
 - R1-R3 Referrals Summary
 - R4 Referral Monitoring Snapshots

VA Provider Pharmacy Benefit - Immediate Need Formulary Additions

VA Provider Pharmacy Benefit - Immediate Need Formulary Additions

BLUF:

(b)(5)

(b)(5)

Background

- The formulary for the CCN immediate need retail pharmacy benefit has already been created with approximately 300+ prescriptions related to urgent and emergent needs - [Urgent/Emergent Formulary](#)
- VISN 21 providers participating in the VA provider immediate need retail pharmacy pilot have expressed concerns that the current CCN Urgent/Emergent formulary does not include some commonly prescribed medications.

Next Steps

(b)(5)

•

•

E-Prescribing Risk

BLUF

(b)(5)

(b)(5)

- Cerner has full IB/OB eRx capability. It is fully certified to receive CS Rx's from community providers and it also allows VA providers to send prescriptions to retail.

Risks:

(b)(5)

•

•

Additional Data and Next Steps

Additional Data:

- Controlled substance prescriptions that VA Pharmacy is filling for community providers

Total Rxs for Yes (CS Main by Quarter)

	Q1FY20	Q2FY20	Q3FY20	Q4FY20	Q1FY21
SCHEDULE II	32,897	33,397	28,849	31,984	22,593
SCHEDULE III	7,217	7,900	7,426	7,862	5,717
SCHEDULE IV	17,171	18,659	16,758	17,517	12,162
SCHEDULE V	5,660	6,502	6,247	6,691	4,751

- Number of prescriptions VA providers are sending to retail via the first fill contracts: Unknown – data would have to be asked of each VAMC or VISN

Recommendations/Next Steps:

(b)(5)

-

Region 5 CCN Deployment Alignment Messaging to V20/Alaska HCS

R5 CCN Deployment Alignment Messaging to V20/Alaska HCS

BLUF (b)(5)

(b)(5)

Background

- PC3 contract ends 3/31/21, and CCN deployment is scheduled for 4/1/21. Care coordination and care transition is a concern.
- With the ongoing conversations with TW regarding their ability to recruit certain providers due to the payment hierarchy and dental fee schedule issues which are both still pending contract modification to clarify rates, V20/Alaska's concern of potential gap in services has been heightened leading to their proactive actions.

Next Steps

(b)(5)

R4 & R5 CCN Deployment Updates

Region 4 Update

• Optional Tasks

- **Initial 6 OT sites:** HSRM glitch impacted site productivity in VISN 17 as staff addressed information needed to resolve referral pend issues with TW.
 - OCC and TW are collaborating to manually adjust referrals impacted by the HSRM glitch
- **Remaining R4 VAMCs** to commence use of OT in December
 - Field Trainings are scheduled for the week of 12/7
 - Implementation strategy discussions are underway with TW
 - VA intends to utilize unused purchased referrals through the end of the calendar year with new task order issued in January 2021

• COVID-19 Impact

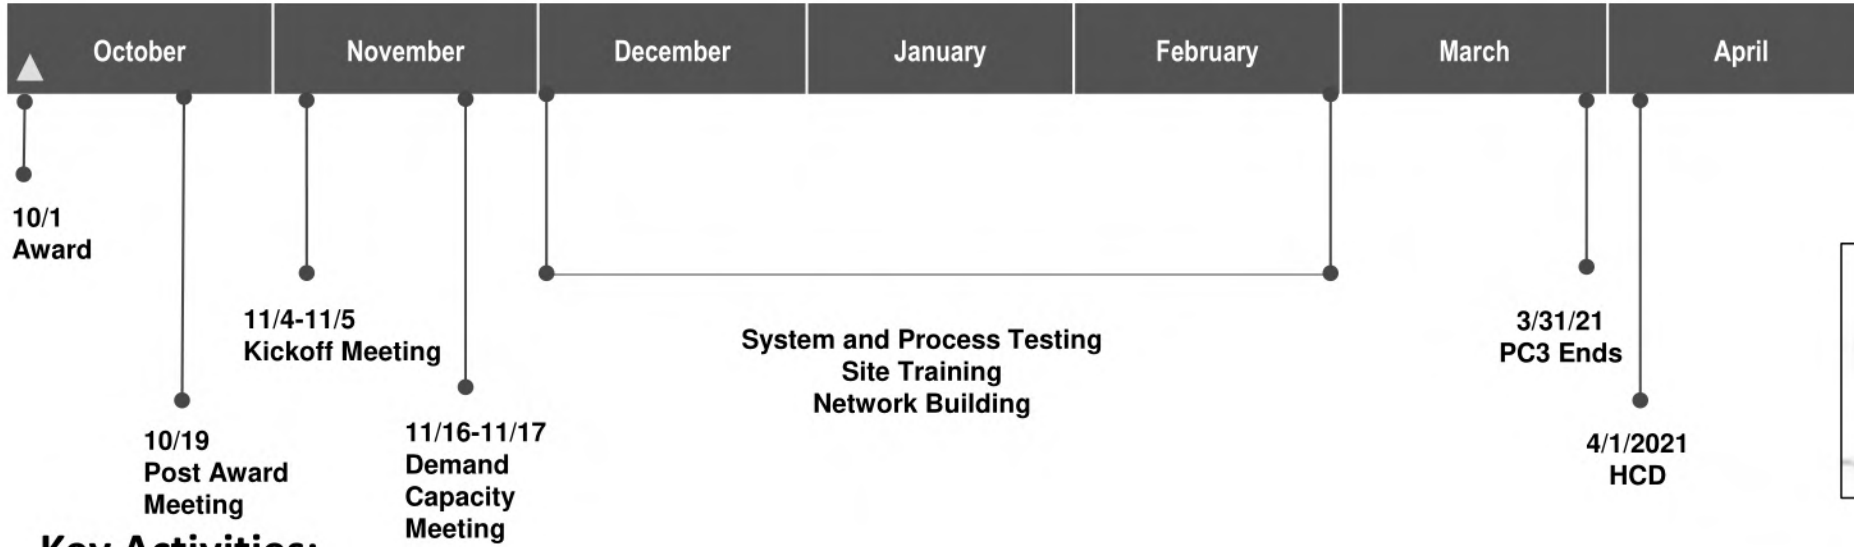

- Increasing consult backlogs are a result of rising pandemic numbers among site staff (especially VISNs 16, 17, 21, 22)
 - BIMs anticipating that use of OT should mitigate increasing consult backlog
- VISN 21 BIM reported weekly calls with specific providers to discuss capacity

• Continuity of Care

- Planning for converting 40,000 PC3 consults ahead of 3/31/21 has begun amongst BIMs and their sites

R4 Referral Trends

Region 4: Referral Volume Snapshot

VISN Referral Network Breakdown

Referral Analysis

- Referral volumes **declined for the week of November 21-29** due to the Thanksgiving holiday
 - R4 team is unaware of any major pushes/changes to scheduling at the sites due to the Thanksgiving holiday. This may be contributing to utilization rates for CCN, PC3, and VCA/Other remaining about the same as prior week (November 14-20).
- VCA utilization has remained steady with the **Dental and Homemaker/Home Health Aid** as the **top categories of care for VCA referral utilization**.
 - TW has noted** "Additional work is being done to ascertain network adequacy for Home Healthcare."
 - R4 team is tracking this effort.
- 11/7 and 11/21 data accounts for federal holidays (i.e. Veterans Day and Thanksgiving), which may explain the decrease in referrals during those weeks.*

Region 4 Follow-up Items: Updates

Date Identified	Observation	Action	Analysis update	Status
11/18	<p>VISN 21 – Sacramento decreased 18% in its CCN utilization and increased 18% in VCA/Other referrals from the prior week in the following specialties; Neurosurgery (from 18 to 65), Orthopedics (from 0 to 45), and Radiology (from 0 to 21).</p>	<p>R4 Team and VISN 21 BIM are reaching to station for more information</p>	<p>11/18: VISN 21 BIM is engaging the station to understand the significant CCN utilization decrease and VCA referral increase. 11/30: R4 team to continue working with VISN 21 BIM to understand the utilization trend 12/3: After further investigation, all the additional referrals were going to (b)(6) a DOD affiliate.</p>	Close
11/18	<p>VISN 20 – Puget Sound continues to have the highest VCA utilization.</p>	<p>R4 team to research what is contributing to Puget Sound’s high VCA utilization</p>	<p>11/30: R4 team to continue working with VISN 21 BIM to understand the utilization trend 12/3: In digging into the data, a majority of VCAs were to providers that are in process of being added to CCN. Providers not in process were under the Dental or Dialysis category of care. Close as NM is aware of this gap.</p>	Close

Appendix - R1-R3 Referrals Summary

Region 1-3 Referral Network: Key Observations

Key Observations & Takeaways

- **Region 1-3 have reached <0.1% PC3 utilization over the last week**
 - Regions 1-2 reported **more than 95% of total referrals through CCN**, remaining consistent with prior weeks
 - Region 3 reported **92.02% of referrals through CCN**
- **Dental and Homemaker/Home Health Aid continue to remain at the top categories of care for VCA referral utilization.**
 - Region 3 has **slightly increased in VCA utilization** from 7.17% to 7.88% over the past month
 - Region 1-2 have **remained steady in their VCA utilization**, remaining within the 3.5% to 4.1% range
- *Week of 11/7 and 11/21 data accounts for federal holidays (i.e. Veterans Day and Thanksgiving), which may explain the decrease in referrals during those weeks across all 3 regions*

Appendix - R4 Referral Monitoring Snapshots

Region 4: Referral Volume Snapshot

ORTHOPEDIC	290		8	298
PHYSICAL THERAPY	287			287

The top five categories of care going to PC3 and VCA/Contracts are (not including ER/Urgent Care):

1. Dental
2. Homemaker/home health aide
3. Ophthalmology
4. Cardiology
5. Skilled home health care

- Referrals generated from the CAEC are not included in this data analysis.
 - For Region 4 VISN 17, this accounted for **41 PC3 referrals**.
 - 39 referrals were categorized as "ER/Urgent" and 2 referrals were categorized as inpatient.
- With the rise in COVID among VAMC staff, there has been an increase demand in community staff. Field staff have noted that smaller sites such as **El Paso, Amarillo, and Big Springs** have **been feeling the effects of the rising COVID cases more**.
- Referral utilization **remained steady with a change of 0-2%** for most sites. *Big Springs had the largest decrease in CCN and increase in VCA utilization by 3%.*
- El Paso's referral data shows **15% of El Paso's 24% VCA/Other referrals go to DOD**. There was an increase in VCA/Other referrals this week compared to the previous. This increase is being investigated by the Region 4 team.
- **Dallas, San Antonio and Temple continue to have VCA utilization in the 10-13% range**. R4 team will further dig into the data and work with the field and network management on contributing factors.

VHA Office of Community Care ELC – Post SL Meeting Follow Up

10/8/2020

VA

U.S. Department of Veterans Affairs
Veterans Health Administration
Office of Community Care

Agenda

- Community Care FY21 OCC Goals (pending)
- Overview of Directorate Priorities (actions) in support of OCC
FY21 Goals
- Proposed Form for reporting purposes
- Actions completed to date
- The Way Forward

Community Care FY21 Goals

OCC FY21 Goals (pending):

- **Become a High Performing Integrated Delivery Network (High Reliability Organization)**
 - Quality (Optimizing health outcomes)
 - Experience (Customers/Employees/Stakeholders)
 - Value (Efficient use of resources)
 - Access (Provide best health care options for Veterans, cost efficiency)
 - Integrity (Building a culture of excellence)

- **Implement EHRM (Financial Management Systems)**

- **Mature the VCCP/FMP Programs (implementation, post implementation, standardizing the entire network)**

- **Innovate the Business Model (predictive and prescriptive data)**

Directorate Priorities (Actions) in support of OCC Goals

BOA

- Increase transparency and collaboration across OCC (Long-Term)
- Improve communications to promote the use of and understanding of available Shared Services resources to our stake holders.
- Maintain organizational flexibility, continuously evolving to meet the needs its stakeholders
- Continuous improvement of the Veterans' Community Care Program and Family Member Programs

CHIO

- Data Governance – Initiation
- AMCMS
- CDS (Consolidated Data Set)
- COOP (Contingency Disaster Recovery Plan)
- Develop an infrastructure of data governance and provenance, IT systems, and people to support the maturation of analytic capability (Long-Term)

Directorate Priorities (Actions) in support of OCC Goals

Clinical Integration & Field Operations

- Cerner/ EHRM
- C6
- Veteran Community Care Program (VCCP) Stabilization
- Alternative/Visionary goal- employee satisfaction and health

DO

- Continue implementing activities (action plans, initiatives, projects)
- Refresh – Innovate our Business Model
 - Transform to Program Management
- Reshape the Workforce

Network Management

- Enhancement to Acquisition/Modification processes and procedures
- Standardize and stabilize the VA network through maximizing the use of all resources by stakeholders
- Grow culture
- Develop optimal future-state acquisition strategy (Long-Term)

Directorate Priorities (Actions) in support of OCC Goals

Revenue Operations

- Organizational Change and Sustainment of Non-MCCF
- Alignment of Revenue Operations Personnel
- Revenue Utilization Review, Improve Operational Efficiencies
- Clinically Driven Revenue Cycle EHRM
- Clinical Documentation Improvements for the Revenue Cycle

Directorate Name – Priority #1

Project: Implement Shared Services Model **Leads:** XYZ

Project Description: Consolidation of directorate specific financials

Key Milestones		
Milestone	Completion Date	Status
Notification of impacted staff	10/1/20	Complete
Implementation of new structure	12/31/20	In Progress

Metric	Target	Current value

OCC Team Express – Virtual Suggestion Box (VSB)

Included the following VSB topics in an effort to solicit input from all employees regarding the OCC Mission & Vision:

- **OCC Vision**

From your perspective, what are your visionary goals for the future of Community Care?

- **OCC Mission**

What do you think are the most important aspects of the work of the Office of Community Care?

The Way Forward

(b)(5)

Strategic Planning MITRE Contract

2/1/2021

Strategic Planning & Support Contract

- OCC/Network Management have a contract that has been awarded to provide Strategic Planning services that are not in line with our current way forward

(b)(5)

Introduction

- **Title of Requirement:** National Care Strategic and Future Planning Support
 - Contract 36C10A20D0004
 - Task Order 36C10A21N0003
- **Date of Award:** October 28, 2020
- **Contractor Name:** The MITRE Corporation
- **Period of Performance:**
 - Base: October 28, 2020 to October 27, 2021
 - Option Yr. 1: October 28, 2021 to October 27, 2022
 - Option Yr. 2: October 28, 2022 to October 27, 2023
- **Contract Type:** Cost-Plus-Fixed-Fee (CPFF)
- **Obligated Amount:** \$5,394,288
- **Total Award Amount:** \$14,187,753

Introduction

- **VA Team**

- Executive Sponsor: Dr. Mark Upton
 - Recommend IPT Charters (Strategic Planning and Next Generation)
- Program Manager: (b)(6)
- Contract Management:
 - CO (b)(6)
 - COR (b)(6)

- **MITRE Team**

(b)(6)

- **MITRE Leadership**

(b)(6)

5.2.1 National Strategic Planning Support

- Provide OCC Strategic Plan to **redefine the vision, mission, and direction to project out 10-20 years**
 - Assess the current state of OCC, identify inefficiencies and provide recommendation for improvement, including recommendations on integration of current CCN and other VHA business lines.
 - Assessments/analysis of potential future legislation, presidential administration changes, and political climate and the potential impact to VHA policy.
 - Provide advice for healthcare programs, strategy planning, and business process management as they relate to the OCC and the VHA enterprise. Strategic planning is to include research and advisory services of industry best practices.
 - Recommended initiatives, resources, and standard operating procedures that align with the OCC Strategic Plan and will enable OCC to adopt proven practices, reduce procedural variations between OCC existing contracts and improve management of planning and execution across OCC lines of business.
- GOAL: To develop an actionable long-term strategy for OCC
- POP Base: October 28, 2020 to October 27, 2021
 - Option Year 1: October 28, 2021 to October 27, 2022
 - Option Year 2: October 28, 2022 to October 27, 2023 (OCC strategic plan update)

Recommended Replacement Work (Plan A)

- Each Directorate has a distinct role in the organization which requires individualization of their plans
- MITRE would work with each individual Directorate, along with Strategic Planning staff, to create 5 Year Strategic Plans (FY21-26)
- All work previously accomplished during the Senior Leader Meeting and Directorate work would be incorporated into the MITRE work
- Directorate plans would then be incorporated by the OCC Strategic Planning staff into an OCC Strategic Plan using the VA and VHA Long Range Plan Goals and Objectives
- Ongoing annual Operational Plans would also incorporate this work
- Leveraging MITRE resources reduces the work burden of the Directorates

Chief Health Informatics Office (CHIO)

Status: Contractor working on development of this plan

Recommendation: Do not include in MITRE work

Business Operations & Administration

Status: No current Directorate 5-year plan

Recommendation: Include in MITRE work

Delivery Operations

Status: Current 3-year FY20-22 Plan in place (Model)

Recommendation: Include in MITRE work for extension of existing work for FY23-26

Revenue Operations

Status: No current Directorate 5-year plan

Recommendation: Include in MITRE work

Network Management

Status: No current Directorate 5-year plan but completed work on the Acquisition Playbook

Recommendation: Include in MITRE work

Clinical Integration & Field Operations

Status: No current Directorate 5-year plan

Recommendation: Include in MITRE work

Directorate/OCC Strategic Plan Components

- OCC Mission/Vision/Goals
- ICARE Values
- Directorate SWOT Analysis
- Directorate Priorities (FY21 and FY22)
- Overall Strategy
- Long Term Strategic Objectives
- Strategic Goals, Indicators and Activities (possible budget impact)
- VA/VHA Goals and Objectives Linkage
- VHA Long Range Planning Framework Linkage

Long Term Planning Areas of Consideration

- Maintaining and Improving our High Performing Integrated Delivery Network
- Maintaining and Improving our work as a High Reliability Organization (HRO)
- Impact of new health care technologies
- Impact of process automation/updates
- Impact of projected Veteran demand
- Ability to provide data feedback loop to the field for health care services planning
- Impact of proper field health care services planning
- Impact of improved network adequacy
- Impact of improved care integration
- Effective Use of Resources
- Building a culture of Excellence

Recommended Replacement Work (Plan B)

- MITRE would work with each individual Directorate, along with Strategic Planning staff, to create only an OCC 5-Year Strategic Plan
- Directorate input would be incorporated using the VA and VHA Long Range Plan Goals and Objectives and the Level III Operating Plan
- Ongoing annual Operational Plans would also incorporate this work
- All work previously accomplished during the Senior Leader Meeting and Directorate work would be incorporated into the MITRE work
- This option does not reduce the work burden on the Directorates as they will still need to develop Strategic Plans commensurate with the larger OCC plan

CCN ELC Update

12/23/2020

(b)(6)

- Regions 4 & 5 Deployment Updates
- Region 5 Flu Shot Decision
- R4 Referral Trends
 - R4 Referral Analysis: Follow-up Items
- Appendix
 - Optional Task Updates
 - R1-R3 Referrals Summary
 - R4 Referral Monitoring Snapshots

CCN Updates to ELC Meeting Frequency

- CCN team has provided weekly updates since deployment in 2019.
 - Given the aggressive deployment schedule and the high visibility of the program, timely issue escalation to and decision from ELC on CCN issues was critical to the success of the program.
 - The opportunity and a forum to brief ELC weekly fulfilled the need.
- CCN deployment has completed in four major regions and CCN is entering a more stable operating environment.
- With path to stabilization, there is less urgent matters or significant week-to-week updates regarding CCN.

• **Proposal:** (b)(5)

(b)(5)

R4 & R5 CCN Deployment Updates

Region 4 Update

- **COVID-19 Impact**

- Region 4 BIMs report VAMCs with shorter wait times for internal appointments than in the community due to
 - Staffing shortages creating consult backlogs
 - Lack of availability of providers due to temporary office closures and pause on elective procedures

- **Deactivating Dental VCAs**

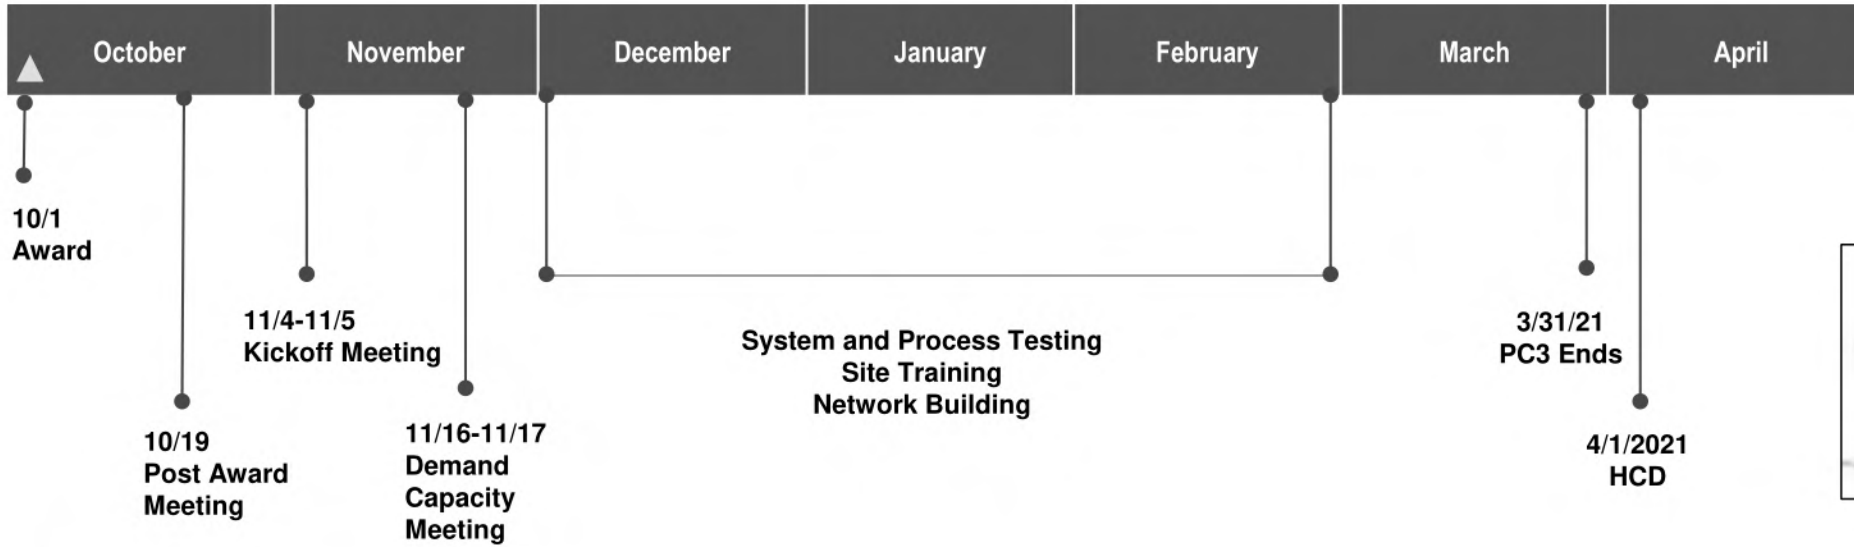

- Align approach first with the national office and then communicate to dental chiefs.
- 2 phased approach:
 - Review by VAMC and identifying VCAs for providers in the CCN network
 - Review zip codes of providers active in CCN and VCAs in the same zip code
- Network Management to send listing of VCAs identified for deactivation at each VAMC to BIMs; deadline will be set for sites to provide justification to continue VCAs.

- **Optional Tasks**

- **Initial 6 sites** utilizing Optional Tasks
 - HSRM Team continues to work on an update to the new CLIN drop issue.
 - As a short-term solution, HSRM will send daily referral “refreshes” to TriWest, to clarify status of referrals
 - TriWest to follow up with community care staff on information needed in order to start scheduling outreach
- **Remaining R4 VAMCs** to commence use of OT
 - OCC Leadership has requested that Optional Task implementation be prioritized for the following sites as soon as possible; Two sites went live this week:
 - 668 – Spokane
 - 664 – San Diego

(b)(5)

Region 5 Status and Upcoming Activities

Key Activities:

- Continued efforts with the payment hierarchy/fee schedule and dental mods. Cost mod change pages were presented to CCRB on 12/16.
- R5 Bundled mod was sent to TW on 12/18.

(b)(5)

- A Tabletop Testing timeline was agreed upon by VA and TW to begin in January 2021. Scenarios were shared with TW on 12/18 for review.
- The liability insurance requirement guidance for TW was confirmed to remain as written in the contract until otherwise notified by VA. VA will internally discuss if there is a need to request a formal modification.
- An internal VA Tribal Health meeting to discuss next steps took place 12/10. There is not an incentive for tribal health to participate in CCN when they will keep their existing agreements. Network management is drafted a formal plan for leadership to review.

Region 5 Flu Shot Decision

BLUF: Region 5's expected Healthcare Delivery (HCD) date is beginning of April 2021. Retail flu shot availability will be limited or will not be available in April as pharmacies do not keep a surplus of flu vaccinations.

- Majority of the population including Veterans will have received their flu vaccinations in the beginning of this year's flu season
- AK Veterans have several options; VA, PC3 Urgent Care, and via their First Fill (Heritage) contract

Background: Region 5 contract requires an approved referral for flu shot benefit unlike the current Region 1-4 contracts which allows flu shots to be administered without an approved referral from VA.

Recommendation:

(b)(5)

(b)(5)

Region 5 Risks/Issues

Category	Risk Level	Risks/Issues	Status and Next Steps as of 12/18
Payment Hierarchy and Fee Schedule	Highest	<ul style="list-style-type: none"> • (b)(5) • VA created a CLIN structure to default to the VA Alaska Professional and Facility Fee Schedules and then the Maximum Allowable Charge (MAC) to replace the % of billed charge structure as the last resort payment schedule. • (b)(5) • 	<ul style="list-style-type: none"> • (b)(5) •
Care Coordination Given HCD Timeline and PC3 Contract End Date	High	<ul style="list-style-type: none"> • (b)(5) • 	<ul style="list-style-type: none"> • (b)(5) • V20 and Alaska leadership has been informed of the contingency plan.

Region 5 Risks/Issues Continued

Category	Risk Level	Risks/Issues	Status and Next Steps as of 12/18
Dental Fee Schedule	High	<ul style="list-style-type: none"> (b)(5) 	<ul style="list-style-type: none"> Information previously needed from the dental SME was received (b)(5) (b)(5) (b)(5) This was presented to CCRB on 12/16.
Choice Providers in CCN R5 PC3	High	<ul style="list-style-type: none"> 50% of current PC3 providers are Choice providers which means they will require full credentialing and provider contracting for CCN. 	<ul style="list-style-type: none"> (b)(5)
Provider Liability Insurance Requirement	Medium	<ul style="list-style-type: none"> (b)(5) The contract clause which specifies the amount has been in every version of the RFP throughout the acquisition process; TW has not raised this as a concern or issue and signed the contract with this clause. (b)(5) 	<ul style="list-style-type: none"> (b)(5) VA provided guidance to TW on 12/9 to move forward with the contract language as it is written regarding the liability insurance requirement for providers. If TW notices an influx of issues as we move forward, they can bring to VA to reconsider.

Region 5 Risks/Issues Continued

Category	Risk Level	Risks/Issues	Status and Next Steps as of 12/18
Tabletop and Testing	Medium	(b)(5)	<ul style="list-style-type: none"> Scenarios reviewed by a broad group of VA. Scenarios were shared with TW for review on 12/18.
Tribal Health	Medium	(b)(5)	<ul style="list-style-type: none"> (b)(5) VA held a meeting internally with V20, CI, NM and AK to discuss the communications strategy for tribal health on 12/10. The plan forward is to direct TW not to emphasize the use of resources on tribal health, and while CCN will be offered there is likely not an incentive for them to participate.
DAS Transport Funding	Resolved	<ul style="list-style-type: none"> The DAS team is ready for December testing. (b)(5) 	<ul style="list-style-type: none"> Since the bulk of this work was performed during the Region 4 onboarding, barring no significant changes in the LOE, it was determined they will not be seeking additional funds for the Region 5 onboarding tasks. DAS testing began the week of 12/7; however, an issue was identified which pushed the completion of the testing to the next DAS release cycle (in January).

R4 Referral Trends

Region 4: Referral Volume Snapshot

VISN Referral Network Breakdown

Referral Analysis

- PC3 utilization has increased slightly by **0.2%**.
 - This can be attributed to the increase scheduling for the R6 Pacific Islands by the HI scheduling team.
- **CNN utilization continues to increase**, except for the Thanksgiving holiday. CNN utilization increased by 0.9% compared to prior week.
- VCA utilization slightly decreased by **1.2%** and is at its **lowest usage in the past 6 weeks**.
- The field has been reporting major staffing shortages which could be attributing to the slight drop in referral volume
- *11/7 and 11/21 data accounts for federal holidays (i.e. Veterans Day and Thanksgiving), which may explain the decrease in referral volume during those weeks.*

Region 4 Follow-up Items: Updates

Date Identified	Observation	Action	Most Recent Analysis update	Status
12/4/20	Dallas, San Antonio and Temple continue to have VCA utilization in the 10-13% range.	(b)(5)	<p>12/9: VISN 17 BIM has advised San Antonio has had to put together VCA's due to identified network gaps or continuity of care. Additional feedback from the field is pending for Dallas and Temple.</p> <p>12/16: VISN BIM has been working with Network Management on VCA utilization. Reported that referrals that were sent to providers that showed up as in the CCN network did now always show up as such in PPMS. That was the case for several Temple providers in researching this action and therefore, VCAs were used.</p>	Closed

Region 4 Follow-up Items: Updates

Date Identified	Observation	Action	Most Recent Analysis update	Status
12/9/20	VCA utilization increased for the following sites: Big Springs (+1%), San Antonio (+2%), Harlingen (+3%), and El Paso (+9%).	(b)(5)	<p>12/9: Issue identified on 12/9 and the analysis is ongoing</p> <p>12/16: Site has reported COVID impacts increasing the need to schedule outside of CCN.</p>	Closed
12/9/20	Fresno and Palo Alto saw an increase in VCA/Contracts utilization by 4%.		<p>12/9: Issue identified on 12/9 and the analysis is ongoing</p> <p>12/16: Site has reported major staffing issues and increasing number of unscheduled referrals impacting utilization.</p>	Closed

Appendix – Optional Task Updates

Optional Task #1: Contracting Key Decisions (Regions 1-3)

Decisions/Status

• Outstanding Issues:

1. Authority to Proceed

• Status:

- CO issued an Authority to Proceed on 12/10, which provides Optum 60 days to prepare as the contract modification is executed.
- Optum submitted an Optional Task plan on 12/21. CI leadership and the Region 1 – 3 PMs are coordinating to conduct the proposal evaluation to be completed by 1/6. Optional Task Team and CI leadership will hold the first kickoff meeting with Optum the week of 12/28.

2. Contract Mod:

• Status:

- (b)(5)
- Optum's proposal confirmed Optum's newly-developed provider search tool will be developed (b)(5)

• Next Step: (b)(5)

3. Funding/Pricing Strategy.

- Status: Use of CARES Funding in alignment with contract Option Year 2 (b)(5)

(b)(5)

• Next Step: (b)(5)

(b)(5)

4. New CLIN ID required for COVID-19 scheduling support.

• Status: (b)(5)

• Next Step: (b)(5)

(b)(5)

Optional Task #1: Contracting Key Decisions (Region 4)

Decisions/Status

- **Decisions:**

Estimated timeline for the additional TriWest scheduling support in CCN Region 4:

- (b)(5)
-

Optional Task #1: Operational Key Decisions and Risks

Decisions/Status

Completed Actions Steps

OCC Leadership has prioritized Spokane (668) and San Diego (664) for OT deployment

- **San Diego went live on 12/21. Spokane went live on 12/22.**
- The Optional Task Team completed end-to-end referral testing the week of 12/14 in coordination with CERNER, TriWest, and HSRM to ensure that Cerner does not have any new system challenges for Spokane, (b)(5)
- (b)(5)
- Clinical Integration created a new Optional Task SOP to include specific guidance for processing Optional Task referrals in Cerner.
- Live office hours support was held for Spokane staff, to educate them on the new Optional Task process for Cerner, and address questions.
 - Spokane staff were told numerous times to use S/T tool to establish referral is BASIC level of care coordination and to obtain CAN score data from VSSC.

Decisions Needed/Risks (Operations)

HSRM Optional Task CLIN Drop Glitch:

- On 11/23 the HSRM Team applied a patch that reassigned Optional Task CLINs that were dropped from referrals due to CPRS updates
- On 12/4, the TriWest Team shared that Optional Task CLINs continue to drop from referrals
- On 12/8, the HSRM Team clarified that the patch applied on 11/23 does not keep CPRS updates from dropping the CLIN but reapplies the CLIN to those referrals. Due to this process, TriWest is unable to clearly determine the CLIN status of the referral, and referrals continue to be tracked as "pending/held"

- (b)(5)
-

- (b)(5)
-

Optional Task #1: Operational Key Decisions and Risks

- On Track in progress
- Moderate risk; in progress
- Significant risk; mitigation plan not mature

Decisions Needed/Risks (Operations) Cont.

(b)(5)

Next Steps (Region 4 Operations)	Dependency	Owner	Completion Date
(b)(5)	(b)(5)	(b)(6)	12/30/20

Appendix - R1-R3 Referrals Summary

Region 1-3 Referral Network: Key Observations

Region 1

Region 2

Region 3

■ CCN ■ PC3 ■ VCA

Key Observations & Takeaways

- Regions 1-2 reported **more than 96% of total referrals through CCN**, remaining consistent with prior weeks
- Region 3 reported a **slight decrease of 0.4% of referrals through CCN** which is a **1.7% increase** from prior week.
- **Dental and Homemaker/Home Health Aid** continue to remain at **the top categories of care for VCA referral utilization.**
 - Region 1 and Region 2 had a slight decrease in **VCA utilization**
 - Region 3 had a slight increase of **0.3% in VCA utilization.**
- *Week of 11/7 and 11/21 data accounts for federal holidays (i.e. Veterans Day and Thanksgiving), which may explain the decrease in referrals during those weeks across all 3 regions*

Appendix - R4 Referral Monitoring Snapshots

Region 4: Referral Volume Snapshot

Top Categories of Care

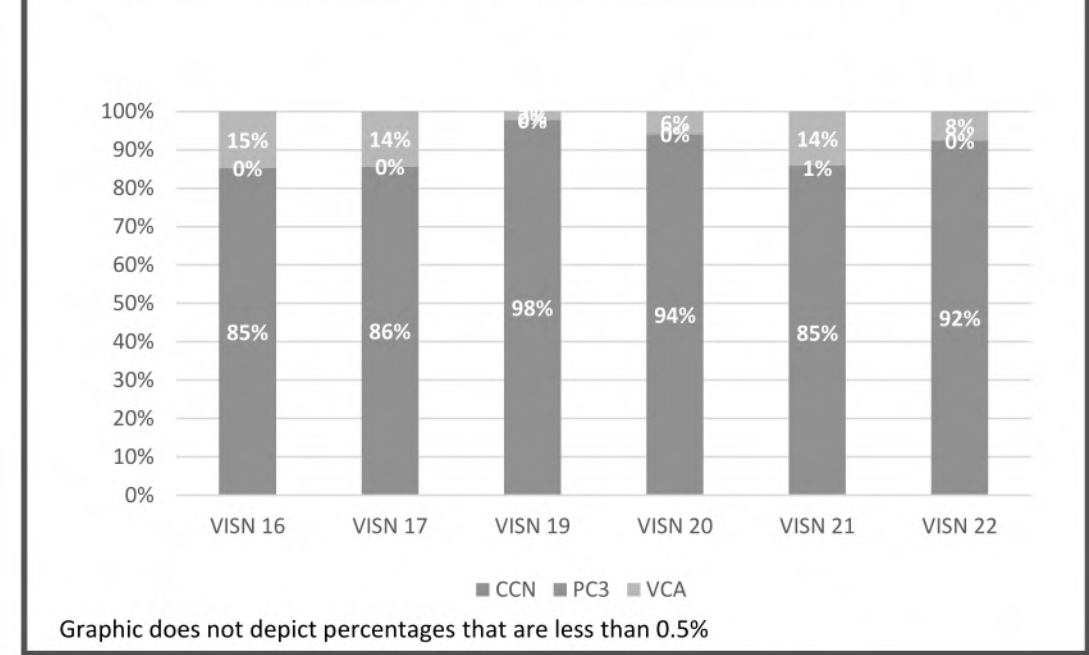

Region	R04	*12/5/2020 through 12/11/2020**		
VISN	(All)	Data pulled from the CDW		
Station#_StationName	(All)			
Referrals through:				
Category of Care	CCN	PC3	VCA / Contracts	Grand Total
OPTOMETRY	2671	1		2672
DENTAL	1325		1304	2629
PHYSICAL THERAPY	1544			1544
ORTHOPEDIC	1447	1	46	1494
SKILLED HOME HEALTH CARE	1414	9	68	1491

The top five categories of care going to PC3 and VCA/Contracts are (not including ER/Urgent Care):

1. Dental
2. Homemaker/home health aide
3. Lab and pathology
4. Skilled home health care
5. Respite care

- Referrals generated from the Centralized Authorized Team (CAEC) are not included in this data analysis. For Region 4, this accounted for **315 PC3 referrals**. 281 referrals were categorized as “ER/Urgent” and 34 referrals were categorized as inpatient.
- All VISNs CCN utilization increased or remain the same as prior week except for **VISN 20 who had a slight decrease of 1%**.
 - VISN 16 had the highest increase of **10% in CCN utilization**

VISN Referral Network Breakdown

Region 4 VISN 16 Sites: Referral Volume Snapshot

Top Categories of Care

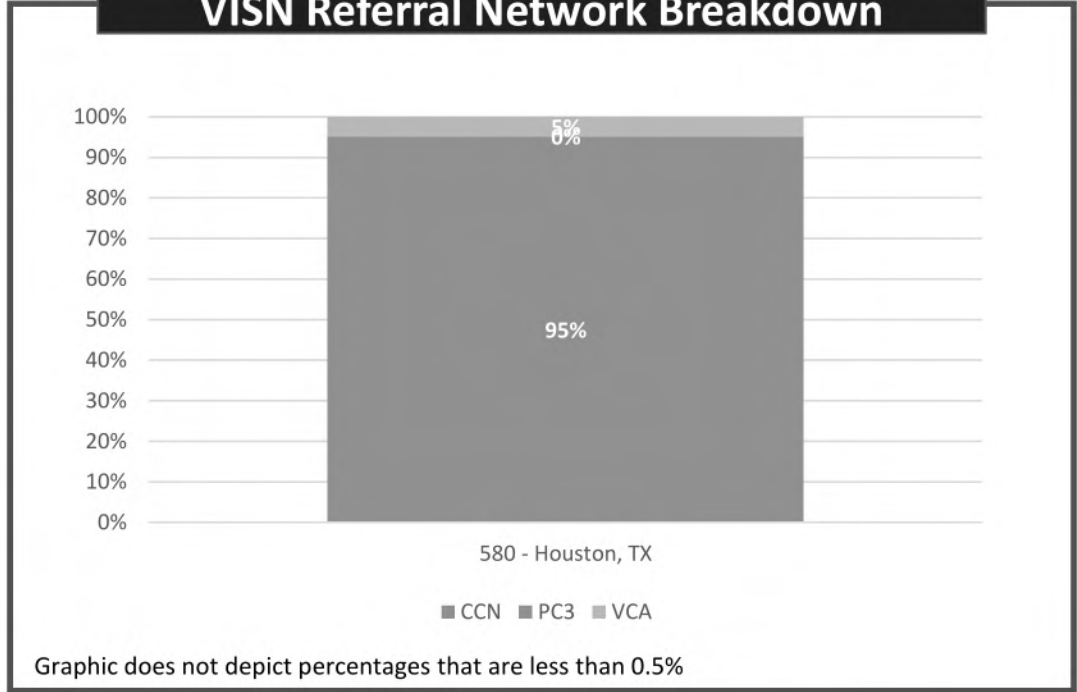

Region	R04	**12/5/2020 through 12/11/2020**	
VISN	16	Data pulled from the CDW

RADIOLOGY MRI/MRA	217			217

The top five categories of care going to PC3 and VCA/Contracts are (not including ER/Urgent Care):

1. Dental
2. Lab and pathology
3. Homemaker/home health aide
4. Orthopedic
5. Urology

- Referrals generated from the CAEC are not included in this data analysis.
 - For Region 4 VISN 21, this accounted for **64 PC3 referrals**.
 - 53 referrals were categorized as “ER/Urgent” and 11 referrals were categorized as inpatient.
- All sites saw an increase in CCN utilization and decrease in VCA/Contracts utilization compared to prior week. **Las Vegas and San Francisco has reached an all time high of 99% in CCN utilization.**
- Honolulu’s **PC3 utilization increased from 4% to 7%**; however, the PC3 referrals are for the Pacific Islands.

VISN Referral Network Breakdown

Region 4 VISN 22 Sites: Referral Volume Snapshot

Top Categories of Care

Region	R04	*12/5/2020 through 12/11/2020**	
VISN	22	Data pulled from the CDW	
Station#_StationName	(All)		
Referrals through: [dropdown]			
Category of Care	CCN	PC3	VCA / Contracts Grand Total
DENTAL	497		441 938
OPTOMETRY	874		874
MENTAL HEALTH	394		394
SKILLED HOME HEALTH CARE	298	26	324
PHYSICAL THERAPY	323		323

The top five categories of care going to PC3 and VCA/Contracts are (not including ER/Urgent Care):

1. Dental
2. Homemaker/home health aide
3. Skilled home health care
4. Respite care
5. Ophthalmology

- Referrals generated from the CAEC are not included in this data analysis.
 - For Region 4 VISN 22, this accounted for **81 PC3 referrals**.
 - 75 referrals were categorized as “ER/Urgent” and 6 referrals were categorized as inpatient.
- CCN and VCA utilization remained steady compare to prior week with slight **1-2% variation**.
- Albuquerque continues to have the highest VCA/Contracts utilization; **however, they are on a positive trend with a steadily decrease in VCA/Contracts utilization over the last three weeks.**
 - The main driver for the VCA/Contract utilization is due to dental. Network management is aware of the issue.

TriWest: Access to COVID-19 Vaccines for Veterans CCN Regions 4, 5, and 6

12/30/20

VA

U.S. Department of Veterans Affairs
Veterans Health Administration
Office of Community Care

Agenda

- 1 Overview
- 2 Proposed Vaccine Process
- 3 TriWest's Proposed Framework Assumptions
- 4 Next Steps
- 5 Questions and Answers (Q&A)

Overview

- **Main Objective:** With the introduction of the COVID-19 vaccine, the Community Care Network (CCN) needs to ensure that all eligible Veterans, including Veterans residing in rural and highly rural areas, have access to the COVID-19 vaccine in their local communities as supplies are available.

(b)(5)

○

○

- **Background:**

- All Veterans eligible for the CCN Urgent Care (UC) benefits are also eligible for both the VA approved Flu and 3 approved COVID-19 vaccines.
- Under the CARES ACT (set to expire on 12/31/2020), all pharmacies are legally required to provide COVID-19 vaccine, and VA may have authority under the CARES ACT to provide vaccines to all Veterans regardless of their Urgent Care benefit status.
- Currently, 3 emergency National Drug Codes (NDCs) are approved for COVID-19 vaccines. Once government funding ends, it is expected that additional and new COVID-19 vaccine NDCs will enter the market.
- The NDC's today have no average wholesale price (AWP) or cost associated with them since they are all government products. Once the government no longer funds the vaccines, new NDCs will be assigned with AWP attached to them.

VA Provider Pharmacy Capability Update

Project Milestones

*Upcoming
Milestones*

Pilot Update

- Training was held on 1/26/2021, at 3pm ET.
 - Providers and Pharmacists participated from VISN 21, along with TriWest
- TriWest confirmed the pilot participating providers are present in ESI's system, validating the PIE file process.
 - Update: Added additional providers (8) from NV who lost a capability to utilize SF first fill contract
- Communications artifacts developed and shared.
 - Email to providers and leadership
 - Veteran information sheet
 - Scripting
 - Example fax cover sheet template
- Support will be provided via the pilot Microsoft Teams channel for questions, issues, or feedback from Monday 2/1- Friday 2/6, from 10am-2pm PT.
- In early March, ELC will receive decision points for pilot next steps.

Provider	Specialty	Location

ART/IVF Pharmacy Issue Update

ART/IVF Pharmacy Issue - Update

BLUF: Veterans and eligible non-Veteran spouses receiving fertility care outside Veterans Administration (VA) facilities are required to get their medications from VA pharmacies. These medications are currently not eligible for urgent/emergency prescribing from the community care retail pharmacy. Because these medications are highly specialized and the use of them is time-sensitive, there is a need for flexibility in obtaining these medications from pharmacies outside VA.

- Issue 1: Veteran OOP reimbursement (Immediate/Interim Solution)

(b)(5)

- Issue 2: Availability of infertility/ART/IVF medications to Veterans (Ideal Future Solution)

(b)(5)

- Issue 3: Compounded drugs – sterile lab via local contract

(b)(5)

Retail Seasonal Flu Vaccine 2021-2022

Retail Seasonal Flu Vaccine 2021-2022

BLUF (b)(5)
(b)(5)

- **Background:**

- Veterans have historically leveraged VA's retail seasonal flu vaccine program. The need increased in the 2020-2021 flu vaccine season due to COVID-19 and given the status of COVID-19, the 2021-2022 flu season will also likely see a higher than usual demand.

- (b)(5)

- **Next Step(s)**

(b)(5)

- **Timeline: Seasonal Flu Vaccine Availability September 1, 2021-April 30, 2022**

- (b)(5)

- Communication development completed by July

(b)(5)

- Other coordination efforts (flu formulary update, NDC list development, escalation pathway, reimbursement, etc.)

Strategic Planning MITRE Contract

2/1/2021

Strategic Planning & Support Contract

- OCC/Network Management have a contract that has been awarded to provide Strategic Planning services that are not in line with our current way forward

(b)(5)

Introduction

- **Title of Requirement:** National Care Strategic and Future Planning Support
 - Contract 36C10A20D0004
 - Task Order 36C10A21N0003
- **Date of Award:** October 28, 2020
- **Contractor Name:** The MITRE Corporation
- **Period of Performance:**
 - Base: October 28, 2020 to October 27, 2021
 - Option Yr. 1: October 28, 2021 to October 27, 2022
 - Option Yr. 2: October 28, 2022 to October 27, 2023
- **Contract Type:** Cost-Plus-Fixed-Fee (CPFF)
- **Obligated Amount:** \$5,394,288
- **Total Award Amount:** \$14,187,753

Introduction

- **VA Team**

- Executive Sponsor: Dr. Mark Upton
 - Recommend IPT Charters (Strategic Planning and Next Generation)
- Program Manager (b)(6)
- Contract Management:
 - CO (b)(6)
 - COR: (b)(6)

- **MITRE Team**

- (b)(6)
-
-
-

- **MITRE Leadership**

- (b)(6)
-
-
-

5.2.1 National Strategic Planning Support

- Provide OCC Strategic Plan to **redefine the vision, mission, and direction to project out 10-20 years**
 - Assess the current state of OCC, identify inefficiencies and provide recommendation for improvement, including recommendations on integration of current CCN and other VHA business lines.
 - Assessments/analysis of potential future legislation, presidential administration changes, and political climate and the potential impact to VHA policy.
 - Provide advice for healthcare programs, strategy planning, and business process management as they relate to the OCC and the VHA enterprise. Strategic planning is to include research and advisory services of industry best practices.
 - Recommended initiatives, resources, and standard operating procedures that align with the OCC Strategic Plan and will enable OCC to adopt proven practices, reduce procedural variations between OCC existing contracts and improve management of planning and execution across OCC lines of business.
- **GOAL: To develop an actionable long-term strategy for OCC**
- **POP Base: October 28, 2020 to October 27, 2021**
 - Option Year 1: October 28, 2021 to October 27, 2022
 - Option Year 2: October 28, 2022 to October 27, 2023 (OCC strategic plan update)

Recommended Replacement Work (Plan A)

- Each Directorate has a distinct role in the organization which requires individualization of their plans
- MITRE would work with each individual Directorate, along with Strategic Planning staff, to create 5 Year Strategic Plans (FY21-26)
- All work previously accomplished during the Senior Leader Meeting and Directorate work would be incorporated into the MITRE work
- Directorate plans would then be incorporated by the OCC Strategic Planning staff into an OCC Strategic Plan using the VA and VHA Long Range Plan Goals and Objectives
- Ongoing annual Operational Plans would also incorporate this work
- Leveraging MITRE resources reduces the work burden of the Directorates

Chief Health Informatics Office (CHIO)

Status: Contractor working on development of this plan

Recommendation: Do not include in MITRE work

Business Operations & Administration

Status: No current Directorate 5-year plan

Recommendation: Include in MITRE work

Delivery Operations

Status: Current 3-year FY20-22 Plan in place (Model)

Recommendation: Include in MITRE work for extension of existing work for FY23-26

Revenue Operations

Status: No current Directorate 5-year plan

Recommendation: Include in MITRE work

Network Management

Status: No current Directorate 5-year plan but completed work on the Acquisition Playbook

Recommendation: Include in MITRE work

Clinical Integration & Field Operations

Status: No current Directorate 5-year plan

Recommendation: Include in MITRE work

Directorate/OCC Strategic Plan Components

- OCC Mission/Vision/Goals
- ICARE Values
- Directorate SWOT Analysis
- Directorate Priorities (FY21 and FY22)
- Overall Strategy
- Long Term Strategic Objectives
- Strategic Goals, Indicators and Activities (possible budget impact)
- VA/VHA Goals and Objectives Linkage
- VHA Long Range Planning Framework Linkage

Long Term Planning Areas of Consideration

- Maintaining and Improving our High Performing Integrated Delivery Network
- Maintaining and Improving our work as a High Reliability Organization (HRO)
- Impact of new health care technologies
- Impact of process automation/updates
- Impact of projected Veteran demand
- Ability to provide data feedback loop to the field for health care services planning
- Impact of proper field health care services planning
- Impact of improved network adequacy
- Impact of improved care integration
- Effective Use of Resources
- Building a culture of Excellence

Recommended Replacement Work (Plan B)

- MITRE would work with each individual Directorate, along with Strategic Planning staff, to create only an OCC 5-Year Strategic Plan
- Directorate input would be incorporated using the VA and VHA Long Range Plan Goals and Objectives and the Level III Operating Plan
- Ongoing annual Operational Plans would also incorporate this work
- All work previously accomplished during the Senior Leader Meeting and Directorate work would be incorporated into the MITRE work
- This option does not reduce the work burden on the Directorates as they will still need to develop Strategic Plans commensurate with the larger OCC plan

CCN ELC Update

2/10/2021

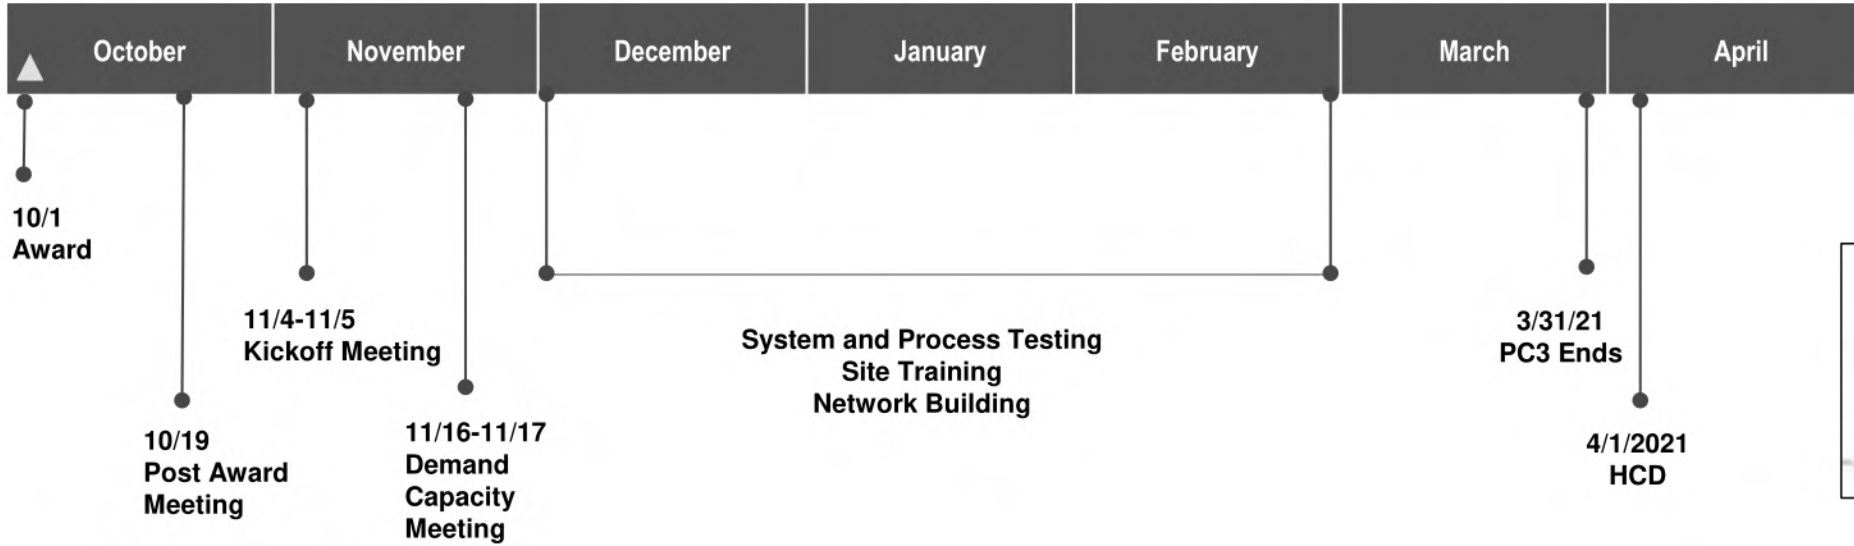

(b)(6)

- Region 5 Deployment Updates
- VA Provider Pharmacy Capability Update

R5 Deployment Updates

Region 5 Status and Upcoming Activities

Key Activities as of 2/9:

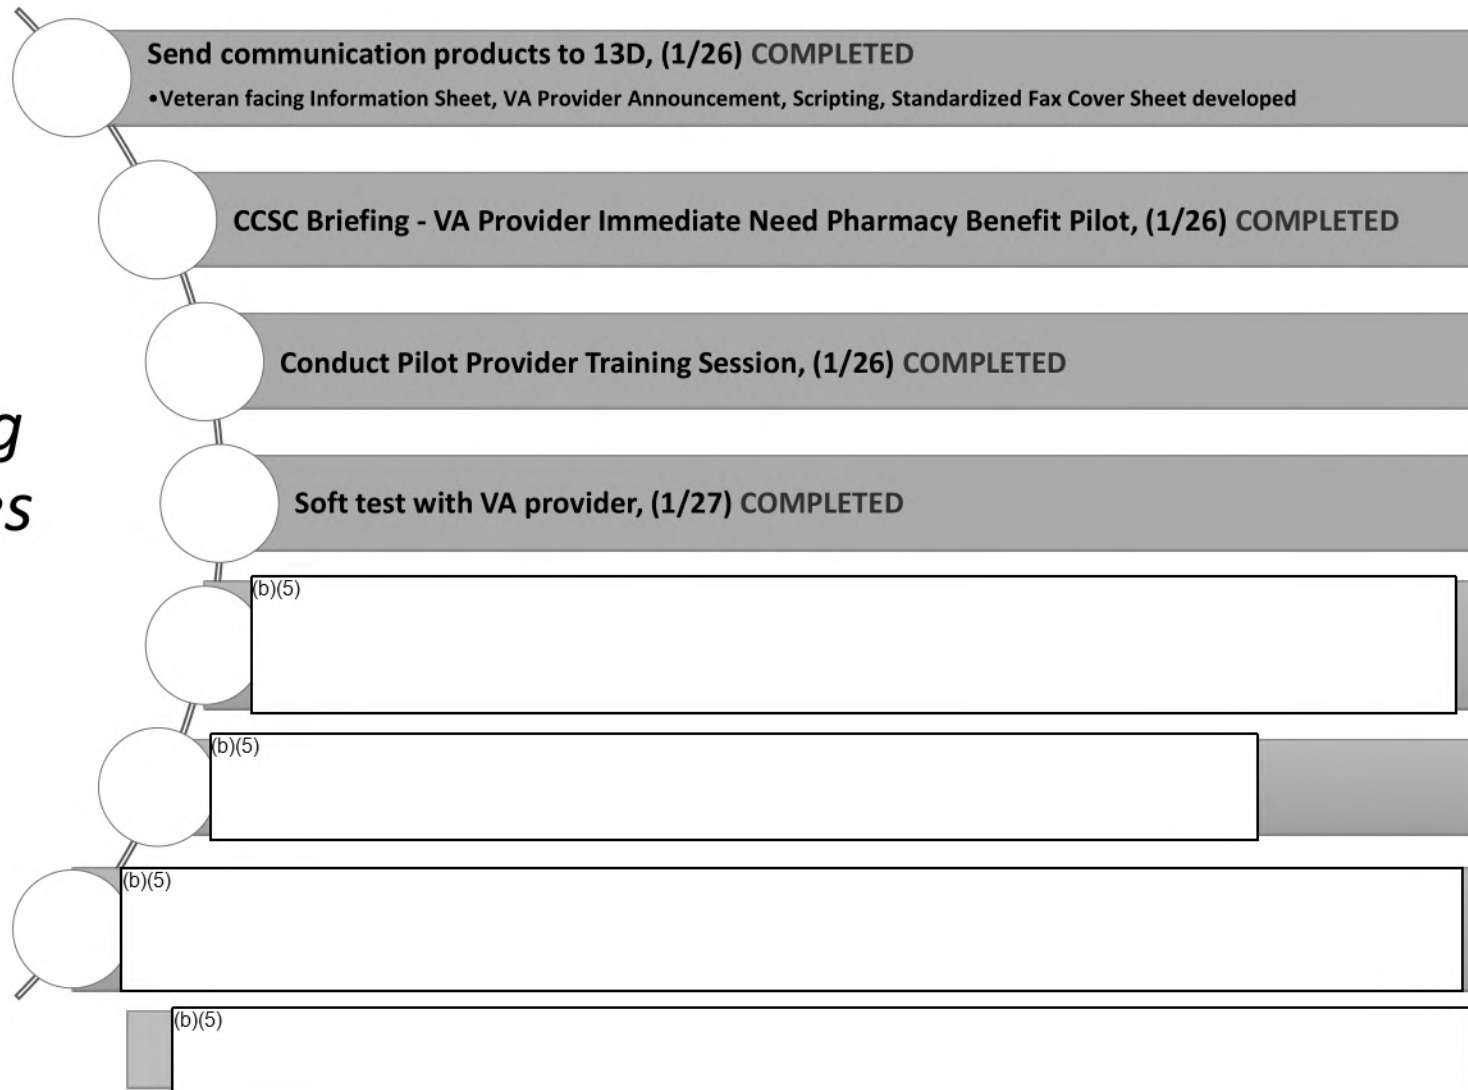

- (b)(5)
- (b)(5)
- Mod Bundle #1 has been fully executed. (b)(5)
- (b)(5)
- (b)(5)
- (b)(5)
- The R5 Dental Deep Dive occurred 2/3. (b)(5)
- VA provided CO direction to TW on several items included in upcoming modifications as requested by TW.

Region 5 Modifications and Risks Update

Category	Risk Level	Risks/Issues	Status and Next Steps as of 2/9
Payment Hierarchy and Fee Schedule Modification	High	(b)(5)	<ul style="list-style-type: none">(b)(5)
Mod Bundle #2	High	(b)(5)	<ul style="list-style-type: none">(b)(5)
Dental Modification	High	(b)(5)	<ul style="list-style-type: none">
TW Delta Dental Timeline	High	(b)(5)	<ul style="list-style-type: none">(b)(5)
HCD Date Modification	High	(b)(5)	<ul style="list-style-type: none">
VCE Modification	High	(b)(5)	<ul style="list-style-type: none">

VA Provider Pharmacy Capability Update

Upcoming Milestones

Pilot Update

- TriWest confirmed over 70 claim have been sent out under the immediate need pharmacy capability since November 2020
 - Even though the pilot did not go live until 2/1, TriWest/ESI's system capability was turned on in November 2020 and some pharmacy claims which meet the criteria (e.g., eligible VA prescriber, eligible Veteran, U/E formulary, etc.) have gone through this process
- Conducted lessons learned session with pilot participants
 - Only one issue so far
 - Many VA providers experienced long wait time (15 minutes) to speak to the pharmacists at the retail pharmacies to provide verbal orders
 - Outbound ePrescribing capability would help with this experience
 - Change management will be critical when we implement this capability region-wide or nation-wide, especially with sunseting of local first fill contracts
 - U/E formulary management and ability to add routine/maintenance medications

Pilot Issue

BLUF: CCRS has not implemented the requirements needed to support the processing of invoices for VA provider prescription capability which could impact continuance of pilot

Background

- Two CCRS Change Requests (CR) were submitted for the VA provider prescription capability implementation. One CR for CCRS to accept the VP unique prior auth number on the NCPDP file (11/16/2020) and One CR for obligation mapping requirement from Finance team (12/15/2020).
- Both CRs were not properly or timely acted upon.
- CCRS team has gone through major transition (PM transition, new IT PM onboarded, etc.) in November/December.

Current Status

- Requirements will be implemented on 3/18, with the CCRS 14.3 release. Earlier implementation is not feasible per CCRS.
- CCRS, POM, Finance, and COR team engaged to finalize requirements and address clarification questions.
 1. *Obligations – Closed (Finance submitted updated CR)*
 2. *Allocation of PMPM (prescribing provider vs dispensing provider) – Open, with COR Invoice team*
 3. *Prescribing provider validation – Closed (CCN submitted updated CR, bypass prescribing provider validation)*

Impact, Next Steps
