

REIGNITE THE AMERICAN DREAM

2024 LEGISLATIVE AGENDA

TOGETHER, WE CAN REIGNITE THE AMERICAN DREAM!

EDUCATION is the bedrock to ensuring future generations have the ability to self-actualize.

HEALTHCARE must be accessible and affordable for all Tennesseans.

TAXES must remain limited & low to ensure government accountability.

TRANSPARENCY for the government, privacy for the people!

UNIVERSAL SCHOOL CHOICE

Every parent, student, & teacher across the state should have the right to benefit from the school choice program being proposed by Governor Lee. It should be universal in application, & preserve home / private school independence.

REPEAL CERTIFICATE OF NEED

Businesses shouldn't have the ability to prevent competitors from entering the market. This is especially true for healthcare. Tennesseans are suffering from high costs & long wait times. Repealing CON is the 1st step to helping resolve these problems.

BAN STATE-WIDE PROPERTY TAXES

Tennessee needs a constitutional ban on state-wide real and personal property taxes to ensure government is not given the ability to expand its power & spending.

TRANSPARENCY IN THE HOUSE

As is already the case for the Senate, House rules should require all votes are recorded. This can be accomplished with simple hand gestures to keep things timely. Transparency is crucial to restore faith in our public institutions.
