

THE VOLUNTEER WAY 2025 LEGISLATIVE AGENDA

TOGETHER, WE CAN LEAD THE WAY!

EDUCATION is the bedrock to ensuring future generations have the ability to self-actualize.

It's time to put **REINS** on bureaucrats, once and for all.

TAXES must remain limited & low to ensure government accountability.

TRANSPARENCY for the government, privacy for the people!

UNIVERSAL SCHOOL CHOICE

Every parent, student, & teacher across the state should have the right to benefit from the school choice program being proposed by Governor Lee. It should be universal in application, & preserve home / private school independence.

REINS ACT

The Regulations from the Executive in Need of extra Scrutiny (REINS) Act will bring an end to bureaucratic rule-making that has the force of law. We must move away from unelected bureaucrats making laws and back to elected officials.

BAN STATE-WIDE PROPERTY TAXES

Tennessee needs a constitutional ban on state-wide real and personal property taxes to ensure government is not given the ability to expand its power & spending.

TRANSPARENCY IN THE HOUSE

As is already the case for the Senate, House rules should require all votes are recorded. This can be accomplished with simple hand gestures to keep things timely. Transparency is crucial to restore faith in our public institutions.
