

PATHWAY TO PROSPERITY

2025 LEGISLATIVE AGENDA

Americans for Prosperity-West Virginia's Path to Prosperity is a bold roadmap to help principled policymakers rapidly transform the Mountain State into a better place to live, work, and raise a family. To do that, we encourage state leaders to rapidly adopt proven reforms that make quality healthcare more affordable and accessible, expand education freedom to every child, rein in state spending, cut taxes further allowing Mountaineers to keep more of their hard-earned paychecks, and prudently remove unnecessary government red tape. In addition, our goal is to bolster Governor Patrick Morrisey and principled lawmakers as they work rapidly to enact common-sense policy solutions. Governor Morrisey's overwhelming electoral victory represents a mandate from the people to enact his bold economic agenda. We look forward to working closely with legislative leaders to do just that.

REGULATORY REFORM

Pass the REINS Act to help boldly, but thoughtfully, cut needless red tape standing in the way of the average West Virginian of finding their version of the American Dream.

MAKE HEALTH CARE MORE AFFORDABLE

Fully repeal all CON laws to stop unelected bureaucrats from arbitrarily denying new or expanded health care services in our communities.

EXPAND EDUCATIONAL FREEDOM

Continue to empower parents to find the right educational pathway for their child's unique needs by securing the expansion of the Hope Scholarship.

SUPPORT GOVERNOR MORRISEY'S ECONOMIC AGENDA

Join Governor Morrisey in fighting to enact bold policies that cut needless red tape, rein in out-of-control government spending, make health care more affordable, and expand educational freedom.
