

# KEY VOTE ALERT

## Key Vote Alert: Vote YES on H.R. 3898, the Promoting Efficient Review for Modern Infrastructure Today

Dear Representative,

On behalf of Americans for Prosperity and the grassroots activists across the country we represent, we urge you to support H.R. 3898, the “Promoting Efficient Review for Modern Infrastructure Today,” introduced by Rep. Mike Collins (GA-10).

The PERMIT Act represents a meaningful step toward unlocking the abundant resources of our nation that enhance quality of life, ensure reliable energy systems, and protect the vital waterways we all depend on—while limiting the politicization of the permitting process by overzealous bureaucrats. H.R. 3898 restores the Act’s original intent by grounding it in sound science and predictable regulatory standards.

AFP urges you to vote “YES” on H.R. 3898, the “Promoting Efficient Review for Modern Infrastructure Today,” on final passage in the House of Representatives.

**This vote will be recorded in our [legislative scorecard](#).** To see what other votes have been included, please visit AFP’s scorecard online at: [AFPscorecard.org](#).

Sincerely,

A handwritten signature in black ink, reading "Brent Gardner".
