

VERMONT AFFORDABILITY SURVEY

PROJECT OVERVIEW

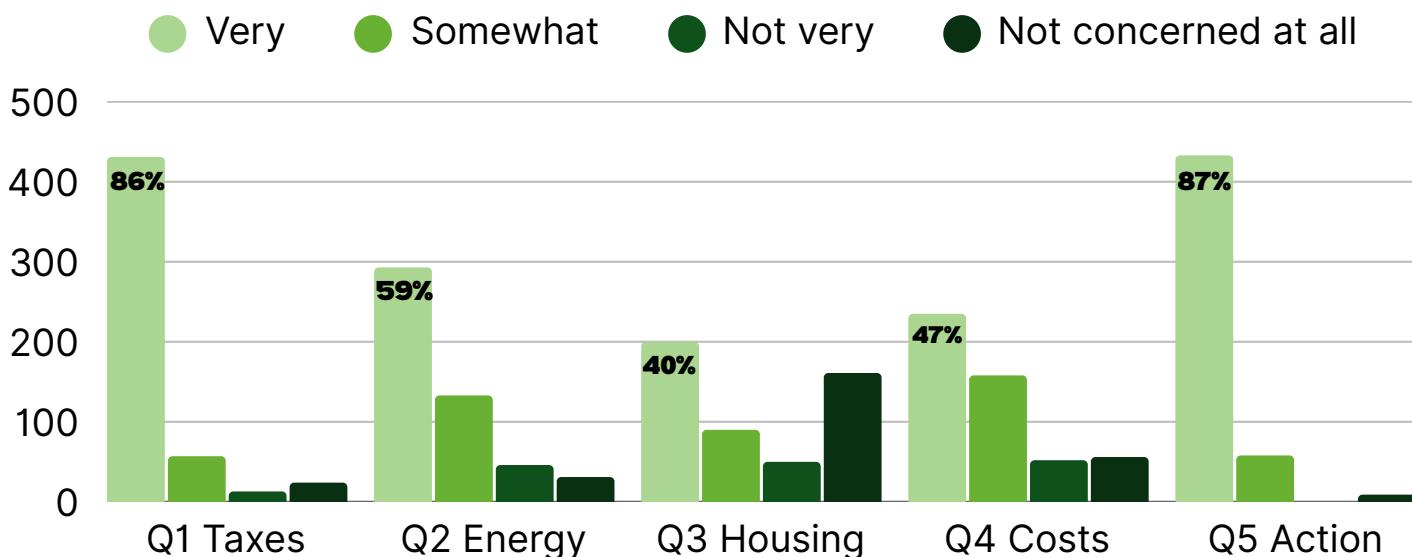

This statewide voter survey was conducted among **highly likely Vermont voters**, including individuals who identify as Republican, Democrat, and No Party Affiliation. The sample was drawn as a randomized, statewide sample, ensuring geographic and demographic representation across the entire state. All respondents were asked the same set of standardized questions to allow for consistent measurement and comparison of voter attitudes.

The survey was completed over a two-day period, December 29–30, and resulted in 500 live call completed interviews. The findings reflect the perspectives of **engaged, high-propensity voters** and provide a reliable snapshot of voter sentiment on affordability and cost-of-living issues during the 2026 legislative session.
